Vol. LXXI. APRIL 4, 1903. No. 1829

IT is evident that the liquidating movement which has been recently causing a decline of prices on the Stock Market has not yet run its course. Certain interests are under the necessity of selling securities in order to lighten a burden, which, under money market conditions, is proving too heavy to carry, and this cause of weakness still in some measure exists. Mr. Morgan's interview on Tuesday was given out manifestly for the purpose of, if possible, checking the liquidation; and it was followed by a day of higher prices; but the effect was not permanent. The truth that the current business prosperity is suffering under so many burdens that it may in the end be tired out by the weight of its own load. Large earnings are not of much benefit to the security owners of railroads, when the profits are eaten up by higher wages, higher cost of materials, and the difficulty of raising money for improvements only at high rates of interest. So it is with other branches of business. The scarcity of loanable capital hampers mercantile houses, manufacturers, and builders as much as it does the railroads, and, as long as it lasts, will undoubtedly prove to be a check upon business. The general situation is sound enough, and the mass of "undigested securities" has good value behind them; but it is only too apparent that the process of digestion will take a long time, and that many more months of the existing high rates for money would in the end undermine that confidence in the immediate business future, upon which the whole fabric of business prosperity rests.

THE ways of Governor Odell and the New York Legislature in the matter of taxation are past finding out. The Governor in his message of this year recommended that the State tap three new sources of taxation: (1) a tax in real estate conveyances; (2) a tax in the gross receipts of franchise corporations, and (3) a tax on mortgages. One after another these legislative plans were dropped. The first to be abandoned was the tax on corporation receipts, the second the tax on real estate transfers, and now the tax on mortgages has also been thrown overboard. But in order to give another exhibition of vacillation, a higher tax on real estate transfers is to be substituted for the mortgage tax. Surely it would be difficult to give a more distressing exhibition of legislative incompetency. The New York real estate interests do not know where they stand, or at what point they will be attacked next. As soon as they rally to defend themselves from danger at one point, that particular threat is abandoned, and they find themselves exposed at another point. There would have been some sense in substituting a recording tax on mortgages, in lieu of all other mortgage taxation, because, even though the revenue were unnecessary, the whole business of borrowing and lending money on real estate would be benefited by the relief afforded to mortgages through their exemption from the general property tax; but apparently that was too sensible and popular a course to pursue. Whatever is done, it must be something that will injure, and not benefit real estate. So the tax on conveyances is revived instead of the tax on recording mortgages. Moreover, the proposed rate of taxation is raised, with the effect of making it burdensome and oppressive, for it will mean a charge of $250 to be paid by somebody when a parcel worth $100,000 is transferred. Such a tax will undoubtedly produce several million dollars of unnecessary revenue at a smaller cost to the real estate interests and the Republican state administration than the mortgage tax would have done; but the superfluity and wantonness of the attack on the real estate business is enough to make a New York property-owner lose what patience he may have left. Of course it is the real estate operators and speculators who will be hardest hit, but why should they be singled out for such particular and persistent attack?

WE are sure that Mayor Low, before affixing his signature, will give due consideration to the ordinance recently passed by the Board of Aldermen, regarding the projection of ornamental features on buildings. Some measure of the kind may be desirable in the interest of artistic freedom, but it is asserted that this particular ordinance was inspired by private interests to absolve a specific building from liabilities incurred by infraction of the existing law. If this allegation be true, the ordinance should be signed with some hesitation. Moreover, it needs to receive more careful consideration from architects, builders and real estate owners than has yet been given to it, for apparently there are certain conditions under which adjacent property owners might be injured by the projections contemplated. Clearly a projection of four feet, be it a colonnade, portico or cornice, might be a very serious damage to contiguous buildings. It will be recalled that in the case of bay windows, it is necessary to obtain the consent of property owners for fifty feet on both sides of the contemplated projection before it may be legally constructed. A safeguard of this character might perhaps be inserted in the ordinance with advantage. Besides the calculations necessitated by this new measure will be a serious obstacle to the legal completion of buildings.

IT cannot be too strongly and repeatedly insisted that the Rapid Transit Commission will make a serious mistake in case it accepts Mr. Parsons' route for the lower West Side extension. The Record and Guide pointed out the inadequacy of that route, as soon as Mr. Parsons' plans were announced; and both the Evening Post and the Times have taken the same ground. What is the use of having an express service as far south as 42d street along the West Side, and from there on, only a local service? Probably it is proposed to run the West Side expresses through 42d street and down 4th avenue, but the disadvantages of such an arrangement are overwhelming. The 4th avenue express tracks will have to handle the East Side express traffic, which will include a large part of the heavy travel derived from the Bronx, and all the passengers which the Portchester road and the Vanderbilt lines can gather together; and all this traffic would be a sufficient strain upon its tracks. Moreover, the necessity of turning in through 42d street would cause the West Side expresses to lose several minutes. No! the need of four continuous tracks on the West Side is perfectly obvious, and it is inconceivable that Mr. Parsons should have overlooked it for the two-track Broadway tunnel. The notion of using Broadway as far as possible always seems to possess a peculiar fascination for the projectors of rapid transit routes; but, while a subway that used as much of Broadway, and remained as near to Broadway as it could, has manifest advantages, these advantages are outweighed by the larger capacity and the incidental conveniences of the proposed 7th avenue and West Broadway tunnel.

DURING the past week the officials of the Interborough Rapid Transit Company have taken the actual management of the Manhattan Railway system; and they made their assumption of their charge noteworthy by immediately raising the wages of the hard-worked employees of that company. It is to be hoped that they will also bear in mind the desirability of winning at the outset the good opinion of their patrons. The former management of the Manhattan Company alienated public sympathy by always refusing to improve its service until it was forced to, either by competition or by public opinion, and then by doing as little as possible. This did not make so much difference to the company, because, owing to the fact that it was sure of its position and was not bidding for new privileges, it could in a sense afford to disregard the feelings of its patrons. But the Interborough Company is, in this respect, in a totally different situation. It controls the first Manhattan and Brooklyn subways; and it will be very much to its interest to control also, the proposed subway extensions. It seeks and needs, that is, a rapid transit monopoly in three most important boroughs of Greater New York, and whether it will be able to get and keep this monopoly will depend upon the disposition it shows to give its patrons the very best accommodations that it can offer. The city of New York cannot afford to let such a monopoly remain with a company that did not appreciate to the full how vitally the prosperity and growth of the city was dependent upon an adequate train service and station accommodations. On the other hand such a monopoly might be the very best way of handling the vast rapid transit traffic, provided the management of the monopoly acted from the point of view that its natural business purpose of earning as large a percentage as possible upon its capitalization was qualified by its position as a great public servant. As an earnest desire of its intention to im-

prove the standard of its accommodations, a great deal could be done immediately to make the elevated railroad stations both more convenient and more attractive. The Barclay street station used by the west bound travel on the Ninth avenue line, would be a disgrace to a bankrupt corporation and is much more so to a company that can pay a seven per cent. dividend on a stock that is largely water. The patrons of the road would immediately show their appreciation of such rudimentary attention to their comfort by the use of the stations on a very much larger scale.

## Real Estate Situation.

**The Auction Market.**

The auction sale of property on 7th street and St. Mark's place, which was held by Mr. Geo. R. Read last Tuesday, was a surprise to the larger part of the habitual frequenters of the real estate salesroom. It was expected that the properties would sell well, for an extremely active real estate and building movement has recently been taking place in the East Side district between Houston street and 14th street; but the prices obtained and the interest manifested went beyond reasonable anticipations. The sale attracted a larger crowd to the exchange than has been observed for a long time; and the property was so eagerly competed for by outside bidders that the speculators did not have a chance. The prices obtained were remarkably high, and are to be explained only on the supposition of the liveliest local interest and confidence in the development of that particular district by the residents thereabouts. A few sales like this will undoubtedly encourage offerings at auction, which it is to be anticipated will be of more importance in the immediate future than they have been in the recent past.

**The Course of Building.**

The course of building during the first quarter of 1903 does not present so many remarkable features as the course of real estate transactions. The buying of real estate has been stimulated by its improved position as a source of income, which has gone a long way towards justifying the large increases of values, which have taken place in recent years. Building, on the other hand, is retarded by the difficulty of borrowing money, and by the high prices of labor and materials. Consequently the figures for the first quarter show, so far as Manhattan and the Bronx are concerned, a small decrease from those of last year, while the figures for Brooklyn, owing to special conditions in that borough, show an increase. In Manhattan and the Bronx taken together there were plans filed for 429 buildings during the first quarter of the current year to be erected at an estimated cost of $19,425,235. During the corresponding period of last year the number of buildings projected was 396, and the amount involved $21,760,644.

The decrease is very small and is more than made up by the increase in the new construction in Brooklyn, and the larger amount of money to be spent in altering old buildings. Unless there are business and labor disturbances this spring, it is probable that the total amount of money called for by the new building plans filed in 1903 will exceed the sum which builders planned to spend in 1902.

So far as the rate at which different classes of buildings are constructed, the following table exhibits the comparative totals of the two years—these totals being for Manhattan alone.

| | 1903. | | 1902. | |
|---|---|---|---|---|
| | No. | Estimated cost. | No. | Estimated cost. |
| Business | 64 | $5,235,000 | 45 | $5,277,000 |
| Apartment hotels | 12 | 3,300,000 | 15 | 5,290,000 |
| Tenements | 116 | 6,156,000 | 41 | 3,395,000 |
| Private dwellings | 18 | 702,000 | 35 | 2,456,000 |

It will be seen from this table that the amount of money which it is proposed to invest in business buildings is just about the same for the two years, but that the number of such buildings projected in 1903 is much larger. This confirms the fact already noted that temporarily the tendency is in the direction of smaller building enterprises; but there is no reason to suppose that this tendency is anything but temporary. The sign, however, so far as it goes is an encouraging one, because it shows that the small business men are like the big ones, prosperous, and are needing more room. In apartment hotels and residences the decrease is very considerable. The twelve hotels for which plans have been filed in 1903 call for an expenditure of only $3,300,000, while the fifteen, for which plans were filed during the corresponding period of 1902 were estimated to cost $5,290,000. In private dwellings the decrease is proportionately still more considerable. Only 18 of them, to cost $702,000, have been projected during the first three months of 1903—only 18 private residences in a borough that less than ten years ago saw the projection during the corresponding period of over 250 such buildings. These 18 dwellings are just about half the number of similar buildings which were projected during the first quarter of 1902, and they are estimated to cost only $702,000, compared with $2,456,000 during the former. The losses occasioned, however, by these various decreases are almost entirely made up by the very much more rapid rate at which tenements and apartment houses are going to be built. According to the building department records, plans were filed for 116 tenements to be erected at a cost of $6,156,000 during the first three months of this year, against only 41 tenements to be erected at an estimated cost of $3,395,000 during the first three months of last year. It is extremely probable, moreover, that this rate of increase will itself be accelerated during the remainder of the year—particularly in case the proposed compromise in relation to 7-story semi-fireproof apartment houses is enacted into the law. In that case, indeed, we should expect to see an amount of tenement and apartment house building undertaken before the end of the year, which would come very near to breaking the record.

**Three Months of 1903.**

From whatever cause the present activity in the real estate market is truly extraordinary. It not only exceeds that of any corresponding quarter of any previous year, but exceeds it by a very large percentage. The number of conveyances recorded on the first day of April of the present year, was actually two-thirds of the number recorded for the whole first week in April of 1900—only three years ago. The increases have been particularly heavy during March. The April records will not perhaps show up quite so well, for the total number of transactions recently have been very much curtailed by the threatened mortgage taxation; but now that this threat is disappearing we may expect a renewal of trading, which will go even further in the direction of breaking past records.

In order to show what this activity has amounted to and how it has been distributed throughout the first three months of 1903 and among the three most important boroughs of the city, we have prepared the following table, which gives the facts in as succinct a form as possible:

| | 1903. | | 1902. | |
|---|---|---|---|---|
| | No. | Am't involved. | No. | Am't involved. |
| **MANHATTAN.** | | | | |
| January | 1,204 | $10,426,603 | 1,136 | $13,836,175 |
| February | 1,176 | 11,807,064 | 1,034 | 14,317,819 |
| March | 1,439 | 16,545,070 | 1,204 | 14,518,621 |
| Total | 3,819 | $38,778,737 | 3,374 | $42,672,615 |
| **THE BRONX.** | | | | |
| January | 372 | $622,245 | 425 | $653,961 |
| February | 288 | 1,428,521 | 305 | 1,565,063 |
| March | 354 | 331,290 | 355 | 860,689 |
| Total | 1,014 | $2,352,056 | 1,085 | $3,079,713 |
| **BROOKLYN.** | | | | |
| January | 1,562 | $2,158,197 | 1,464 | $2,383,630 |
| February | 1,273 | 1,886,792 | 1,290 | 2,991,835 |
| March | 1,296 | 2,480,244 | 1,424 | 2,004,259 |
| Total | 4,631 | $6,525,233 | 4,178 | $7,379,724 |

It will be seen from this table that during the three months the total of transfers recorded in Manhattan were 3,819 against only 3,374 in 1902, and 2,703 in 1900, an increase of 13 per cent. in one year and 33 per cent. in the three years covered by the present movement in real estate. This increase of 13 per cent. is very extraordinary, and indicates a very much more widespread and wholesome demand for real estate than has existed either in 1901 and 1902. It looks, that is, as if during the next year or two, New York property owners would have the advantage, not merely of the usual speculative inquiry for desirable parcels, but of an excellent demand both for investment and for use; and that the increase in values would not be localized as heretofore, but would extend to all the chief divisions of the more important boroughs. Brooklyn like Manhattan is to be congratulated upon an altogether unusual amount of activity, the total number of conveyances have increased from 4,178 during the first quarter of 1902 to 4,631 during the first quarter of 1903. It is evident that shrewd speculators are looking forward to an unprecedented demand for Brooklyn property as a result of the new bridges and tunnels. Bronx, on the other hand, shows a slight falling off, for the means of communication to that borough are such, that it is difficult to secure tenants for recently erected houses; but this condition will not much outlive the present year.

WHEN the Raines law was passed the high license fees that it imposed were the cause of closing hundreds of saloons in this city, and there is good ground for believing that the effect of the Excise bill, which the Governor signed on Thursday, will be somewhat similar now, though the consequences will not be so severe. Whether this would be a good thing for the community is a question that we are not prepared

to discuss, nor do we go altogether with those who seem to think that saloon respectability increases with the cost of a license. Our present duty is simply to point out that one economic effect of increased license fees is to reduce the value of properties in certain sections, which is a fact that those interested in those properties have to bear in mind. Many saloon keepers found that they could not pay the fees required by the Raines Law in their then positions and either had to close up or go into cheaper premises. An idea of the influence of this law on values may be obtained when we say that a competent authority estimates the loss to the tax rolls alone at fully $10,000,000, and those who are acquainted with the state of store property on the avenues at the extreme east and west sides of Manhattan for some years after the law was in operation will know that this estimate is not an exaggerated one. An addition of fifty per cent. to the license fee, equivalent in some cases to five per cent. per annum upon a capital of $8,000, would have to be met wholly or in part by a readjustment of rents between the landlord and the saloon keeper. It should be added, however, that the inconvenient effects of the excise increase will, so far as real estate is concerned, be insignificant compared with the proposed mortgage tax legislation which was its alternative. Moreover it will have the incidental advantage of adding about $1,000,000 per annum to the local revenues.

## The New "Semi-Fireproof" Apartment House.

WE are glad to see that the economic side of the Tenement House question has not been overlooked by the friends of Tenement House Reform. There was some reason two years ago for fearing that this important side of the problem might be more or less disregarded. It was possible that the sunlight and fresh air sought for would be obtained mainly through the agency of vacant lots. The new conditions sought for might be such that it would be impossible for owners to build profitably. One of the chief successes of the reform movement has been that it has accomplished so much of its purpose within commercial limits. One of the perennial dangers of the Tenement House question is, that it runs so easily towards philanthropy. It would be easy enough to throw New York into a situation in which Pittsburg has found itself, namely, that of being insufficiently provided with accommodation for certain classes of its inhabitants. But there is no likelihood of there being any cessation of tenement house building in New York City. Indeed, the figures that have appeared so far this year show a revival of activity along many lines. The only subject that has needed any special consideration has been the seven-story tenement house. This class of building occupies a peculiar intermediary position in the scale of structures. Under the existing law the seven-story tenement must be fireproof, six-story being the limit for non-fireproof buildings. On the other hand it has been demonstrated practically that the six-story building is one story too low to be profitably erected on lots worth more than twelve or fifteen thousand dollars. As to the fireproof seven-story building it is too expensive for these locations and, of course, cannot compete with the seven-story non-fireproof buildings erected under the old law, or even with neighboring six-story non-fireproof buildings built on less expensive lots. On the other hand, the situation of much of this more valuable property is such that it would not pay in improving it to jump at once to nine or ten-story fireproof building, because the necessary rent could not be obtained. A great deal of property, particularly in the upper sections of the city on the better and on the broader streets, is of this nature. It is too valuable for the six-story non-fireproof building and not valuable enough for the nine or ten-story fireproof building and the seven-story fireproof building is an anomaly, or half-breed which excludes itself as a commercial proposition.

The readiest way out of the difficulty, of course, is to sanction the erection of a seven-story non-fireproof building. This solution indeed, has been proposed and very earnestly advocated by property owners and others, who were more impressed with the fact that building on a great many lots had become an impossibility, than with any other fact. On the other hand those who were more concerned with the city and its social welfare than with the property owner and his profits, were strongly disinclined to allow any reduction in fireproofing requirements. A seven-story non-fireproof building would be, in their view, a crime—a really dangerous element in the development of the city, which might have to be eradicated at some future date in very much the same way that the unsanitary tenement house has had to be eradicated recently. Indeed, the feeling of people of this type is hostile even to the six-story non-fireproof building. They believe that that class of structure is one story beyond the safe limit. If they had their way, we would have no non-fireproof building in this city beyond five stories in height. These people are not doctrinaires whose experience is out of touch with real estate interests. Many property owners, themselves, as well as builders and others support this opinion.

The logic of a situation of this kind points clearly enough to some form of compromise. It is obvious that it would be a hardship to interdict the seven-story building of some kind, commercially possible. On the other hand it would be too great a risk to permit a non-fireproof seven-story structure. The compromise that has been suggested seems to us to be a safe and adequate solution of the difficulty. It is proposed that legislative sanction be sought at once for permission to erect a "semi-fireproof" seven-story building—that is a building wherein the staircase, dumb-waiter shafts, etc., shall be fireproof as at present required, but in addition, each of the floors shall be made fireproof, constructed of iron beams and terra cotta or some other approved fireproof material. This exempts the studding, partitions, roof, etc., from fireproof requirements.

Thus, it is proposed to create an intermediate class of buildings—a class which shall stand between the non-fireproof building and the thoroughly fireproof structure.

The Record and Guide is opposed to any lowering of the fireproof standard. It is our belief that New York City should be a city of fireproof buildings. This condition cannot, of course, be reached in a day. The rights of a great many people have to be considered and it is necessary that progress should be made slowly. No one, however, should retard this progress or remove the eyes of people from the desirable result. We believe, however, that the seven-story "semi-fireproof" building as proposed is warranted, even keeping in mind the ideal for the future. It relieves a situation which is in some degree oppressive. It enables builders to commence a large amount of needed improvement. If in a special case it lowers fireproof requirements slightly, this departure from the standard will be more than offset by the effect that it will have upon the six-story non-fireproof class, for, we think, it will be discovered that in a great many cases it will be more profitable for owners to build the seven-story "semi-fireproof" building than the six-story non-fireproof building, particularly as the value of lots is continually increasing on Manhattan Island. Moreover, with the fireproof floors we shall obtain a very substantial and safe building. For these reasons it is our opinion that the new type of tenement house proposed—the semi-fireproof structure—merits the endorsement of Mr. de Forest and others in authority, and it is the belief of the real estate world that if legislative sanction be obtained, a large investment will be made in this class of building which we predict will become very popular with tenant and owner.

### Bill to Provide for Semi-Fireproof Apartment Houses.

The following is the bill which will be substituted for Assembly Bill 1059, and which permits the erection of seven-story semi-fireproof apartments:

An act to amend chapter three hundred and thirty-four of the laws of nineteen hundred and one, entitled "An act in relation to tenement houses in cities of the first-class," as amended by chapter three hundred and fifty-two of the laws of nineteen hundred and two, in relation to fireproof tenements.

The people of the State of New York, represented in Senate and Asesmbly, do enact as follows:

Section 1. Section eleven of chapter three hundred and thirty-four of the laws of nineteen hundred and one, entitled "An act in relation to tenement houses in cities of the first-class," as amended by chapter three hundred and fifty-two of the laws of nineteen hundred and two, is hereby amended to read as follows:

Section 11. Fireproof tenements, when required.—Every tenement house hereafter erected exceeding six stories or parts of stories, in height above the curb level, shall be a fireproof tenement house, nor shall any tenement house be altered so as to exceed such height without being made a fireproof tenement house.

Except that a tenement house may be erected to a height not exceeding seven stories provided that each and every floor of such house is constructed fireproof with iron or steel beams and fireproof flooring, and provided also that such house is furnished with a properly constructed power passenger elevator, sufficiently large to carry six persons at one time, which shall be operated so long as such tenement house is occupied. A cellar, the ceiling of which does not extend more than two feet above the curb level, is not a story within the meaning of this section.

Section 2. This act shall take effect immediately.

—As nothing whatever has been done to the section of Bronx Park lying west of the Bronx River since it was acquired for park purposes, it is proposed this coming year to clean it up, lay out roads and walks and plant shrubbery. About fifty acres is

embraced in the section, and as the crowds of people which flock to the Botanical Gardens on the north and the Zoological Gardens on the south spread out through this place, it has become a very central place and requires some attention. The Commissioner of Parks in that borough, John E. Eustis, asks for an appropriation of $18,500 for this special work.

## A Building Code Subject.

An ordinance emanating from the Building Department and now before the Board of Aldermen amends section 4 of the Building Code in relation to filing statements, specifications and plans, and the revocation and cancellation of permits and approvals. The main purpose of this ordinance is to extend the jurisdiction of the Superintendent of Buildings over conversions of buildings from one purpose to another, and to give him power to cancel permits in case of failure to comply with the provisions of the Building Code. The other changes are alterations in the wording of the present section, suggested by the Corporation Counsel's office, for the purpose of making the section agree with the new Charter provisions, and making the subject matter of the section a little clearer. These changes are not very material, except the one relating to the limitation of the permit. The ordinance is so changed that a permit under this bill expires by limitation unless work under the same has been carried above the foundation walls within one year from the time of the issuance of the permit. The bill in part provides as follows:

"Section 4. Filing Plans and Statements.—Before the erection, construction or alteration of any wall, building or structure (building or part of any building, structure, or part of any structure, or wall, or any) platform, staging or flooring to be used for standing or seating purposes, and before the execution (construction) or alteration of the plumbing or drainage of any building, structure or premises, or part thereof, and before the conversion of any building or structure, or part thereof, from one purpose, occupation or use to another, is commenced, the owner or lessee thereof or the agent, architect, builder or plumber, of either (or agent of either, or the architect or builder employed by such owner or lessee in connection with the proposed erection or alteration) shall submit to the Superintendent (Commissioner) of Buildings for the borough where (in which) the premises are situated, and file in the Bureau of Buildings for such borough, a detailed statement in triplicate of the specifications for such proposed erection, construction, alteration, conversion, plumbing or drainage, on appropriate blanks, to be furnished by said Superintendent of Buildings, together with full and complete plans, and such structural and detailed drawings and descriptions, of said wall, building, structure, platform, staging or flooring, premises, plumbing and drainage, and of the proposed work, as the Superintendent of Buildings may require."

The importance of having the Superintendent oversee operations for the conversion of a building from one purpose to another is too plain for argument. When a dwelling is changed into a warehouse and vice versa the Building Department should have some authority in the matter, as well as in other building operations.

## Some References to Legislation.

The most noteworthy occurrences of the week at the State Capitol was the surrender of Governor Odell to the public sentiment in opposition to his Mortgage Tax bill. The Governor's prestige totters under a succession of severe blows, and everything seems to be at sixes and sevens in his cabinet. Of all the tax measures introduced or proposed with his consent, only the Stevens inheritance tax bill and the Excise tax bill have become laws. That Mr. Odell persisted in forcing the liquor act through surprised his old acquaintances who know the extent to which he is indebted to the liquor trade for his early successes in politics.

Senate bill No. 740 provides a system for indexing conditional bills of sale of certain articles of personal property, such as elevators, plumbing, gas fixtures, etc., used in the construction and equipment of buildings. In regard to this bill, Mr. W. H. Chesebrough, president of the Century Realty Company, says that it frequently happens under the existing state of the law that these articles are purchased by builders and installed in their buildings without being fully paid for, the purchasers having entered into contracts with the sellers that the seller shall retain title to the property until full payment has been made. Of these contracts, owners, subsequent purchasers and mortgagees have no notice, and there is no way in which they can obtain notice. The usual method of protection: that is, to rely upon an affidavit from the builder that the articles have been fully paid for, has been proven totally inadequate. Mr. Chesebrough is much in favor of the bill.

A bill introduced by Assemblyman Prince (No. 1,584), providing that no tenement house shall hereafter be erected in the city of New York on any made or filled in ground shall exceed four stories in height.

PROTECTION FOR MECHANICS.

Mr. Butler's bill amending the Labor law, in relation to the protection of employees on buildings and bridges in course of construction, provides that every contractor, sub-contractor or owner, when constructing a building or bridge, shall provide a network or other sufficient device to protect persons employed thereon in case they fall from such building or bridge. Whenever complaint is made to the Commissioner of Labor that any such net or other device is not sufficient to afford protection to persons employed on any such building or bridge, he shall immediately cause an inspection to be made thereof. If found insufficient, he may prohibit the use thereof, and require the same to be altered or reconstructed so as to provide sufficient protection.

A circular from the City Club names, as the real author of the mysterious Goodsell trolley bill, Henry A. Robinson, general solicitor of the Interurban Street Railway Company. Presuming that he knows what the bill is intended to accomplish, nobody else does. Senator Goodsell seems more willing to introduce "mysterious" bills for other constituencies than he is for his own, as Orange County newspapers are asking why he has not, as requested by the Board of Supervisors, presented bills making the offices of county clerk and sheriff salaried.

The Clark bill, which gives the Mayor of New York City the right to purchase the Staten Island ferry, has been advanced to third reading, and recommitted to the Committee on Cities.

## Tunnel Operations Wait.

The Record and Guide is authoritatively informed that no contracts whatever for constructive work in connection with the Pennsylvania tunnels have been let, the plans yet being in the formative state in a number of important particulars. Even the method for boring the subaqueous tubes yet awaits determination by the President and Board of Directors of the road, but an intimation has been dropped that the supervising committee of expert engineers look with special favor upon the shield method proposed by Chief Engineer Jacobs, which is being used successfully in the trolley tunnels under the Hudson, and is regarded as a completely demonstrated and certain means.

Besides the Jacobs and Sooysmith methods, both of which have been essentially described in the Record and Guide, John F. O'Rourke, contracting engineer, has proposed a system consisting of piers sunk below the river-bed and connected by submerged tubular spans. The construction would comprise four principal processes: the construction of temporary working shafts about 500 feet apart; the building on shore, launching and floating to position of sections of the tunnel which will reach from shaft to shaft; the sinking of these sections to subgrade between the shafts; the alignment and connection of the sections in final position; the removal of the shafts or piers above them; and such back-filling as may be required. The method of tunnel construction proposed by Mr. Jules Breuchaud, C. E., provides for the preliminary construction of a pile foundation or solid footing in successive portions made just in advance of the tunnel walls and roof and all built within the protection of a rectangular shield. Several shields would be simultaneously operated by this method. Cylindrical shafts would be projected through the roof and carried above the surface of the water.

The only outside work thus far begun is some small boring operations to test the nature of the ground to be worked in; and to facilitate these operations, some buildings have been demolished on the sites of shafts that are to be sunk on the Manhattan, Long Island and Jersey shores. Thus, buildings at the terminal of the Long Island Railroad have within a week disappeared, and there, on a site long occupied by an iron express shed a shaft will be sunk and the tunnel started in two directions. On Manhattan Island, George W. Jump & Co., several weeks ago tore down a couple of buildings on the north side of 32d st, near the corner of 11th av, and immediately in the rear of Cooper & Wigand's former foundry, which, having been purchased by the railroad company, will also be removed. The firm of Cooper & Wigand (recently reorganized as the Cooper-Wigand-Cooke Company), has concentrated its manufacturing departments at Newark. It was intended that No. 559 West 32d st, the corner building, should also be removed, but William Dinnien, who occupies the store, has a lease until 1907, and as he refuses to vacate the premises, the railroad company appears powerless to eject him. Dinnien refers everybody to his lawyer, who says that the case is in court. Little or no visible progress in the general work has been made in the last six months. Probably important action and announcements await the granting of the right of way through 32d st.

The consents of owners of property assessed at $7,006,500 have been secured; owners of $31,477,600 worth have not replied; and those controlling $523,500 in real estate in the immediate neighborhood are still actively opposing the plan, ostensibly because they fear their buildings will be put in danger, if not seriously damaged, while the tunnel is under construction. Much of the former opposition disappeared this week when the Netherlands Corporation transferred to the Stuyvesant Real Estate Co. Nos. 414 7th av, 430 8th av, 202, 204, 222, 236 and 242 West 33d st, and William F. Donnelly transferred to the same company 239 and 241 and 253 West 32d st. Both of the sellers represent the interests of Sire Brothers.

J. Clarence Davies & Co. have removed their branch office from 111 Broadway to 156 Broadway, Rooms 7 and 8.

The realty holdings of the Provident Realty Co. above 59th st, some fifteen parcels, will be offered at auction on the 21st inst., by the McVickar Realty Trust Co.

The justices of the Supreme Court, First District, have issued an order removing the place for holding legal sales of real estate, after May 31, from 111 Broadway to 161 Broadway.

Lowenfeld & Prager were the sellers of the block front on the south side of Broome st, between Eldridge and Allen sts, not Mandelbaum & Lewine, as reported in our last issue, they were also the sellers of 805 to 809 5th st.

Muhlker Bros., experienced real estate brokers and agents, have added a department for placing all kinds of insurance; fire, life, accident, liability, etc. Their office is at 1396 Lexington av, corner 92d st. Telephone 2776 79th st.

Arthur S. Cox & Co., to better accommodate their growing business, have enlarged and refitted their offices at No. 31 Pine st. Arthur S. Cox and John J. Bueb comprise the firm. Mr. Cox was for seventeen years with Geo. R. Read.

Edward Kohn, for several years with Julius Friend, has entered the ranks of the realty workers on his own account and opened offices at No. 713 Broadway, corner Washington pl, where he is associated with Walter N. Gladke under the firm name of Edward Kohn & Co.

A deed recorded yesterday shows that the Farmers' Loan & Trust Co. is the real buyer of the property 20 to 24 Exchange pl, running through to 63 and 65 Beaver st, the sale of which by the Alliance Realty Co to the United States Realty & Construction Co. was reported several weeks ago. The contract for the purchase of the parcel was subsequently assigned by the latter corporation to the Farmers' Loan & Trust Co., whose building at the northeast corner of William and Beaver sts it adjoins. The Farmers' Loan & Trust Co. paid in the neighborhood of $500,000 for the property.

Philip A. Payton, Jr., the young colored broker and agent of 67 West 134th st, with branch office at 119 Nassau st, has by intelligent and indefatigable work built up an extensive and profitable business. His specialty is the management of colored tenements. Recent sales completed by Mr. Payton include the 3-sty dwelling, Nos. 250 West 130th st, 60 West 134th st and 102 West 126th st, and the 5-sty flats, 106 and 108 West 134th st, sold to J. Mr. Payton bought 13 West 121st st, a 3-sty dwelling, for his own occupancy.

A dispute over the valuation of the property at 42d st and 7th av, on which the Victoria Theatre stands, is to be referred to the Supreme Court for settlement. The litigants are Mrs. Anna F. Davidson, widow of John McBride Davidson, who leased the property from Robert J. Livingston in 1882 for twenty-one years at a rental of $5,000, with privilege of renewal, and Mrs. Louisa M. Gerry, wife of Commodore Elbridge T. Gerry, who inherited the ground from her father. The lease being about to expire, Mrs. Gerry selected Michael Coleman as appraiser to fix the new rental, while Mrs. Davidson chose Samuel Goldsticker. Mr. Coleman says that the property is now worth $900,000 and that $40,000 would be a fair rental. Goldsticker disputes this, and points out that the assessed valuation of the porperty is only $450,000. The two appraisers have been unable to reach an

agreement, and Mrs. Davidson will ask the courts to remove Coleman and appoint another appraiser, on the ground that he is not acting in a fair and impartial manner. This is one of those properties which leaves room for a considerable difference of opinion as to value. The Rossmore Hotel sold in 1901 for $70.40 per square foot, the price included something for the value of the buildings, Nos. 1456 to 1460 Broadway on the east side, between 41st and 42d sts, sold in 1900 for $38.28 per square foot, prices have advanced considerably since then and both of these sites are as good if not better than the one under discussion. Certainly the Rossmore is better at $70.40 per square foot, and this is about Mr. Coleman's figure, the Victoria site would be worth $915.200 which does seem very high, while $450,000 would make a square foot price of only $34.61, which is certainly too low. The average of both of these figures is $52.50, which would make the site worth $682,500, which is probably nearer the value than either of the other figures and probably what both appraisers were aiming at.

# The World of Building

## Material Market.

IRON AND ITS PRODUCTS.

The disposition of the pig-iron market has notably softened, and if there is any significance in this for other lines, builders may look for some measure of concessions after a long period of subjection to hard terms. Until now the producers of pig iron persistently refused to make lower figures than prevailed last fall, saying that they had orders ahead for a long time and were indifferent as to the present temper of buyers. Notwithstanding the protestations, the average sales for each week were but little more than fifty per cent. of the week's output. The announcement by the Southern Furnace Association of a reduction in the price of pig iron to the basis of $16.50 per ton for No. 2 Foundry at Birmingham, Ala., for Eastern territory, is a confession that the former price was decidedly artificial. The official price for a number of months has been $18.50 for No. 2, foundry, at Birmingham, for both Eastern and Western territory, but outside interests have been selling as low as $17.50 per ton. The decision of the manufacturers of bar iron not to advance prices, and the surprising fall in steel plate are also favorable signs for builders.

Never was there an era when values were more arbitrarily fixed by trade councils than now. A few lines of business, in building materials, remained unorganized until last winter, but then it seemed that every one of these formed its respective association. On the whole, it is all right to co-operate, but in this as with everything else the benefits will not be without alloy. In the face of the truth that the iron mills have orders that will keep them busy for months, the price of raw material and of some finished materials fall, simply because the combination overestimated the ability of the public to pay, and by so doing checked the demand; and unless it is revived there will be nothing doing for some mills when the orders placed last fall are all worked up. It would seem that a standard of values well within average ability to pay, yet returning a fair working profit, would pay best in the longer run than would be ensured by moderation.

In turning to other lines one must for awhile yet expect to pay the limit, but if what is going on in iron is a criterion he may look with confidence for better terms in due season, and for the encouragement of that greater tide of prosperity in which the man of moderate means may participate as well as the rich. In the hardware trade, there is a seasonable call of large proportion for staple articles, in a few instances in excess of the supply. In order to be accurate it must also be noted that in some lines the supply greatly exceeds the requirement. Thus, manufacturers of shovels are weeks behind in their orders, but axes are a drug in the market. Builders' hardware moves briskly in spots, elsewhere being slow. The importations of hardware during the past year exceeded those of the preceding year by about 50 per cent. Hardware manufacturers are secured against trouble with their workmen by an agreement made last year which will not expire for some time yet.

Machinery orders are becoming heavy under recent assurances of continued good times. The only drawback is the closeness of the money market. Manufacturers of electrical machinery, refrigerating plants and stationery engines are especially busy.

Indicative of the times is the issuance of $2,000,000 of new stock of the Westinghouse Machine Co., which will increase the capital of the company to $5,000,000, and permit of extensions to the plant. The stock pays ten per cent. dividend.

The American Bridge Company report that the orders booked during March aggregated a handsome tonnage. The past week they closed a contract with the Atchison, Topeka & Santa Fe Railroad Company for 3,500 tons; with the Pennsylvania Railroad Company for 4,000 tons of bridgework and 1,000 tons of structural work; with the Missouri Pacific Railroad Company for 2,000 tons; with the Pittsburg, Carnegie & Western Railroad Company for 1,000 tons; and for a bridge for China for 1,000 tons. It is confidently believed that the strikes among the workmen will be settled in a short time.

BRICK.

The close of the week finds the labor situation in the brick industry devoid of excitement. The "agents" of the local handlers' unions control for the most part the field of operations, and the shippers are submitting to the exactions. But early in the week there was an affair of note, which left a wedge sticking in the armor of the board of walking delegates to show that they are not all powerful. The owner of an up-river boat, upon his arrival here, refused to permit a delegate to put a New York handler on his boat, and the delegate undertook to drive from the dock every truckman who had been drawing brick from that boat. But the owner found trucks to haul his material which the "agent" could not turn away, and then the threat was made that work would be stopped on the buildings where these bricks were being delivered. Resolved to test the ability of the agent to make good his threat, the owner continued to deliver in spite of the delegate, and the work was not stopped even for a minute on the buildings where they were laid down.

Another story is that a prominent firm of material dealers bought a cargo on the understanding that it should not be handled by the local union handlers and truckmen, the firm wishing to test for themselves the power of the delegates. The brick came through all right and are being used. It would seem from these occurrences that the city bricklayers are not in sympathy with the local handlers, and why they should make a choice between the up-river and the local handlers, when all are unionized, is evidently not apparent to them.

The market had sent out 70 barges this week up to Friday morning, an unusually large number. Prices average low, though the surplus is less than it has been at any time since navigation opened. Haverstraw is almost cleaned out of brick, for when other points were shut out by ice the manufacturers there were able to ship. The receipts now are principally from Newburgh Bay, but next week the distant up-river points, which have been thus unable because of freshets, will begin transporting their product to market, and the receipts are expected to be large.

Prices are very unsettled. Every sale is a special bargain, and there is no ruling price for any grade. In general prices for Hudson Rivers range as low as $4.75, and from that up to $5.50.

The John B. Rose Company have collected the following comparative statistics of brick on hand at the opening of navigation for the years 1902 and 1903:

| | 1902. | 1903. |
|---|---|---|
| Hackensack and outside districts | 15,610,000 | 18,362,000 |
| Haverstraw Bay.* | 118,648,000 | 102,952,000 |
| Newburgh Bay. | 67,850,000 | 74,352,000 |
| Rondout district | 64,564,000 | 45,378,000 |
| Upper Hudson | 41,662,000 | 54,815,000 |
| Total | 308,334,000 | 295,859,000 |

*Including Verplancks and Croton.

Showing that there were 12,475,000 more brick on hand last year at the opening of navigation than there were this year. In addition to this the number of brick which arrived in this market this year, up to March 23, exceeded the number for the same period last year by about 50,000,000, and a conservative estimate made by a competent judge shows that there are at least 10,000,000 of brick less stacked up in this city than there were at that date, showing a shrinkage of over 70,00,000 in the amount on hand.

## The Labor Situation.

The first of April brought no change in the relations between masters and men in this city, neither disclosing new grievances nor healing wounds already bleeding. The strike of the structural iron workers against the American Bridge Company continues, and the only new conflict in the vicinity is reported from Westchester county, where a general advance in wages by mechanics in the building trades is being contended for. The nature of the demand has been heretofore specified in these columns. As both sides have comprehensive alliances and have long prepared themselves for this tug of war, it is expected that it will be long drawn out. Every considerable place in the county and the adjacent parts of the State of Connecticut is a section of the battle-ground, and consequently the building business in nearly all its branches is simply stopped like a clock

out of kilter. To give a large list of suspended works is therefore quite unnecessary, but a partial one may be interesting: Eugene Reynal's new mansion, costing $1,000,000; Edward L. Marston's new casino, at Bryan Shore, $50,000; P. G. Thebaud's new manor house, at White Plains, $500,000; Richard Harding Davis' new bungalow, $50,000; Old Women's Home, at Harrison, $500,000; C. Oliver Iselin's improvements to All View, $250,000; M. J. Condon mansion, $250,000; J. A. Peck villa, $45,000; Iselin Catholic Church for Italians, $50,000; J. Borden Harriman's house, $100,000; Moses Taylor's new stable, $50,000; five villas at Larchmont, $150,000; eight new cottages at Greenwich and Sound Beach, $300,000.

The struggle of the structural ironworkers drags its weary length along, with more numerous signs of distress from the strugglers. More and more apparent is it that the local workmen have little heart in it, being more the victims of the International Committee than any distorted ambition of their own. They were simply called on to help out a board of delegates which had little cause other than the conceit of its members for throwing so many men out of work. The Bridge company, with its numerous resources, seems to be but little concerned.

The leader of the local union, Samuel J. Parks, is personally not in favor of a general strike of ironworkers, which the International Committee has ordered to be made on May 1. But, as he says, he does not carry the union in his pocket, though, as we take it, his opinion is fairly representative of the feelings of the New York City workmen. Asked whether Mr. Buchanan could extend the strike to the entire subway and other contracts if the men decided against it, he said very decidedly:

"I should rather think not! If the union decides against a strike, what can he do? In such a case there will be no strike. But I do not believe the strike will be extended, and I DON'T BELIEVE IT WILL BE EXTENDED TO OTHER BUILDING TRADES. There would be no justification for that in my opinion."

Mr. Parks's statement conforms with reason, intelligence and a better knowledge of local feeling than appears to obtain in the national council. The other day, as the Record and Guide is informed by a gentleman prominent in the building trades, the president of this national body was asked if he was aware that the sentiment of this community was much opposed to his proceedings, and he retorted with heat: "The public be damned; I'm looking out for my men.". But if this personage should be turned down and fail to deliver the goods on May Day, it will not be the first time, as we hear.

## Architect's Suit for Commission.

The case of Robert Maynicke, the architect of 725 Broadway, against the Central Realty Bond and Trust Company, was on trial for three days this week in the Supreme Court, before Justice O'Gorman. The trial ended in a disagreement of the jury, which stood 8 to 4 for the plaintiff, whose attorneys were Kellogg & Rose, of No. 120 Broadway. Mr. Maynicke sued for the sum of $80,000, as commission, which he claims to be due him for drawing plans and specifications for the big Broad-Exchange Building. His plans, which were made, as he claims, at the request of the Central Realty Bond and Trust Company, through three of the directors of the company, were filed with the Building Department, and upon these plans, though afterwards amended, the building permit was issued. Subsequently another architect was employed, but the plaintiff claims that his plans were used. At the trial the defendant made a general denial, but testimony was given that $30,000 worth of stock of the construction company was offered to the plaintiffs in settlement of his account, but Mr. Maynicke declined to settle on that basis. The architect had rendered a bill in accordance with the rate fixed by the American Institute of Architects.

The Judge charged that if the plaintiff made plans for the building at the request of persons connected with the company, even though they were not authorized by the company to employ him, and the company used those plans or derived benefit therefrom, the plaintiff was entitled to recover. The case was intricate owing to the intimate relations existing between the Central Realty, Bond and Trust Company, the Alliance Company, which was the construction company, and the Broad-Exchange Company. It appeared that the Alliance Company was organized after Mr. Maynicke had been asked to prepare plans, and that the George A. Fuller Company, in conjunction with the Alliance, formed the Broad-Exchange Company.

## For a New Bellevue Hospital.

The Board of Aldermen, upon the recommendation of the Finance Committee, has appropriated $75,000 for the preparation of plans whereby to construct a new Bellevue Hospital. The need of a new Bellevue has long been known. The present Bellevue is eighty-five years old, and it bears a bad name to the poor of the city, to whom, in so many instances, it is the only hospital to which they can be sent. During the eighty-five years that it has been in existence the general plan has remained unchanged. It is the great emergency hospital of the city, and in order to have beds ready for new cases of acute illness and accident it is necessary, on account of overcrowding, to transfer daily to the institutions on Blackwell's Island from 8 to 16 cases a day (during February, 1903, an average of 15 a day), many of whom are really unfit to leave their beds. There are no proper facilities for the examination and admission of patients, there being but one room in which all the applicants for admission must be examined. Admissions average about 75 a day, but sometimes reach 100. The members of the House Staff occupy very crowded quarters, and have to sleep three, four or five in a room. The employees of the hospital sleep in the basement, some rooms containing 25 to 30 men.

# Building Operations.

LEADING ENTERPRISES OF THE WEEK IN NEW YORK CITY AND STATE, NEW JERSEY AND CONNECTICUT.—HINTS TO BUILDERS, CONTRACTORS AND DEALERS IN MATERIALS.

### Red Brick and Limestone for a Fifth Ave. Apartment.

Plans have been filed with the Tenement House Department for an 11-sty apartment house to be built on the northeast corned of 5th av and 11th st. The plot is 51.4 on 5th av, 125 on 11th st, and has a rear L 48 ft running north. The building will be fireproof, skeleton steel construction, with exterior walls of Indiana limestone and red brick. It will be in the style of the French Renaissance.

A central feature of the 5th av facade is a series of grouped windows with copper trim running from the 2d to the 9th stories. The 11-sty will be a mansard roof with copper trim. At the 8th sty a wrought iron balcony extends around the building. Every window in the building has a wrought iron balcony. There will be an interior court 45x15 and a 10 ft rear court extending the entire width. The entrance hall is 14 ft wide and is separated from the public parlors and reception room only by rows of columns. There will be two 10-room apartments on a floor, each containing 3 baths and 2 servants' rooms.

The 11-sty will contain a large laundry with all modern conveniences and devices and 12 servants' rooms. Two large water filters will be fixed at the main. W. E. Finn, of 115 Broadway, is the owner. The plans were originally drawn by F. A. Minuth but have been turned over to Henry Andersen, of 1183 Broadway. Contractors may submit estimates to F. Correll, 43 5th av.

### New Home for a Publishing Firm.

38TH ST.—W. B. Tubby & Brother, 8 Fulton st, are drawing the plans for the new building to be erected by the Publishers & Printers' Realty Co., in which Col. W. D. Mann, editor of "Town Topics," 452 5th av is interested. The building will be 14-sty high and cover a plot 250x98.9 on the south side of 38th st, 175 ft west of 8th av, part of it will be occupied by "Town Topics" and the remainder sub-let. In the rear, on 37th st, on a plot 50x100, a 3-sty power house will be erected, it will contain the power heating and lighting plant for the main building, the top floor will be used for the storage of coal. The plans will be ready for estimating in about two weeks. The plot is now being excavated.

### Two Factories for First Avenue.

1ST AV.—E. B. Meyrowitz, optician, No. 104 East 23d st, will build a 6-sty factory on the northeast corner of 1st av and 31st st, on a plot 50 ft on 1st av, 100 ft on 31st st, and a rear L, 25 on 31st st and 100 deep. The building will be of mill construction with walls of brick and will cost about $60,000. It will have electric lights and elevators. It is expected to be finished by Jan. 1, 1904. No architect has yet been chosen.

### New Schools and Additions.

The Committee on Buildings, with the approval of the Board of Aldermen, has directed that the erection of the following school buildings and additions be proceeded with as speedily as possible:

Borough of Manhattan.—De Witt Clinton High School, new building 10th av and 59th st.

Third District, Public School 75.—New building, Hester, Essex and Norfolk sts.

Sixteenth District, Public School 150.—New building, East 95th and 96th sts.

Eighteenth District, Public School 165.—Addition, 108th st and Amsterdam av.

Truant School, addition, 21st st, between 2d and 3d avs.

Borough of the Bronx. Twenty-third District, Public School 29.—Addition, Trinity av and 136th st.

Twenty-third District, Public School 37.—New building, 145th and 146th sts, east of Willis av.

Borough of Brooklyn. Thirtieth District.—New building, 18th and 19th sts, between 6th and 7th avs.

Thirty-eighth District.—New building, Coney Island.

Borough of Queens. Forty-second District, Public School 6.—New building, Albert and Theodore sts.

Forty-third District, Public School 47.—Reconstruction, Jamaica.

Borough of Richmond. Forty-fifth District, Public School 27.—Addition, New Springville.

For plans filed see pages 675 and 696.

Forty-fith District, Public School 19.—Addition, West New Brighton.

Forty-fifth District, Public School 26.—New building, Linoleumville.

Forty-sixth District, Public School 8.—Addition, Giffords.

Forty-sixth District, Public School 1.—Addition, Tottenvilie.

A new building at Prohibition Park, Borough of Richmond.

Involving a total estimated expenditure of $2,480,000.

### Apartments, Flats and Tenements.

BROADWAY.—Clinton & Russell, 32 Nassau st, have drawn plans for an apartment house to cover the block bounded by 78th and 79th sts, Broadway and West End av, the building will be 10 and 12-sty high, the size of the block being 200x250, there will be an interior court 75x100; John Jacob Astor is the owner.

AV B AND 3D ST.—A. E. Badt, No. 1 Union Square West, has drawn plans for a 6-sty brick tenement, 24x72, to be built on the northwest corner of Av B and 3d st, for Samuel Barkin, of 123 Bowery. Estimated cost, $30,000.

AV C.—George F. Pelham, 503 5th av, has drawn plans for two 6-sty brick tenements, 36.4x76.11, to be built at Nos. 73-75 Av C for Meyer Frank, of 17 Attorney st. Estimated cost of each, $40,000.

AV A AND ST. MARK'S PL.—Bernstein & Bernstein, 111 Broadway, has drawn plans for a 6-sty brick tenement, 24.8x63, to be built on the southwest corner of Av A and St. Mark's pl, for Mrs. M. Wintie, of 204 East 72d st. Estimated cost, $25,000.

124TH ST.—Charles Adams, 2137 Madison av, who has just purchased the plot, 50x100.11, on the south side of 124th st, 225 feet east of Broadway, will erect a 6-sty elevator apartment house from plans by L. F. J. Weiher, 103 125th st.

AV D.—A. E. Badt, No. 1 Union Square West, is drawing plans for a 6-sty tenement, 38.8½x75.4, cost $50,000, to be erected by Morris Jacobs, 218 East 6th st.

104TH ST.—John Paterno's Sons, 507 West 112th st, will erect a 6-sty elevator apartment house, on plot 87.6x100.11, on the south side of 104th st, 185 feet east of Amsterdam av, from plans by George F. Pelham, 503 5th av.

31ST ST.—Mulliken & Moeller, 7 East 42d st, are drawing the plans for a 12½-sty hotel, to be erected at 34 and 36 West 33d st, on a plot 50x100, for the Rutgers Realty Co. (William Crittenden Adams). The proposed structure will be connected with the Grand Hotel, which it adjoins, and upon completion will be leased by W. G. Leland. The general contract has been awarded to the Construction Realty Co.

5TH ST.—C. B. Meyers, 1 Union Square West, is drawing plans for a 6-sty tenement at 610 and 612 East 5th st, 37x96, for Kerschenbluth & Jacobs, 101 East 88th st.

31ST ST.—Gillespie & Carrel, 1123 Broadway, have completed plans for a 6-sty tenement for J. Roth, to be erected at 157 to 161 West 31st st.

51ST ST.—Gillespie & Carrel, 1123 Broadway, are drawing plans for a 6-sty tenement to be erected for B. House, at 306 to 310 West 51st st.

BROOME ST.—Horenburger & Straub, 122 Bowery, are drawing the plans for four 6-sty tenements with stores, to be erected at 275 to 289 Broome st by Harris Fine, 309 Henry st. The cost will be about $175,000.

BROOME ST.—Bernstein & Bernstein, 111 Broadway are drawing plans for a 6-sty tenement at southwest corner of Broome and Sullivan sts, 43.6x60, for Friedman & Fineberg.

13TH ST.—Bernstein & Bernstein, 111 Broadway, have completed plans for Baum & Lapin. They will erect two 6-sty tenements, 17.9x80 at southeast corner of 13th st and 1st av.

3D AV.—Bernstein & Bernstein, 111 Bway, are completing plans for the erection of a 6-sty tenement at 422 and 424 3d av, 50x100, for J. Witners, 236 East 53d st.

13TH ST.—Sass & Smallheiser, 23 Park Row, are completing plans for the erection of a 6-sty tenement at 346 and 348 East 13th st, 42x103, for Mr. Gotlieb, to cost about $50,000.

DIVISION ST.—Sass & Smallheiser, 23 Park Row, are drawing plans for a 6-sty tenement, 39x63x83.10, to be erected at northwest corner of Division and Ridge sts, to cost about $40,000, for Pachtman & Levine.

15TH ST.—Sass & Smallheiser, 23 Park Row, will prepare plans for the erection of a 6-sty flat at 207 to 211 East 15th st, 36.3x103, for Pachtman & Levine, to cost $35,000.

SULLIVAN ST.—Sass & Smallheiser, 23 Park Row, are drawing plans for the erection of a 6-sty tenement at 104 and 106 Sullivan st, 47x100, for Mishkind & Feinberg, to cost $40,000.

ST. MARKS PL.—Sass & Smallheiser, 23 Park Row, are drawing the plans for the erection of a 6-sty flat at 26 St. Mark's pl, 26x108, for Braverman, Silverson & London. Cost, about $30,000.

112TH ST. WEST.—Sass & Smallheiser, 23 Park Row, are completing plans for a 6-sty apartment house to be erected at 19 and 21 West 112th st, 50x100.6. Cost, $50,000, for I. R. Horowitz.

RUTGERS ST.—Sass & Smallheiser, 23 Park Row, are preparing plans for the erection of a 6-sty tenement, 44x86, at 60 and 62 Rutgers st, for Hilman & Golding. Cost will be about $35,000.

BROOME ST.—Sass &Smallheiser, 23 Park Row, have in preparation plans for a 6-sty tenement to be erected at 44½ and 46 Broome st for Hilman & Golding, to cost about $35,000.

46TH ST.—Henry Worms, 320 Broadway, will build a 12-sty bachelor apartment house on a plot 50x100.5 at 57½ and 59 West 46th st; Neville & Bagge, 217 West 125th st, are the architects.

### Mercantile.

PINE ST.—The property at 91 and 93 Pine st, southeast corner of Front st, will be improved by the Santos Company, of which W. K. Aston, 41 Wall st, is president. Work will begin on May 1, and a 7-sty office building, 41.6x92.6, will be erected. The property is in the coffee district and it is the intention of the owner to cater to that trade; Clinton & Russell, 32 Nassau st, will probably be the architects.

HOUSTON ST.—W. G. Pigueron, 7 East 42d st, is drawing plans for a 9-sty store and loft building, 40x80.3, which he will erect at 34 and 36 West Houston st.

### Dwellings.

SANDS POINT, N. J.—C. P. H. Gilbert, 1123 Broadway, is drawing plans for a residence and stable for W. N. Miller. It will be after the Spanish style of architecture.

82D ST.—Plans are being drawn by C. H. P. Gilbert, 1123 Broadway, for a 5-sty stone residence for C. I. Stalem, to be erected at 14 East 82d st.

52D ST.—Frederick G. Bourne, president of the Singer Manufacturing Co., has bought a plot 70x100.5, on the south side of 52d st, 30 ft east of Madison av, and will erect a dwelling on the site. Ernest Flagg, 35 Broad st, will draw the plans.

89TH ST.—Edward Thaw, 1 West 72d st, will erect a dwelling on a lot 30x100.8 on the south side of 89th st, 135 ft east of 5th av. No architect has been selected.

### Estimates Receivable.

Sealed bids will be received by the Superintendent of School Buildings at the office of the Board of Education, until 12 o'clock noon on Monday, April 13, for:

BRONX.—Installing electric light wiring, fixtures and electric bell system in new public school 6 (65), southerly side of 177th st, between Bryant and Vyse avs.

MANHATTAN.—For sanitary work, new public school 31, southwesterly corner of Monroe and Gouverneur st. For furniture and telephone system of new high school of commerce, on 65th and 66th sts, between Amsterdam av and Broadway. For erecting iron gate at stairs of various schools in the Borough of Manhattan. For full particulars see page No. 657.

### Contracts Awarded.

H. Strauss & Son, 107 East 64th st, have the general contract for the erection of a 3-sty frame cottage at Bayswater, Far Rockaway, L. I., for Max Mayer, from plans by Werner & Windolph. They desire estimates from sub-contractors.

The following contracts have been awarded by the Board of Education for work in Brooklyn schools, general construction of coal vaults in girls' high school, to Lusbader & Glantz at $9 633; heating and ventilating in 142, to Blake & Williams at $20,880; in Manhattan, enclosing roof playground in Public School 1, to Hopkins & Co. at $1,730; and in Richmond, for installing heating and ventilating apparatus in high school to Blake & Williams at $18,120. All bids for construction of Public School 84, Queens, were rejected. George Hildebrand was the lowest, at $199,500.

EDGEWATER, N. J.—J. C. Vreeland, 1133 Broadway, has been awarded the general contract for erection of the Knickerbocker Sugar Refinery, at Edgewater, N. J. Plans by G. M. Newhall Engineering Co.

5TH AV.—W. G. Maher, 1133 Broadway, has received the contract for the carpenter work for the 9-sty hotel to be erected at 12 5th av, from plans by Pollard & Steinam, also the contract for Library No. 16, from plans by Babb, Cook & Willard.

Charles T. Wills, 156 5th av, has received the contract to erect the library for J. P. Morgan on 36th st, between Madison and Park avs. McKim, Mead &White, 160 5th av, are the achitects.

### Alterations.

CORTLANDT ST.—C. L. W. Eidlitz, 1123 Broadway, is drawing plans for an addition of four stories to the present buildings of the New York Telephone Co., at 16 to 20 Cortlandt st. This alteration will make these buildings the same height as 14 and 22 Cortlandt st, the latest ones to be erected.

23D ST.—F. C. Zobel, 165 Broadway, is drawing plans for an extensive alteration to the building at 202 West 23d st, for I. Miller, theatrical bookmaker, now at 497 6th av.

### Miscellaneous.

1ST AV.—Clarance True, No. 729 6th av, is drawing plans for a 6-sty brick fireproof factory on a plot 75x100, on the east side of 1st av, between 31st and 32d sts, for Paul L. Bryant. A stable 25x100 will occupy a portion of the ground floor. The building

will contain electric lights and elevators. Plans will be finished by May 1st. All builders are referred to Mr. True.

EAST BROADWAY.—The Order of the Daughters of Jacob, now located at 40 Gouverneur st, will erect a home for aged women at 301 and 302 East Broadway, a plot 48x79.5 They have just purchased the property. No architect has been selected.

### Suburban.

NEWARK.—Hooper & Co., of 238 Washington st, have been appointed architects of the projected ten-room addition to the Central Avenue School by the school house committee of the Board of Education. The contract calls for the expenditure of about $25,000.

William Crabb & Co., manufacturers of mill supplies, will shortly start the erection of an extension to their plant at Bloomfield av and the Morris Canal. The buildings are to be located at North 4th st and 3d av, and will cost in the neighborhod of $40,000. The architect is F. F. Ward, of 203 Broadway, New York. The plans call for a main building of brick construction and one story high. It will be 200x260 feet in dimensions. The structure will contain grinding, hardening, machine, annealing and wood-working departments. There will also be an extension to be used as a boiler-room. The one-story building will give special advantages for light. Besides the main building there are to be two smaller buildings to be used for storage purposes. The contracts have not been awarded.

The foundation work on four 4-sty brick buildings at 307 and 309 Springfield av was started last week. The owner will be William H. Barkhorn, and the estimated total cost is placed at $40,000. The specifications call for a colored brick front with stone trimmings. All modern improvements. The main floors are to be fitted up as stores. Carl F. Rehman is the architect.

The Lidgerwood Company, of 96 Liberty st, New York, is reported to be almost ready to start work on its new plant, to be located near Frelinghuysen av. A foundry will be the first building to be started. When this is completed and put in operation other parts of the present shops in Brooklyn are to be removed here. It is expected that it will take several years to complete the transfer. The plans are in the hands of the company's engineer, and are said to call for several structures of handsome design. The main buildings are to have grass terraces in front. Part of the building scheme is said to include the erection of at least 100 dwelling houses for the employees of the concern, which is reported to be the purchaser of large tracts of ground west of Frelinghuysen av, but within easy reach of the proposed plant. This part of the work is not expected to be started before late in the present year or next spring.

Architect Thomas Cressey has been awarded the work of drawing plans for the proposed central fire station which is to be erected by the city on the old burying-ground facing Halsey st. The building is to supplant those now occupied by No. 1 Engine and No. 1 Truck Company. The central station will also accommodate reserve apparatus for the fire department. The exact plans and cost have not been determined on. Hurd & Sutton have been appointed the architects for the proposed Fourth Police Precinct Station-house that is to be built at Livingston st and 17th av. It will cost about $20,000.

The plans call for a 3-sty brick structure 44x60 ft, with a piazza 80 ft long and 10 ft wide on the south and east sides. The ground floor will contain a reception hall 22x25 ft; game room, reading room, dining-room and restaurant, kitchen, emergency hospital and back piazza. The basement will contain double bowling alleys, 56 ft long, boiler and coal room, 16x24 ft; gymnasium, 15x25 ft; toilet and wash room; 50 lockers; bath room with two tubs and three showers. The top floor contains 22 sleeping rooms, toilet rooms, educational class room and committee room and auditorium, divided by flexifold partitions. The auditorium will be 22x42 ft. The building committee expects to commence work on the new building April 15.

ALBANY, N. Y.—Preliminary plans for the three municipal buildings to be erected in the South End have been completed and within a few days the details will be finished for submission to the contractors for bids. The buildings will be a station house 41x61, an engine house and a bathhouse. Address Mayor Gaus or City Engineer Melius.

SYRACUSE, N. Y.—Mrs. Mary H. Dickinson, of No. 401 Montgomery st, has purchased of Colonel A. C. Chase a vacant lot at Harrison st and Comstock av, upon which she will erect a modern residence, to be occupied by herself and family. The building committee of the First Methodist Church met with Architect Russell this week and canvassed the bids which had been submitted for the erection of the new church. Rev. Dr. Charles N. Sims is chairman of the committee. Bids have been received for the Greek Church soon to be erected at the corner of Tompkins st and Wilbur av. The edifice will cost about $7,000, and the committee in charge consist of Marx Pyznick, Frank Petrunak, Andro Warrian, Paul Kowanecky and Alex Macko.

AUBURN, N. Y.—It is understood that the committee from the City Club to which was referred the matter of securing plans and specifications for the proposed new clubhouse on the site of the Horace T. Cook property in Genesee st, is about ready to report. The plan favored is one of four submitted by a firm of New York architects, who came into competition with firms in Syracuse and Auburn. It calls for a building of colonial style, about 64 ft square, constructed of brick and to cost about $30,000. The building proposed would be four stories.

## Of Interest to the Building Trades.

The Appellate Division in the Second Department has just rendered a decision to the effect that "in no event would the erection of a flat or tenement house be a violation of the covenant against erecting anything but dwelling-houses."

At a largely attended meeting at Cooper Union last Sunday only one man opposed a resolution in favor of the municipal ownership of franchises, and he was a Chinaman, who objected because he said it would be paternalism, of which he had already seen enough in his native land.

It transpires that the vaults under the sidewalk at the northwest corner of 42d st and 6th av, which the city considers a nuisance and is trying to abolish, exist by permission officially granted to the owner, John Watts de Peyster, many years ago, and pending a decision by the courts cannot be disturbed. It is understood that Mr. de Peyster derives a large rental from them.

Henry Males, painter and decorator, of 2580 3d av, near 139th st, make a specialty of painting metal ceilings. He does work in his line for such leading metal ceiling contractors as the Berger Mfg. Co., Canton Steel Ceiling Co., H. S. Northrop and others. He is also a dealer in painters' supplies. Telephone 1094 Melrose, calls Mr. Wales.

M. F. Wynn & Co., the well-known contractors for roofing, were not fully settled in their new, commodious and well-equipped quarters at No. 409 East 24th st, when they were routed by a fire in the upper stories of the building, which necessitated their removal to temporary offices at No. 399 1st av, near 23d st. They will return to their 24th st headquarters as soon as possible, likely in a couple of weeks.

A resolution in the Board of Aldermen this week which authorized the Mayor to appoint a commission to prepare a comprehensive plan for the beautifying and development of this municipality, the members of which shall serve without pay, and shall make a report on or before the 1st day of May, 1904, to the Mayor and the Board of Aldermen, was made a special order for the next meeting at 2 o'clock P. M.

The Logan patent horse stall, which has been on the market for many years, and extensively used in the better class of stables, is acknowledged to be the best by many. This stall is constructed on purely hygienic principles, which adds largely to the health and comfort of the horse. It can be adapted to both new and old stables. Booklet and testimonials will be sent to those interested on application to the patentee, M. Logan, Broadway and 50th st.

The Hawkins Iron Construction Co. have removed their office to 66 Fulton av, Queens Borough, where their works are also located. ## Pushing On.

The Harlem Property-Owners' Association, which is keeping up a sharp fight against the proposed Park av viaduct assessment, has secured from the Appellate Division an expression intimating that the Legislature has no power to impose an assessment upon specific property for the benefit of the railroad company. The Court says:

"The objection to the constitutionality of the provisions authorizing an assessment upon specific property for this improvement presents serious questions. The act provides for an elevation of the track of the New York & Harlem River Railroad Company, and of its lessee the New York Central & Hudson River Railroad Company.

"There is nothing in the act to show that this improvement was designed for the benefit of the public, the city at large, or the owners of abutting property; and it is not clear that the Legislature has authority to provide that expense incurred for the benefit of these railroad companies, in order to enable them to comply with the law of the United States, which requires them to elevate their bridge across the Harlem River, can be imposed upon specific property under the guise of an assessment. But this objection can only be taken when the assessment is imposed upon some specific property; and as no such assessment has yet been imposed, we think the question is not presented upon this appeal."

Since the association was organized, October 31, 1901, it has prevented the removal of the station at 110th st and Park av, and through co-operation with the United Real Estate Owners' Associations it has stopped injudicious local legislation and secured changes in the Tenement House Law. As a member said, "we propose to fight until our streets and avenues are properly paved, until Harlem secures its share of public improvements, and until abuses shall cease."

## Death of Deputy Register Bohmer.

Ferdinand Bohmer, Deputy Register of New York County, died on Monday, the 30th ult., from apoplexy at the Presbyterian Hospital, where he had been under treatment for two months for appendicitis. Mr. Bohmer, who was fifty-four years old, was a member of the Grand Army of the Republic and a veteran fireman of the Borough of the Bronx. He was Assistant Deputy Register when Register Ronner took office, in January, 1902. At that time Matthew P. Breen was Deputy Register. When Mr. Breen was transferred to the Magistrate's bench in January last, Mr. Bohmer succeeded to his place in the Register's office. Mr. Bohmer lived at 815 Courtlandt av, Bronx, where he had a grocery store. A widow and two married daughters survive him. The funeral services were held at the Bronx Club, Franklin av and 169th st, on Thursday afternoon, and the interment was at Woodlawn Cemetery. The following resolutions were adopted by the employees of the Register's office:

Whereas, the late Deputy Register exemplified in his daily life, conduct and action every attribute of character that distinguishes an ideal public officer—rugged honesty, great executive ability and a disposition to serve the public well and faithfully. Be it, therefore,

Resolved, that the community has sustained in the death of our late associate the loss of a valued and tried public servant, a man of splendid executive ability and one whose public life was as clean as his private life was pure.

Similar resolutions were adopted by the members of the Bronx Club, of which Mr. Bohmer was the Treasurer.

## The Aquarium Threatened.

The Aquarium at the Battery is in danger from the antiquated conditlon of the water pipes, which have been in use ever since the fishes have been there. Those supplying the floor pools are completely rusted out, and have been abandoned, and the floor pools are being supplied daily with water through a number of unsightly overhead pipes. The heating pipes are still in use, but will undoubtedly give trouble from time to time. Two bad breaks in water pipes have already occurred, but being near the outside end, the attendants were able to get at them and make temporary repairs. All the pipes for pools and heaters lie deeply embedded under a heavy cement floor covered with tiles. The next break may occur at some point beyond reach, and as there are no openings through which workmen may pass, they will be obliged to break through an $8,000 tile floor and a strata of cement to a depth of 4 ft. It seems to Director Townsend inadvisable to break up this valuable floor, and he is urging the laying of new pipes through a cement tunnel with short branches. This will cost in the end, he believes less than temporary repairs.

He also says it will be impossible to greatly beautify the exhibition tanks without more light. It has long been known that the building is dimly lighted, and it seems imperative that the skylights over the fish tanks be trebled in size. No less amount of light will permit a satisfactory view of the collections, and attempts at introducing salt and fresh water plants will be more or less abortive unless more light can be arranged for. The great centre floor pool is so dark that it is practically useless to attempt to do anything with it. The top opening in the large dome must be greatly widened in order to get any satisfactory results. The roof skylights above the floor pools are not centred over the ceiling openings, and it will not be possible to get light into the smaller floor pools without changing their positions.

The average attendance at the Aquarium is about 5,000 daily. The appropriation for the coming year is $46,500, but the Zoological Society is taking steps to obtain an extra sum of $30,000 with which to put the building in repair, and to safeguard the valuable collection. The Society would also like to have further changes made; for instance, the installation of an electric light system, which would enable the building to be thrown open at night, and a general painting inside and out. The total cost would be about $30,000.

## New York Capital for Brooklyn Real Estate.

The Lawyers' Realty Company will be the name of a new company to be organized to deal in Brooklyn real estate. The company will have a cash capital of $4,000,000, and will have a close alliance with the Lawyers' Title Insurance Company and the Lawyers' Mortgage Insurance Company of New York and Brooklyn. William H. Reynolds, who for many years has been largely identified with Brooklyn realty, will be one of the directors, a member of the investment committee and the general manager of the company. The incorporators of this company are preparing to take advantage of a rise in values, which they confidently expect will take place in Brooklyn, as a result of the many transportation improvements which are shortly to materialize.

## New Bridge in Bronx Park.

The improving of the westerly end of Bronx and Pelham Parkway and the increase in that direction has made it necessary that the small, narrow bridge across the Bronx River in Pelham av should be replaced with a new bridge. The easterly end of this bridge is at the entrance to the Bronx Park proper on the east side of the river, and the westerly end of the bridge is at the entrance to the Baird Court of the Zoological Park, and opposite thereto is the new driveway constructed through the Bronx Park last season, leading directly through, by the Herbaceous Gardens, to the Botanical Buildings. The cost of the improvement is estimated at $34,000, and is likely to be in the budget this year.

—Mr. Gotschall, the president and chief engineer of the N. Y. and Portchester Electric Railway, the building of which the N. Y. & N. H. Co. has opposed, says it will be the most important example of high-speed electric railroading in the country, and will embody all recent improvements in its equipment. It has been frequently announced and never authoritatively denied that the New York and Portchester Corporation intends to build its line right on to Boston.

We will give ten cents each for the following numbers of the Record and Guide brought to this office in good condition: No. 253 and No. 1,802.

## CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

# MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

March 27, 28, 30, 31, April 1 and 2.

**The Private Branch Exchange System** of supplying **TELEPHONE SERVICE** is particularly adapted to the requirements of **LARGE HOTELS** and **APARTMENT HOUSES**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

## British Standard Sections.

About two years ago a committee was formed under the auspices of the Institution of Civil Engineers, the Institution of Mechanical Engineers, the Institution of Naval Architects, the Iron and Steel Institute, and the Institution of Electrical Engineers, for the purpose of ascertaining whether the sections of iron and steel which are rolled in that country could be reduced in number and made exactly uniform in dimensions.

It was ascertained when the subject was investigated that an infinitely larger number of sections of angles, tees, bulbs, channels and beams were produced in Great Britain than in the United States, Germany or Belgium. The first result was the production of nine lists of sections which are recommended for adoption by the committee. It is needless to say adherence to them cannot be enforced, and it is still open to every manufacturer to make as large a variety of sections as formerly. There are, of course, two points of view from which to regard the subject, viz., the producers' and the users'; the latter will require information respecting weights and strength which has yet to be prepared. Many engineers, architects and designers have favorite sections which have served their purposes during several years, and which they may not care to relinquish on the moment. It is, however, an advantage in dealing with wrought iron and steel that it is always possible to reach a desired degree of strength by a skilful arrangement of available materials. If one standard section does not serve another can be used which will afford an excess of strength without much addition to the cost of construction.

The first list shows sections of angles with equal sides, beginning with 1 inch by 1 inch. The sizes increase by quarter inches by 3 inches to 3 inches. Then 3½ inches by 3½ inches, 4 inches by 4 inches, and 4½ inches by 4½ inches. The other sections are 5 inches by 5 inches, 6 inches by 6 inches, 7 inches by 7 inches and 8 inches by 8 inches. The sections will vary in thickness, and it is said that angles ordered to the standard thickness shall be practically accurate in profile, but if the thickness is between, above, or below the standards the flanges will be proportionately longer or shorter than the standards. The profile at the back of the toe will be slightly rounded when above the standard instead of square, but the radii at the root and toe will remain unchanged. In equal-sided angles the thickness of the flanges will be the same. It is suggested by the committee that all angles

be ordered by size of flanges and weight per foot. The curves at the root and toes are of very simple kind which can be easily struck out.

The unequal angles begin with 1¼ inch by 1 inch, and as follows: 1½x1¼, 1¾x1½, 2x1½, 2½x2, 3x2, 3x2½, 3½x2½, 3½x3, 4x2½, 4x3, 4x3½, 4½x3, 4½x3½, 5x3, 5x3½, 5x4, 5½x3, 5½x3½, 6x3½, 6x4, 6½x3½, 6½x4, 6½x4½, 7x3½, 7x4, 8x3½, 8x4, 9x4, 10x4.

Bulb angles, bulb tees, bulb plates, Z-bars and channels are not much used in building construction, and we therefore need not notice the different sections.

There are thirty sections of rolled beams or joists recommended for use, which are as follows, the dimensions being given in inches: 3x1½, 3x3, 4x1¾, 4x3, 4¾x1¾, 5x3, 5x4½, 6x3, 6x4½, 6x5, 7x4, 8x4, 8x5, 8x6, 9x4, 9x7, 10x5, 10x6, 10x8, 12x5, 12x6, 12x6, 14x6, 14x6, 15x5, 15x6, 16x6, 18x7, 20x7½, 24x7½. The weights vary from 4 lbs. to 100 lbs. per foot. The flanges slope from the web upwards, and the standard thickness is to be measured at distances half-way between the extreme edges of the flanges and the nearer side of the web. It is suggested that all beams be ordered by depth of section, width of flanges and weight per foot.

The T-bars are of the following dimensions, in inches: 1x1, 1¼x1¼, 1½x1½, 1¾x1¾, 1½x2, 2x2, 2¼x2¼, 2½x2½, 3x2, 3x2½, 3x3, 3x4, 3½x3½, 4x3, 4x4, 4x5, 5x3, 5x3½, 5x4, 6x3, 6x4, 7x3½.

To anyone without experience in the use of steel the recommendations may appear to be insignificant. But the adoption of the sizes will be little short of an industrial revolution. For designers the use of normal sections will be advantageous in saving time, and to the makers of beams as well. It will no longer be necessary in the United Kingdom to institute inquiries about the obtaining of sections of the dimensions which are sometimes introduced in drawings without any consideration as to whether they are easily obtainable in the market. The number of sections of rolled beams is very satisfactory, and architects are not likely to encounter any difficulty in spans or loads to which one or other section is not equal. The rolling mills can easily produce the standard sections owing to the simple arrangement of the profiles. In the course of a year the sections generally required will, no doubt, be on sale.

## Roofing Tin.

Statistics show that during the last three or four years, or since the American Tin Plate Company began to reform the methods of producing terne plates, the efforts of that company to re-establish the old-time reputation of roofing tin have met with splendid success. The use of terne plates, especially of the higher grade brands, has increased to a very great extent, and this material is now largely preferred to other kinds of roofing material. The truth of the motto "The Best is the Cheapest in the End" is recognized by the consumers.

When the American Tin Plate Company came into possession of all the larger tin plate works in the country, it also gained the services of the best experts in this branch of industry. The combined experience and knowledge of the latter, as well as of the experts engaged by the U. S. Steel Corporation, of which the American Tin Plate Company is a constituent, are at the disposal of the American Tin Plate Company. This fact, strict supervision, and the systematic mill practice which prevails in all of that company's works, enable it to produce material superior to all other makes. The most favored brands at present are the "MF" Old Style and the "U. S. Eagle N. M.," but besides these the company makes a variety of other grades to suit various purposes and occasions.

Recently the company issued a booklet entitled "A Fifty-Year Roof," which, besides giving a succinct history and description of terne plate making, also teems with useful technical information. Mr. W. C. Cronemeyer, the Pittsburg agent of the American Tin Plate Company, 1211 Carnegie Building, Pittsburg, Pa., will send this booklet postpaid free to all applicants.

## A New Market for Stone-Working Machinery

Every Record and Guide reader desires to know where he can make a new dollar. When we see a pointer we tell them. Why is it that South America has been so long neglected by our enterprising engineers? Stone is now entering largely into the composition of buildings in the principal cities of Argentine. For stairs and entrance halls imported white marble is employed, and over 1,200 tons of encaustic flooring tiles are annually shipped to that country.

From Uruguay 160,000 tons of stone are exported to Buenos Ayres every year, and also 20,000 tons of setts for street paving. Stone is also found in Cordoba, San Luis, Hinojo, and Chuhut, the varieties including red and green granite and limestone and laminated porphyritis quartz.

The output of the quarries at Tandil, in Buenos Ayres, during 1901 amounted to 75,000 tons of granite, and this stone is largely used in the buildings of the railway and insurance companies, and by the banks, whose erections are faced with it for the first 6 feet or so.

This Tandil granite can be got in large blocks, close grained and hard, splitting evenly and easily, and taking a high polish. Yet with all these natural advantages the lack of modern machinery is nothing short of deplorable; the work is now executed by hand and with the most primitive tools, with a natural consequence that the finished article is quite a luxury. By the introduction of modern methods and up-to-date machinery, the cost of production could be so much lowered as to greatly enhance the demand and open a vast field for commercial enterprise.

## New Cement Company.

The Portland cement trade is an exceedingly attractive one at the present time, judging by the unusual number of new concerns that are entering it. Most recently incorporated is the Quaker Portland Cement Company, with a capital stock of $5,000,000, for which prominent insurance and banking interests are more or less responsible. The works will be at Sand's Eddy, Pa., and will be able to produce 1,750,000 barrels of cement annually. The Quaker Company will be controlled by interests identified with the Northampton Portland Cement Company, of Stockertown, Pa. The Delaware & Northampton Railroad Co., which will be about ten miles long, and will connect the two works, has been incorporated under the laws of New Jersey, with a capital stock of $5,000,000. Another offspring of the enterprise is the New Jersey & Delaware Railroad Co., with a capital stock of $100,000. B. Sherwood-Dunn, president of the Northampton Portland Cement Co., who has offices in the Standard Oil Building, in No. 26 Broadway, has been elected president of the Quaker Portland Cement Co., and the Delaware & Northampton Railroad Co. Others interested are John R. Hegeman, president of the Metropolitan Life Ins. Co.; Frederick H. Echer, of the same company; Silas B. Dutcher, of the Hamilton Trust Co. of Brooklyn; Lucian C. Warner, Charles E. Sprague, president of the Union Dime Savings Bank; Haley Fiske, Conrad Miller, J. C. McGuire, and James Verdin.

## The Timber Supply.

The most heavily timbered State now is Oregon, next comes California, then Washington. They are each far ahead of any other State. Of the States east of the Rockies, Arkansas has probably more timber than any other, though exact information is lacking. Following it more or less closely come such States as Louisiana, Mississippi, Minnesota, Wisconsin, Maine, Pennsylvania, Texas, North Carolina and Florida.

The most valuable tract of timber under one control comprises over 1,000,000 acres in east Texas, which is worth upward of $25,000,000.

## CONVEYANCES.

Whenever the letters Q. C. and C. a. G. are preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenants against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

General release, especially as to rents. Wm C Damron to Harry A Terrel.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to he recorded.

Whenever the letters "P. M." occur, preceded hy the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

This MF trade mark is stamped on every sheet of the best roofing tin made. This MF mark means "Most Favored," because this brand is most favored by architects, dealers, and builders everywhere. MF Roofing Tin was first made in Wales 50 years ago—later the process was improved in America—and the product developed, until now MF Roofing Tin is more in demand than any other brand. The superior quality of MF Roofing Tin is attested by the first prize awarded it at the Paris Exposition, 1900, where it was in competition with all the world.

MF

The entire tinning process is effected by skilled hand labor, without the use of acids or rolls. The very best plates, a great amount of pure tin and new lead, the utmost care in manufacture, successively contribute to making MF the best of all roofing. It is most economical, because it lasts longest—many roofs made of MF 50 years ago are sound as ever today. MF Roofing Tin is sold by dealers everywhere. Specify it in your building estimates. Vol. LXXI. APRIL 11, 1903. No. 1830

THE tone of the Stock Market during the past week, until the decision in the Northern Securities case was handed down, was on the whole better than it has been recently. Prices did not advance to any particular extent, but on the other hand they did not recede, and as the money situation, which is the cause of the liquidation, was apparently somewhat improved, it was natural to expect that the business week would have ended with the prevalence of a healthier general tone. The decision, however, in the Northern Securities case naturally caused a selling movement, which broke prices for a while. It should be added that the market took the decision with much more firmness than was to be anticipated, and that although the decision introduces many complications into the present situation, its immediate effects will not be as bad as might have been supposed. The general fact remains that the prices of many of the best securities are cheap, compared to what they were and are, indeed, absolutely cheap, when the prospects for railroad traffic and general business throughout the current year are considered. At the same time it is also apparent that capitalists generally are not in a position to take advantage of this cheapness. Their engagements are so heavy, and are such a tax upon their resources that they are not able to buy largely and persistently. Hence the general conclusion would be, that while prices ought to be higher for a long pull, it is entirely possible that they may go lower before any sustained upward investment sets in. As to the ultimate effects of the decision in the Northern Securities case, that is a matter which not even the corporation atorneys can at present very well predict. The public will naturally hold fast to the opinion that the judgment of the Circuit Court will be sustained by that of the Supreme Court, and it will fight shy of all securities, whose value in any way depends upon the kind of combination which has been declared illegal. The financial public will also tend to the opinion that a law, which can obstruct the normal and necessary development of American railway combination is a law which in the end will somehow be evaded, in case it cannot be repealed.

A VERY important decision in relation to the legal distinction between a tenement and an apartment house has just been handed down by the Appellate Division of the Supreme Court in the case of White et al. vs. the Collins Building & Construction Company. The defendant refused to take title to a parcel of land which he had contracted to buy, claiming that he could not erect an apartment house upon the premises, because of a restriction contained in a deed of 1873, forbidding the erection of a "tenement house," and because the contract between the parties expressly states that the defendant proposed to erect an apartment house. The defendant contended that there are only two classes of residential property, tenements and private residences, and that consequently any house not a private dwelling was prohibited by the restriction. The plaintiff claimed that the words tenement house must be taken in their ordinary popular sense, and not as defined in the Tenement House Act of 1867, and that the restrictions only prohibited tenements in the ordinary meaning of that word. Judgment was ordered for the plaintiff, Justice Van Brunt dissenting. It will be seen that this is an extremely definite case, for the Collins Building & Construction Company is compelled to take title to the property, on the ground that it is perfectly free to proceed with the erection of an apartment house as proposed. The decision confirms one, rendered by Justice Truax, in a special term of the Supreme Court last year, and published in the Record and Guide on March 15, 1902. Certain property owners in Seventy-first Street, west of West End Avenue, had endeavored to restrain a builder from erecting an apartment house on the block, because of the same covenant as that upon which the other suit hinged, and Justice Truax dismissed the suit on the ground that the covenant is to be construed in its "plain ordinary popular sense," and not according to the act of 1867. This case was appealed, but considering the judgment in the case first mentioned there can be no doubt that the Appellate Division will confirm the opinion of Justice Truax. It may be considered settled consequently that in law an apartment house is to be distinguished from a tenement, and the settlement of the definition will have important effect upon the improvement of large areas of West Side property, which have been restricted against tenements.

THERE have been alarmist statements published in the newspapers during the past week respecting the prospect of a general strike in the building trades this spring, but it can be stated emphatically that these rumors are apparently without foundation. There are several labor controversies still to be settled, and in these days of sympathetic strikes, there is always danger of disputes of this kind spreading, but there is no evidence that the Building Trades Council proposes to bring on a general strike for higher wages. And it would be extremely bad tactics for it to do so. Workingmen are much more likely to have their demands granted in case they bring pressure to bear upon particular trades, one at a time, than if they disorganized the whole building industry by a general strike, for in that case they give their employers a good motive for sticking together, and fighting hard. The labor leaders know this as well as anybody, and have every reason to continue their policy; which has been so successful during the past few years, of fighting one demand at a time. Certainly if the unions did insist upon an advance all along the line, the contractors could not help put up a stout resistance. Since the current prosperity began, the cost of every thing, but particularly of the labor which contributes to the construction of a modern city building, has advanced so considerably that any further large increase in expenses would undoubtedly be attended by a considerable diminution in the amount of building undertaken. The unions would be doing themselves and their employers a poor service by making and insisting on such a demand. The strike of the Brotherhood carpenters is particularly annoying just at present, because it delays work on a number of office buildings, which should be made ready for tenants on May 1; but annoying as such a strike is, it is occasioned by a condition which the contractors can face with comparative equanimity. Two unions in the same trade, divided against each other, is from the employers point of view a much more desirable form of organization than one all-powerful union, and it is obviously to the interest of the contractors to stand by the Amalgamated carpenters, even at some loss to themselves.

THE mortgage tax muddle at Albany is more muddled than ever. The senate wants nothing but the proposed four mills tax bill; the assembly does not know what it wants; and the Governor apparently wants anything he can get in the way of mortgage tax legislation. He prefers, that is, either a four mills tax, or a recording tax, or total exemption to the anomalous position of mortgages under our present tax laws. Out of such a mixture of contradictory opinions, it seems hardly possible that any legislation will result; and it looks as if the whole question, with all its disturbing effects on the real estate would go over until another session. Governor Odell's message to the Legislature on the subject, while it does not clear the situation at all, certainly helps to explain and justify his personal positions. It is the natural desire of his political opponents to represent him as a man, who is wantonly stirring up discussion and suggesting tax changes, merely because he is, as the phrase is, "tax-crazy." He certainly does show himself over-eager to abolish the general state tax levy at any cost, both to his party and to real estate; but his message indicates that in continually agitating the matter of mortgage taxation, he believes firmly that he is simply seeking some practicable remedy for the very real injustice of the tax laws towards this form of property. Moreover, his conviction that a tax of four mills would be preferable, even from the point of view of the majority of mortgagors, to the inequalities of the existing situation, while erroneous, is nevertheless perfectly intelligible. The weakness of his message consists (1) in the fact that he does not attempt to reply to the destructive criticism, which has been levelled against the details of the proposed mortgage tax bill, and (2) that he throws the settlement of the whole question back upon a Legislature that is wholly incompetent to deal with it. Such a body as that sitting at Albany needs a master that will give it a strong lead in the right direction, not a counsellor that timidly advises it to take one of three alternative courses. It is a thousand times a pity that Governor Odell did not explicitly

recognize in his message the practical difficulties in the way either of an annual tax of four mills or of total exemption, and come out strongly for a recording tax, as clearly the most acceptable compromise. Had he done this, there is a good chance that he might have influenced the Legislature to settle this vexed and muddled question on these permanent and, on the whole, desirable lines.

## Wanted—More Living Room in Manhattan.

THE telegraphic reports from Pittsburg recently stated that a veritable house famine now exists in that city. In spite of the fact that large numbers of dwellings and apartment houses have been built during the past year, the demand for living accommodation is such that house-owners have been able to advance their rents very considerably, and many people who are willing to pay the larger prices, have been forced to find temporary quarters in hotels and boarding-houses. This undersupply of living accommodation is, of course, caused by the fact that the steel and iron industries of Pittsburg are enjoying a season of extraordinary prosperity, which has attracted so much new population to the city that the ordinary machinery for housing it has broken down. The case is a singular one and recalls even worse famines, which have taken place earlier in the history of New York. From 1820 to 1825, for instance, the population increased at the rate of 40 per cent., a rate that was at that time unprecedented in this country—and the consequence was that in May of 1825, the household effects of many families had to be piled under cover in City Hall Park, while the families themselves were lodged for the time being in jail. Nothing corresponding to this could possibly happen in a city with such enormous reserves of living accommodation as New York now has; nothing even could happen as inconvenient as the present situation of Pittsburg; but it is worth while drawing the attention of builders to the fact that there is a prospect at the present time that in a year from this time there may be a serious undersupply of living accommodations in Manhattan and the Bronx.

There can be no doubt that in 1900, certain parts of Manhattan had been over-built. The new building code, which went into effect at the close of 1899, had stimulated the building of tenements and apartment houses to an unusual extent, because of the wish to take advantage of the less stringent provisions of the earlier laws. Plans were filed for 1,378 tenements in that year, which were actually constructed—an amount of housing sufficient to accommodate a population of about 90,000. During 1900 the filings were smaller, but still 456 tenements of all classes were planned to be built—enough to accommodate 30,000 people. The consequence was, during 1900 and 1901, certain grades of apartment houses and tenements were very badly rented. This was not true of the lower East Side, in which there was an average probably of less than 5 per cent. of vacancies; but it was true of the upper East Side, of Harlem and of the whole West Side. Landlords consequently were put to many unpleasant shifts to preserve the appearance of having their buildings tenanted; the free rent evil was widely prevalent; and builders found it very difficult to sell their new houses. This situation remained very much the same during the whole of 1901, for the new construction undertaken that year, although stimulated until April 10th by the passage of the new tenement house law, was thereafter much obstructed for a time by the effect of the new law, so that on the whole about a normal amount of construction took place in that year. During 1902, however, the situation decidedly improved. On the one hand the demand for new accommodations began to increase; on the other hand the supply remained comparatively small; and the consequence was that the superfluous stock of tenement and flat accommodation has been gradually absorbed. At the present time, it cannot be said that there is a house famine; but it can be said that the demand for tenements, flats, and even private residences exceeds the supply. We publish in another column the results of a canvass of the important residential parts of the city, which shows conclusively that the present proportion of vacancies in these sections is extremely small.

The interesting question is suggested, consequently, whether this scarcity of residential accommodation is likely to grow better or worse next fall and the following spring. Of course, such a question cannot be answered with any particular accuracy, for the available means of testing the growth of population are necessarily defective, but it is safe to say that, unless the building of apartment houses and tenements is very much accelerated, the scarcity which now exists will become worse.

The calculation, which justifies this prediction, may be briefly summarized. From 1890 to 1900 an average of about 40,000 persons were added to the population of Manhattan every year, but since 1900 this rate of increase has to all appearances been decidedly augmented.* It is since 1900, that the immigration has augmented very rapidly. In 1902 it was over 750,000, the second largest in the history of the country, while during 1903 it promises to be absolutely the largest. Of course only a fraction of this immigration actually remains to live in New York City; but the fraction that is lodged in New York for a greater or a smaller period is very large indeed. It is since 1900 that the office-buildings of Manhattan have filled up so rapidly and so completely, and that an unusually large number of business buildings of all kinds have been erected all over the city. And it is since 1900 that the demand for labor in connection with large public and private improvements has been great enough to draw many workmen to Manhattan. No one can say what the total increase of population from all these causes has amounted to; but it is safe to calculate that the number of people added to the inhabitants of the Borough has been not less than 60,000 a year. There are, however, a good many more than 60,000 additional people to be housed per annum, because of the displacement of existing population. Just at present this displacement is enormous. It is calculated that fully 20,000 people will be deprived of their habitations before the Williamsburgh bridge and its approaches are completed. The Pennsylvania and New York Central improvements will force at least 5,000 people to find other homes; and to these must be added some thousands that will be unhoused by the ordinary process of converting residence into business property.

It will be seen, consequently, that the situation figures something as follows: Instead of 40,000 new inhabitants, which have to be provided with new houses during the current year, the number is probably more nearly 70,000. And this demand for living accommodation for 70,000 more people will be pretty constant for several years, both because the demand for extraordinary supplies of labor required for the great transit improvements has not yet been made fully effective, and because the Manhattan and Blackwell's Island bridges will displace many additional thousands within a couple of years. To satisfy this demand tenements and apartments are likely to be built during the current year, which will accommodate, perhaps, 50,000 people. Thus it appears certain that the existing scarcity will become more rather less critical during the rest of 1903 and during the early months of 1904. There is little danger of an actual famine, because if accommodations become very scarce, a larger proportion of the increase than usual can overflow into the other Boroughs. But that is not an alternative which will appeal to the property-owners of Manhattan; and builders will do well to remember that they can double the present rate of tenement and apartment house construction without running very much ahead of the prospective demand. These figures also furnish a strong argument for the passage by the Legislature of the bill, which the Record and Guide printed last week, and which aims at authorizing a new type of seven-story semi-fireproof apartment house. Manhattan is beginning to need more living accommodations; it needs them badly.

THE Mayor certainly has behind him a difficult and most unruly party, and he must at times envy the Tammany leaders the advantage of a cohort of followers, who are silent, except when directed what to say and how loud to say it. The Mayor's followers, on the other hand, never shout so loud, as when they are criticizing the officers whom they elected, so that one gets the impression of a party which is always willing to sacrifice unity of spirit and action for the sake of pushing to the extreme some favorite idea or some particular reform. In itself and in the long run this independence of judgment and this sense of conviction is a most desirable and praiseworthy quality, without which indeed a reform party could not live; but the party would certainly have a better chance of continued success, if it kept more of its denunciations for its opponents and less for its friends. The Mayor, for instance, believes in dealing with transit corporations, as agencies, which can be used as desirable public servants, and which are not to be treated as public enemies, except when they prove to be such. He proposed to treat the Interborough Co. in precisely that spirit; to recognize frankly the immense advantage, both to the company and the public, of having the whole system operated by one management, and to negotiate with Mr. Belmont on that basis. Of course this meant the abandonment of the present farcical method of letting the operating contract at public auction, and of merely keeping up the pretence that some other company, operating a small section of the whole system, could possibly offer as advantageous terms to the city as could the company that controls the present subway. His friends, however, would

*The Health Department estimated the increase of population in Manhattan at only 22,000 a year; but this estimate is belied by the fact that houses capable of accommodating three or four times that amount of annual increase have been built and occupied.

have none of this, and began to denounce the Mayor as the advocate of an oppressive and dangerous rapid transit monopoly. Whether the contract is let by public auction or by negotiation, the fact remains the same, that the rapid transit service is necessarily a monopoly, and that nothing is to be gained by merely pretending that it is not. The best protection that the city has against the possible evils of such a monopoly is its ability to convince the Interborough Company that a disagreement and a fight would be as disastrous to the company as to the city, and the way to make that protection effective is not to look to some outside competition, but to hold in reserve the threat of a subway operated by the municipality. That Mayor Low is as disinclined to submit to extortion at the hands of a monopoly as any member of the Citizen's Union is sufficiently indicated by his support of Mr. Monroe's plan of a municipal electric lighting plant.

# The Real Estate Situation

The sensational piece of news of the week is the purchase of the southeast corner of Fifth Avenue and Thirty-seventh Street by Tiffany & Co., for the purpose of erecting thereon a handsome store and exhibition building. This is a move which has been long expected, and which was obviously bound to take place, but coming just at the present time, it puts the stamp of absolute finality of the tendency of Fifth Avenue to become the one desirable and necessary location for shops that cater to a larger or smaller number of fashionable customers. Tiffany & Co. are, of course, *the* New York jewellers, just as Delmonico's used to be *the* New York restaurant. The various removals of the firm are a true index of the shifting center of the fashionable retail trade of the metropolis. Starting in 1837 at 259 Broadway, the store remained in that vicinity until 1854, when it removed to 550 Broadway. There it stayed until 1870, when it took possession of its present premises on Union Square, and now, after a generation of residence in that location, it finds a removal to middle Fifth Avenue desirable. It stayed seventeen years in the neighborhood of its first site, sixteen years in the neighborhood of its second, and thirty-three years in its pleasant quarters on Union Square. How long will it remain at Thirty-seventh Street and Fifth Avenue? Well! we predict that, at any rate, it will be longer than one generation, for lower Manhattan is now evidently settling down to comparatively stable conditions.

**The Tiffany Purchase.**

It will be noticed that for the first time in its history of about seventy years, Tiffany & Co. leave Broadway, a fact which in intself has a great deal of significance. At one time Broadway almost monopolized both the best wholesale and the best retail trade. A certain proportion of the latter overflowed upon such crosstown streets as Fourteenth and Twenty-third Streets, but Broadway was decidedly the most important retail thoroughfare. Some fifteen years ago, however, Sixth Avenue began more and more to capture the popular department stores, while soon after Fifth Avenue began to take over the shops that derived their business particularly from well-to-do people. Firms doing retail businesses of both classes still remain on Broadway, but almost certainly they will in the end find profitable to move, for much the same reason that the Gorham Company and Tiffany & Co. have moved. Broadway and the side streets leading therefrom as far as Twenty-third Street are definitely marked off for wholesale business. It is inconvenient for people who shop in carriages to get down town that far, and the crush of traffic in the vicinity of Twenty-third and Broadway makes these carriage customers wish to avoid that vicinity. Twenty-third Street will surely hold its own for many years to come, and may even absorb, as it were, Twenty-second Street from Fifth to Sixth Avenues, but considering that that street has recently lost many shops, such as Kaskel & Kaskel and the Æolian Company which depend upon well-to-do patrons, it obviously cannot compete with Fifth Avenue for such custom. Broadway north of Madison Square also will be given over rather to the wholesale business and office buildings than to retail shops. Fifth Avenue is destined to monopolize the kind of trade we have described, much more than any single street does, either in Paris or London. It will be Bond Street, the Piccadilly and Regent Street all rolled up in one long parcel.

On no street or avenue in the city has the recent transformation been more rapid and complete than on Fifth Avenue. During the past five years its aspect between Twenty-sixth and Forty-eighth Streets has been entirely changed. It is not that so many new buildings have already been built, although the number of these new structures is not inconsiderable, but the number of old houses that have been altered more or less radically averages two or three for every block. Among the new buildings already erected may be mentioned that of the Pennsylvania Railroad Company, Kaskel & Kaskel, The Knickerbocker Trust Company, The Æolian Company and the Knox store, while the Windsor Arcade has formed an important link in the development. Among the buildings on the point of being erected are the Hotel Brunswick, one on the corner of Thirty-fourth Street and Fifth Avenue, the Gorham and Tiffany buildings, and possibly several others. There are a number of corners in different parts of the avenue, now held for sale by speculative operators and corporations, the improvement of which will be quickened by the Tiffany move, and five years from now there will probably be scarcely a private dwelling left on this part of Fifth Avenue. As to prices, that paid in the present instance, is truly extraordinary. Only two years ago Mr. Boldt bought the property, which he nows sells at $2,000,000 for a little over $1.200,000, and the difference in price fairly represents the improved business position of the avenue during that interval. The price per square foot figures out at about $90, which would mean at least $120 for the corner alone—a value that breaks all records, and adds apparently a large percentage to the level of values in that vicinity. It must be remarked also that this price has been paid not by a corporation, but by a conservative business house, because it believes that the location is worth that figure. It can hardly be expected, however, that values will go very much higher than the level they have now reached, for not even the proportion of profits of a Fifth Avenue business could afford the enormous rents, which would be necessitated.

Activity in real estate continues to be subdued by legislative threats and money market conditions, and the sales announced during the week, while they present interesting characteristics, are not as numerous as they were. There can be no doubt, however, that as soon as the Legislature adjourns, and particularly in case the proposed seven-story apartment houses are legalized, there will be a marked outburst of activity. Apart from the Tiffany purchase, the most important announcements of the week concern seven-story apartment houses and expensive residence property. The rapidity at which these apartment houses are being sold is testimony both to the increased income which is to be derived from them, and to their advantages as investment purchases over the six-story apartment house. It also means that many builders, whose money has been locked up in these seven-story buildings, will feel free to undertake new operations. And new building operations are assuredly most necessary. We point out in another column what an extraordinary opportunity the existing scarcity of living accommodations in Manhattan offers to builders, and there can be no doubt that they will take full advantage of the unusual chance. The rate at which plans for new tenements are filed is constantly being accelerated, and promises in the end to double that of last year. In the last two weeks several expensive private residences, erected by speculative builders, have been sold, but the chief items of news about this class of property continues to look in the direction of the erection by rich men of specially designed residences. There promises to be very little speculative building of dwellings during the current year, but there will be a great many of them erected by people who want to have their houses planned according to their own ideas. Dwellings of this class will probably be projected in even larger numbers than they were in 1901 and 1902. It is still too early to state precisely how much big building will be started on May 1, but undoubtedly there are a number of very large improvements planned, the details of which have not yet been announced. The United States Realty & Construction Company, for instance, which owns the southwest corner of Fourth Avenue and Twenty-third Street and the old Sturtevant House has given the tenants of both buildings notice to quit on May 1, and obviously contemplates

**How the Market is Going.**

the erection of two "skyscrapers," but its officials refuse as yet to make their precise intentions known. The new Astor apartment house, which will cover a whole block on the West Side, is one of the most interesting announcements of this season, and the kind of announcement which encourages speculative builders to go ahead on their own account. Certainly no people in the city can be in a better position to estimate the desirabliity of such improvements as a form of investment than can the managers of that estate. Altogether it may be confidently asserted that only labor troubles, foolish legislation and the possibility of very dear money stand in the way of a building movement, which will break all records.

WHATEVER truth there may be in the report that the Vanderbilt family will gradually allow the active and responsible management of their vast railway property to pass into other hands, its chief interest, if true, lies in a direction which has not yet been noticed. It will not immediately make very much difference in the policy of the New York Central and its connecting lines, for the Pennsylvania and Rockefeller interests have long been influential in the management of the Vanderbilt lines. On the other hand, the retirement of the Vanderbilt family from active participation in railway affairs, has great significance in relation to the social and economic position of rich men in American life. So far these rich men have shown remarkable tenacity in sticking to business. They have not retired, after the manner of so many Englishmen, as soon as they had made as much money as they cared to spend; they were interested more in the game than in the stakes, and they have made it a practice of remaining active and energetic managers of their own affairs, even when the money was of no personal use to them. Moreover this was true of the second quite as much as of the first generation. George Gould has worked as faithfully as his father did; John D. Rockefeller, Jr., is preparing to take care of the vast property he will inherit from his father. And so it goes. It is true that some of the younger sons of Jay Gould and William H. Vanderbilt have preferred not to interfere very much in the management of their family property; it is true also that the inheritors of Astor and Goelet real estate interests in New York have not very actively participated in business affairs; but these gentlemen were exceptions, for the majority of their brother millionaires have found it as difficult to get away from the excitements of large business enterprises, as statesmen do from the excitement of public life. It is not to be expected, however, that the third and fourth generations of these families will continue to stick to their desks with the same fidelity, as did the first and second generation. The enormous fortunes which have been accumulated are bound in the long run to bring into existence a wealthy leisured class; and this class, when it does reach sufficient numbers to count, will undoubtedly have an important influence upon the social habits and the æsthetic standards of the country.

## Instalments Assessments.

The Keegan bill, which provides that local improvements in New York City may be paid for in annual instalments, is a new measure to take the place of a similar bill previously introduced, and specifies that after the assessments have been apportioned and confirmed the Board of Assessors shall divide the same into five equal parts or instalments. Whenever twenty-five per cent. of the assessment shall have been collected, the Board of Estimate and Apportionment may authorize a contract for the work. Any person interested in any parcel of land may at any time pay any instalment with interest to the date of payment, and interest shall not be paid on such instalments as may be paid before a contract has been executed for such improvement, and after such payment such parcel shall be discharged.

There is much interest in this bill in the suburbs. In Richmond, Queens, and the Bronx, where improvements are mostly ahead, in the future, instead of being accomplished facts, as in Manhattan, it would make it much easier for taxpayers to pay their assessments in this way, and many who would otherwise be against an improvement such as a proposed sewer, sidewalk or street opening, if they knew that the payments would be spread over a term of years, would probably favor it and many more needed improvements would be secured for the Borough. It is argued that many people go out into these boroughs to escape the heat and discomforts of crowded tenements of the city, and having saved enough to build a small house upon which there is usually a mortgage, they are not overburdened with a surplus of funds, and it takes about all they can earn to live in these times of high prices. As a general thing they buy where lots are cheapest, and lots are generally cheaper, or lower in price rather, when there are no sidewalks, sewers or other improvements. The suburbanites think that any legislation that will allow them to get these improvements easily ought to meet with the approbation of our law-makers.

The objection that has been made by city officials is that the easy payments would cause so many more improvements for which the city would have to borrow money that the debt limit would soon be used up.

## The Present Renting Season.

LAST YEAR'S BUILDING INADEQUATE FOR INCREASE OF POPULATION—NOT ENOUGH MIDDLE-PRICE APARTMENTS.

The present renting season in Manhattan contains elements the exact counterpart of which could hardly have been met with before, and which offer a profitable subject of study for the real estate operator and the builder. In some other place one renting season may be much like every other, with its welling up of mixed emotions; but here in this community, which seems to draw everybody in and let nobody out, this present moving time has disclosed a trying state of affairs, which the municipality failed to provide against, and may not with all its efforts be successful in competing with in the future. The first striking fact is that the number of rentable apartments falls far short of what is necessary. Real estate agents in the sections where a family would first look for accommodations bear testimony to this with unanimity. Never before within a comparable period have they been obliged to turn away so many applicants, and these people, who are largely newcomers, or have been displaced downtown by the extensive enlargements of public works and the encroachments of business, must find homes in other boroughs or adjacent towns.

The exceptional prosperity of the City of New York invites workingmen from a distance, from the cities and towns up the State where dullness reigns and politics smothers business ambition; and also from the adjoining States. Many find it easier to get work than to obtain apartments. Immigration from foreign lands is always heavy, and much of it now settles here instead of going West. Reports from the British Isles disclose a general dullness in the building trades there, and many English people are coming over this spring. The opportunities for work offered by the subway and promised by other great public works, such as street paving, besides the fever for building that is setting in this spring, and, in a word, the almost unprecedented prosperity of the city, attract the stranger.

That there is a real prosperity is in one way indicated by the keener pursuit of pleasure, particularly among the class which Necessity has long commanded to be economical. Attention was called to this by a gentleman whose official position requires him to take notice of social conditions among the lowly, who, he observed, were beginning to take more enjoyment out of life than they did a few years ago.

"Go down through Grand st," he said, "or thereabouts, and notice how the first-class restaurants are filled, and particularly observe that good music is now being played in some of them while the people are at table. This means that better economical conditions have led to better modes of amusement."

The increase of population is usually accurately estimated by the Health Department, and Dr. Guilfoy, the statistician, thinks that the population of the borough will by the first of July, 1903, be 1,917,676, a gain of 67,583 over 1900, or an average yearly increase exceeding 22,000. But as the rate of growth in the borough depends in no small measure upon the increase in living apartments, and as the adjoining boroughs almost entirely represent the overflow, the actual increase of population for any one year by no means represents the total possibility. For the whole city the population officially estimated for the middle of the present year is 3,732,903, a gain of 295,701 in three years. The rate per cent. of growth for Manhattan is lower than for any of the other boroughs. What the aggregate of displacements are through the extension of the business district and for public works, while it will be large this year, is still conjectural.

### APARTMENT BUILDING.

The present disparity between the demand and supply in apartments in Manhattan is in some of its aspects a serious matter, and will scarcely be remedied by any possible amount of building before enlarged transportation facilities to the suburbs offer a way out. One of the obvious causes of the congestion was the partial suspension last year of tenement house construction, which, however, has been succeeded this spring by a much larger volume of building throughout the city. Every indication points to an unprecedented record for the coming year, if labor troubles do not interpose. Since January first plans providing for 166 buildings have been filed at the Tenement House Department for the Borough of Manhattan alone. Estimating the average number of families in a legal "tenement" at from 24 to 30, gives accommodations for 4,482 families, or about 22,500 souls, as the ultimate effect of the work now in hand for this class of building. But from this total must be deducted an estimate of the number of families displaced by the improvements when figuring out the extent of the relief that these new structures will bring. A tour through Chrystie, Rivington and other streets of the East Side will disclose a surprising amount of rebuilding. Architects are exceedingly busy.

"Some firms I know of that had been employing but two

draughtsmen now have eight or ten," remarked one architect. "There is a large quantity of work, both in alterations and new building" he added. "Owners on the East Side find it pays to alter old houses; they can not only rent them to better advantage, but find a ready market."

WHAT REAL ESTATE MEN OBSERVE.

Mr. Stephen McCormack, of Madison av, at the corner of 129th st, a prominent real estate agent of Harlem, said that there used to be a waiting list of apartments, but now there is a waiting list of prospective tenants. The applications for apartments bringing in from twenty to twenty-five, or even thirty dollars a month could not be met. There was also a demand for private houses in the section, which was much smaller naturally than the requests for parts of houses, but still could not be filled. As a consequence rents were going up; there was not merely a tendency that way, but an actual upward movement.

"In this particular section there is quite a little building, more plans being on file than usual," Mr. McCormack added. "Around the corner in 129th st Mr. Joseph Murphy has started to tear down an old house and erect a 6-sty apartment house with all improvements, and Dr. Meirowitz is putting up a 6-sty apartment, 75x100. The appearance on the scene of new apartments does not seem to cheapen the older ones at all, as they are in as great a demand as ever, though the new constructions command the higher rents. Large single flats built under a previous law, containing about eight rooms, rent for $45 to $50; smaller single flats, in houses about 20 ft. wide, bring from $25 to $28; private houses of the old-fashioned sort for the most part, such as can be found between 116th and 121st sts, are renting for six hundred and up to nine hundred a year. In many cases the owner occupies only the basement and parlor floor and rents out the upper part. Such opportunities are much desired, even though they do not give so many conveniences as modern apartments, and the upper part of a good house will bring about thirty dollars a month.

"Since the new law came there has been no building on 25-ft. lots; tenement houses must be larger, improvements more complete and rents to correspond. The tendency of everything is higher; better houses, a better class of people. People are coming up from downtown in large numbers, not only being displaced by business improvements, but to enjoy the advantages of wider and pleasanter streets. I find that people after once getting settled here, don't ever want to leave, for it is a nice section to live in. Those who can't find apartments must of course look elsewhere, and a great many are going into the Bronx. There is a constant evolution of course, but it seems more rapid of late years. The old 2-sty and basement houses, once numerous in this locality, are rapidly being replaced by 5, 6 and 7-sty apartments. The situation this year simply is that we cannot supply the demand for moderate price apartments or flats by a very large margin."

In another section, farther east and south, Schindler & Liebler report that they cannot begin to fill the requirement for flats and apartments renting for $15 to $20 for flats, and $19 to $12 for apartments. Rents are being raised, and instead of new tenants getting a month's occupancy free, as formerly, they are now charged from the middle of the month when they rent after the first. Very little building is going on. Most of the houses are cold-water flats, inhabited by staid and economical families, who are satisfied with things as they are.

Messrs. Durand & Conkling, of 125th st, also report a scarcity of middle-priced apartments on the east side of Harlem. They turn away many people daily. "I have myself," said Mr. Conkling, "been looking for a place for two months, so you can judge the difficulty we are having. I know of a man who was paying $40 a month, when his landlord notified him of an increase of $10. The tenant said he would not pay it, but after looking in vain for several days submitted. We have a list of at least one hundred prospective tenants whom we cannot supply. The new house law knocked things endwise. If a builder could operate on a 25-ft. lot there would be plenty of houses. Ordinarily one could rent a five or six-room flat for $25, one with six rooms for $35, and for $45 a very nice flat with all improvements, including elevator and hall boy. At the present time only a few cheap tenements are going up. I was talking with a prominent builder the other day, and he said he could not do anything here under present conditions. The only place where he could make anything was in the Bronx, in putting up two-family houses."

At Wilcox & Shelton's, on the east side of Harlem, they said that the demand for small apartments of four and five rooms, renting for $20 to $25, with steam heat and hot water, was out of all proportion to the demand. "For flats or six and seven rooms averaging thirty-five dollars, we can about supply the requirement. This is not the best time for renting whole houses; but we notice that many families are going out of private houses and into flats. The old-style houses rent for eight and nine hundred dollars, and the newer or better class for ten to twelve hundred dollars a year. Rents are advancing a little, certainly not declining."

Porter & Co., also of 125th st, report an excessive demand, and but little building.

According to Janeway & Shaw, of 1657 Amsterdam av, people are applying in great number for small apartments renting from $30 to $35. The price of a six-room apartment in that quarter is from $40 to $50, rents being a good deal higher than last year, with no building, because tenants are not willing to pay more, and builders cannot reimburse themselves under the existing law without getting returns higher than have been ruling.

Layton & Rogers, of Washington Heights, report no demand for high price houses, but an extraordinary requirement for apartments. For those renting for $50 or $60 a month demand and supply balance, but for such as rent for half those figures the calls exceed the offers by fifty per cent. Said a member of the firm: "Apartments that we can rent at twenty-five, thirty, or even forty dollars a month are what are wanted up here. Lots have gone up so that builders think they cannot do anything. I estimate the increase in lot values at fifty per cent.

## Strolls Through the Parks.

It is found that the dry rubble retaining wall on the westerly side of Riverside Drive is bulged in places and settled in others. An estimate of cost of taking down and re-erecting this wall and restoring the pavement and sod shows that it will cost $15,000.

Canarsie Park, consisting of forty acres, has been in the possession of the city for seven years, but has never been improved. It is now the intention to prepare it by fencing it, constructing walks and building a causeway across the meadows and a pier on Canarsie Bay. When completed it will doubtless prove a popular resort.

The year's estimates for the New York Zoological part of the Bronx Park include $30,000 for an ostrich house, $30,000 for a mammal house, $20,000 for two shelter houses for deer, $18,000 for aviaries and cages, $49,000 for Baird Court and Concourse, $33,000 for walks and roads, $10,000 for rapid transit entrance, and altogether $250,000.

None of the parks in the Borough of the Bronx, except Clermont, have had their walks asphalted, and none but Washington Park has ever been fenced. This year it is proposed to lay some asphalt in McComb's Dam Park, St. Mary's and Melrose, and to build iron fences around St. Mary's, St. James', McComb's Dam Parks, and Melrose square.

The Department of Parks has for some time past had control of a strip of land on the north side of 110th st, between 5th and 7th avs, Manhattan, acquired for the purpose of widening that thoroughfare. The sum of $65,000 has been asked to permit this work to be accomplished, and make this portion of Cathedral Parkway the same width as that portion west of 7th av.

In order to complete the construction of Riverside Drive, work consisting of laying edging, paving walks with asphalt, laying block gutters, building road basins, making pipe connections, reshaping borders, laying sod, resurfacing bridle road, improving entrances to bridle road and cycle path, etc., must be done. The engineer's estimate shows that this work will cost $19,000.

Forest Park has the largest area of any park in the boroughs of Brooklyn and Queens. There has been but little work done on this magnificent property, consisting of 535 acres, which has been in the possession of the city seven years. It is now desired to begin its improvement by constructing a system of roads in extension to the one now existing, to construct comprehensive walks, extend the golf links, erect an observation tower and place an iron fence around the entire property, to define and protect it.

Sea Side Park, which comprised originally 70 acres, but has been reduced by erosion to about 35 acres, attracts more attention than any park of its size in the Brooklyn system. The great number of visitors makes necessary the construction of an additional comfort house at the east side, near the end of the Ocean Parkway, and it is also deemed wise to construct a pleasure pier on the bulkhead which is now being built at the Concourse. If the bulkhead is found to save the beach from erosion, as it is hoped, it will be wise to erect a similar structure further east, with a view of redeeming the land now under water.

The magnificent drive, known as the Eastern Parkway, extending from Prospect Park to Ralph av, being a part of the boulevard system, consists of a main drive, macadamized in the centre and Belgian blocks at the side, with broad, shaded walks on either side and traffic roads outside of these. The latter are paved with cobblestones and are in bad condition. It is desired to remove the Belgian blocks from the side of the driveway and extend the macadam from curb to curb, replace the cobbles on the traffic roads with wood or asphalt pavement, and lay cement sidewalks the entire length, making the road conform to the Ocean Parkway. The estimated cost is $242,960.

The improvement of Sunset Park, with an area of 14 acres, was begun early in the summer. Superfluous boulders were removed from the steep embankment, and as far as possible used in constructing an ornamental masonry retaining wall on the 5th av front, about 300 feet of which has already been built and 140 feet in process of construction. The terraces have been shaped up, walks laid, a rustic stairway built from the street to the park surface, and the general work has progressed satisfactorily, but it is desirable that the wall be extended around the entire park. The embankments on 41st and 44th sts must be reformed, walks are to be constructed, and the small lake improved. This week the Board of Aldermen ordered an addition to be made to this park, by taking in all the lands between 43d and 44th sts and 5th and 7th avs.

## John P. Kane Company Win.

A MECHANIC'S LIEN TAKES PRECEDENCE OVER GENERAL ASSIGNMENT IF FILED WITHIN STATUTORY TIME.

A case having a direct interest for dealers in building material, in which a prominent firm has fully maintained its action, has been decided by the Court of Appeals. The cause was entitled John P. Kane Company, appellant vs. Francis S. Kinney and Andrew J. Robinson, defendant, and was brought to foreclose mechanics' liens and to determine the priority between the lienors and the general assignee of the contractor for the benefit of creditors. It appears that the defendant Kinney entered into a written contract with the defendant Robinson, whereby the latter agreed to furnish and provide all the labor and materials for and towards the erection of a building for Kinney. The defendant Robinson, the general contractor, furnished labor and materials for the building to the amount of $2,512.44. It appears that this general contractor for the erection of the building made a sub-contract with the plaintiff whereby the latter agreed to furnish certain materials for use in the building at an agreed price and the materials so furnished by the plaintiff amounted to $665.70, and were furnished between February 9, 1900, and March 7, 1900. Some of the other defendants, who have filed liens, had similar contracts with the contractor for furnishing specific materials. The lien of the plaintiff was filed on March 8, 1900, at 9 o'clock in the forenoon; the lien of another defendant was filed on the same day at ten minutes past 9 o'clock in the forenoon. On March 7 the defendant Robinson, the general contractor, executed and delivered to Chas. N. Talbot a general assignment of all his property for the benefit of his creditors, which assignment was filed in the clerk's office on March 8, 1900, at ten minutes past 9 o'clock in the forenoon. It will be seen, therefore, that the plaintiff's lien was filed ten minutes before the general assignment for the benefit of creditors.

The Court holds that the claim of a sub-contractor for materials furnished in the construction of a building, secured by a notice of lien filed by him against the property, is not affected by a general assignment executed by the contractor for the benefit of his creditors. The right of the assignee to moneys due from the owner of the building on the contract is subordinate to the claim of the lienor, even though the notice of lien was filed subsequent to the assignment; providing it was filed within the ninety days allowed by statute for that purpose.

Justice O'Brien, who wrote the opinion, says: "The general question of law which is involved in the case is, whether a voluntary assignment made by the general contractor for the benefit of all his creditors takes preference as to the fund due from the owner of the building to a mechanic's lien filed by the subcontractor. In other words, the question is whether the assignee for the benefit of creditors takes the fund due or to become due to his assignor in preference to mechanics, materialmen or sub-contractors who have performed work or furnished materials, and have filed a lien for the same within the statutory period. Although it appears that the plaintiff's lien was filed before the recording of the general assignment we will assume for all the purposes of the case that the assignment is prior in point of time. Such an assignee takes the property of his assignor, subject to all equities and liens that might have been enforced before the assignment. The object and purpose of the Mechanics' Lien Law was to protect a person who, with the consent of the owner of real property, enhanced its value by furnishing materials or performing labor in its improvement by giving him an interest therein to the extent of the value of such material or labor. The filing of the notice of lien is the statutory method prescribed by which the party entitled thereto perfects his inchoate right to that interest. That is the manner and mode of procedure in which the right is asserted. A certain time is allowed in which the lien may be asserted or lost. During that time there is a preferential statutory right in the nature of an unperfected equitable lien in favor of the laborer, mechanic, materialman or sub-contractor. And when a notice of lien is filed that right is perfected. But until the ninety days allowed by the statute within which the lien may be filed have elapsed the right cannot be defeated by the voluntary act of the party against whom it might be asserted, such as a general assignment for the benefit of creditors. If such were the effect of the assignment no laborer or materialman's claim would be secure, and the beneficial purpose of the statute could be defeated unless a lien was filed at the time the work was commenced and from day to day thereafter. This, however, being a remedial statute, must be construed liberally with a view to carry out its intent and for the accomplishment of every beneficial purpose contemplated. It would, therefore, seem to be a very reasonable conclusion that the assignee for the benefit of creditors takes the title to the estate of his assignor, subject to the right of any lienor to assert his lien against the property or the fund within the statutory time, that is, within the ninety days."

Geo. B. Post fears that some day a panic may cause a terrible disaster in one of our tall buildings. "A small fire will start in the basement and will fill the building with smoke," says Mr. Post. "Thousands of tenants will be in the rooms and few of them will shut their doors. They will try to rush down stairs or out by the elevators, which won't be able to carry the crowds, and many will be suffocated in the upper floors." But if the building has been constructed according to law, why should the tenants be afraid of a little smoke, when they can shut their doors and open their windows, and so make themselves perfectly safe? Is it not only another case of believe and be saved? Those who become panic-stricken will be the doubters; they won't believe that the architect, builder, and building inspector have loyally performed their duty. The way to prevent a panic, then, is to make the tenants really believe that they are safe.

## New Building Ordinances.

Mayor Low has vetoed the ordinance adopted by the Board of Aldermen on March 24, amending section 179 of the Revised Ordinances, by adding a section providing for the issuing of permits for ornamental projections on certain buildings beyond the building line.

The Mayor's objection is that the ordinance imposes too stringent restrictions upon pilasters, window sills, trims, lintels, cornices, gables, statuary, carvings and bas reliefs, and it seems to him that they should be omitted from the scope of the ordinance.

He thinks, also, that no compensation should be asked by the city for the privilege of erecting such ornamental projections unless they extend more than one foot beyond the building line. He is assured by the Superintendents of Buildings in the Borough of Manhattan and the Borough of Brooklyn that unless these two modifications are made to the ordinance they will inflict great hardship upon builders and property owners, and will also create difficult problems in the calculation of the compensation to be charged by the city.

A hearing will be given on this matter on Monday by a committee of the Board of Aldermen, at 2 o'clock.

At the same time a hearing will be given on an ordinance to limit the height of buildings in the City of New York to 150 feet, a hearing which has been postponed from March 26, for which time it was originally noted.

At the hearing on Wednesday of this week, in regard to the ordinance amending section 4 of the Building Code, in relation to the filing of statements, specifications and plans, and the revocation and cancellation of permits and approvals, Superintendent Stewart was present, and it was agreed to so amend that, instead of providing that permits shall expire by their own limitations in one year if no work has been done or carried above the foundations, it will read, "when no work has been carried above the footings of the foundations wall." Superintendent Stewart also agreed to strike out the paragraph giving him "full power" to cancel permits in case of failure to comply with the provisions of the Building Code. The main purpose of this ordinance is to extend the jurisdiction of the Superintendent of Buildings over conversions of buildings from one purpose to another.

The ordinance in relation to light, vent and dumbwaiter shafts was made satisfactory to the Building Superintendent and laid over. The one in regard to furnace flues was made satisfactory by limiting the internal dimensions of furnace flues to 10x10 internal dimensions.

Nothing definite was done in regard to the proposal to amend Section 144, so as to prohibit sky signs and bill boards on the tops of buildings.

### Regarding a Recent Lien.

*To the Editor of* THE RECORD AND GUIDE:

We have before us the letter of Henry Corn, published in your issue of March 28, 1903, under the caption "Mechanics' Liens." It is true that the Hecla Iron Works did file three liens against the buildings at 476 Broadway, 84-90 Fifth avenue and 130-132 Fifth avenue, Borough of Manhattan, N. Y. City, but the action was taken only after every effort to settle the accounts between Mr. Corn and the Hecla Company had failed. Mr. Corn and Mr. Maynicke, his architect, both admitted that the iron work on the buildings had been fully completed and indeed Mr. Maynicke had issued his certificate to that effect, but Mr. Corn declined to pay the $50,000 then due, although there was a final payment of $65,000 which he admitted was far in excess of any losses claimed to have been sustained by him. The Hecla Company then offered in writing to Mr. Corn the proposition that we select a Board of Arbitration to adjust the accounts between him and the Hecla Company and this proposition he rejected. There was nothing left to us to do but to file our liens.

### A Word from the Building Department.

Building Commissioner Stewart finds it neessary to draw the particular attention of the building world to the fact that the sleepers on the floors of fireproof buildings must be filled in, as the law requires. This is a matter which does not seem to be sufficiently understood. It is a point, however, upon which Mr. Stewart feels he must rigorously insist, not only on account of the law but in the interest of safe and scientific building construction. Mr. Stewart's efficient administration of his important department and his efforts to maintain the standard of building in this city at the highest point, deserve the recognition and support of everybody.

## What the Legislature Is Doing for the City.

Transactions at the State Capitol are entering the culminating stage, and final results in a number can be noted. But one important particular, perhaps the most consequential measure of the session, which a week ago was thought to be settled, has been revived and is yet to be finally disposed of. The Mortgage Tax Bill, which failed to obtain sufficient support in the Assembly, has received a promise of aid from the Republican Senators, who have voted to continue it as a party measure. It is clear that the Governor has not yet surrendered, and he may after all succeed in forcing through some sort of a tax on mortgages. It may be that the majority will be harrowed into a condition where they shall accept a small tax. It is indeed stated that a proposition may be submitted to the Republican Assemblymen to tax future mortgages at a lower rate than four mills.

FOR A NEW COURTHOUSE.

Both the Assembly and the Senate have passed the bill authorizing the building of a new courthouse in this city. This measure, which is approved of by the city authorities, makes it the duty of the Board of Estimate and Apportionment to determine before June 1 whether the present county courthouse in the City Hall Park affords a sufficient accommodation for the proper transaction of the business of the courts. If the answer is in the negative, Mayor Low is to appoint five persons as a board to select a site for a new courthouse; which must be somewhere south of Franklin st. The edifice is to be for the use of the special and trial terms of the Supreme Court and of the City Court. The board, in its discretion, may designate a portion of the City Hall Park as the site for such courthouse. Nothing in the act shall authorize the erection of a building in the park, however, unless the brownstone building and the fire-engine house, shall be removed and the present county courthouse shall either be removed or shall be remodeled or enlarged and used as a portion of the building to be erected under the provisions of this act; and no building which shall, under the provisions of this act, be erected in City Hall Park shall, in any event, occupy a larger superficial area therein than the aggregate area occupied by the present county courthouse, the said brownstone building, the fire-engine house and the building formerly used for the register's office.

The Assembly has helped the movement for a more beautiful New York by passing the bill of Mr. Prince, to do away with the unsightly advertising signs on the tops of buildings in New York City. The bill prohibits the placing of fences on roofs for advertising purposes, other than to advertise the business of the lessee of the building. It also restricts the height of ground fences to 8 feet. The Assembly also passed the bill of Senator Elsberg, providing for the appointment of an assistant deputy controller of New York City, and prescribing his powers and duties.

OBJECTIONS BY MAYOR LOW.

Mayor Low's disapproval of the bill providing for a change in the levying and collection of taxes, enabling the city to collect its taxes in January and February of each year instead of in October and the two subsequent months, is on the ground that the change could not be effected without a financial loss to the city because of the necessity of assessing so long in advance. The Board of Taxes and Assessments estimates that the amount of real and personal property which will be lost to taxation in 1905 by using the assessed values of 1904 as the basis of assessment for that year will be, approximately, $200,000,000. If the franchise tax is finally upheld, the sum of $230,000,000 must be added to this. The Mayor then says that this large total, therefore—possibly as great as $430,000,000—would be lost permanently to the assessed valuation of the city, for what is lost for purposes of assessment in 1905 cannot be regained. Then if the city should be obliged to lose, in 1905, $430,000,000 of assessed valuation for the purposes of taxation, all the rest of the property in the city, both real and personal, must be taxed enough higher to make good the amount that otherwise would be levied upon this $430,000,000 of property.

TENEMENT HOUSE LEGISLATION.

The Tenement House Bill that was introduced with the consent and approval of Commissioner De Forest, with the object of adjusting the law so as to encourage the building of small tenements at low rentals and thus respond to real estate conditions in the Bronx and in Brooklyn, was passed by the Assembly on Monday night. Assemblyman Agnew, in explaining the measure, said the changes will not in any way weaken the fundamental theory of the existing Tenement House Law, namely, that the greatest good of the greatest number demands that the people living in congested districts of our great cities should be furnished with a certain amount of light and air. He added: "To be more concrete, the law, if these amendments, are enacted, will permit 4-sty buildings which have not more than two families on a floor, with each apartment running through from front to rear of the building, to be of semi-fireproof materials as to the stairs and hallways, and with courts of such size that such buildings may be placed on a 25-foot lot. In 3-sty houses of the same type which do not cover above 65 per cent. of the lot area a slightly smaller interior court is allowed. Outside of the fire limits the new law will permit the construction of 3-sty (one-family to a floor) wooden tenement houses. This is for the reason that experience has shown that such a type will tend to a higher social and moral development of the people than the present 2-sty, four-family houses."

MORE POWER FOR THE SINKING FUND COMMISSIONERS.

Senator Marshall's bill amending the charter in reference to the powers of the commissioners of the Sinking Fund has passed the Senate after being amended. It now provides that the commissioners of the Sinking Fund shall have power to sell the interest of the city in any street, avenue or public place that has been discontinued and closed, in whole or in part, by lawful authority, to the owner of lands fronting on such street or public place, provided the commissioners shall first determine that the said lands or the part thereof so sold and conveyed are not needed for any public use. The concrete and present purpose of the bill is to close a block needed for the Pennsylvania Railroad terminal, but the authority therein granted may be useful for the future also.

Senator Brackett has introduced a bill providing that no male child under 18 years of age, nor any female, shall be employed in any factory in this State in operating or using any emery or other abrasive for polishing or buffing.

The Senate has passed Assemblyman Dooling's bill, permitting a recreation and athletic ground in McComb's Dam Park in the Bronx.

A bill introduced by Assemblyman Morgan provides that all buildings in New York City over five stories high where steam power is used shall be metered. Commissioner Monroe is in favor of it. The meter will pay for itself in a year, he says, and the city is losing $1,500,000 a year by water running to waste in leaky fixtures.

## Sailing Under False Colors.

The following correspondence shows what is doing:

Electric Fireproofing Co.,
Foot of East 19th St., New York.

April 8, 1903.

Mr. Wellington, Manager, Fore River Ship and Engine Co., Quincy, Mass.

Dear Sir: I have noticed in an advertising sheet, during the past week, that the so-called American Wood Fireproofing Company, of Newark, New Jersey, advertised that they had furnished the fireproof wood used in the construction of the cruiser "Des Moines." From the fact that I remember that our company furnished a schedule of fireproofed wood upon your order No. 11764 under date of January 25, 1902, for the cruiser "Des Moines," I concluded that there must be some mistake about their advertisement or else they purposely do advertise it so as to mislead the public, and knowing the further fact, that we have furnished you a schedule of lumber required for the "Des Moines," I concluded to write and ask you whether I am correct in stating that the Electric Fireproofing Company have furnished the material for the cruiser "Des Moines" and not the company in Newark, called the American Wood Fireproofing.

I thought perhaps that you might have used our material on some other government vessel, and therefore I did not wish to contradict the advertisement until I am first sure of your verification. An immediate answer to this will greatly oblige,

Yours very truly,
(Signed) ELECTRIC FIREPROOFING CO.,
per Max Bachert, V. Pres.

Fore River Ship and Engine Company, Ship Builders,
Quincy, Massachusetts.

April 9, 1903.

Electric Fireproofing Co., 19th St. and East River, New York, N. Y.

Gentlemen: Replying to yours of April 8, we beg to advise you that the fireproofed wood used on the U. S. Sheathed Protected Cruiser "Des Moines" was furnished by the Electric Fireproofing Co. The American Wood Fireproofing Company originally took the order for this material, but was unable to meet the requirements of the department, consequently our order to them was countermanded. Very truly yours,

F. O. WELLINGTON, General Manager.

## An Experience with Metal Window Frames and Sashes.

Thomas Roberts & Co., writing of their experience with wire-glass windows set in metal window frames, state that during the early part of 1901 they erected adjoining their present plant in Philadelphia a 6-sty warehouse. This new building, as also a part of the old building, abutted on both sides, on a 10-ft. wide alley, on which were and are warehouses in the wool and yarn trade. They add:

"In order to obtain a decided reduction in the high rates of insurance then prevailing we had installed in both the new and old warehouses wire-glass windows, set in metal frames, in all windows opening on both the alleys, as a protection against fire. Recently a fire occurred in the wool and cotton warehouse at No. 120 Chestnut st. This warehouse extends back to the

alley alongside our buildings. This fire extended throughout the length of the Chestnut st building, the flames shooting across the alley, and endangering our warehouse, which was saved mainly by the wire-glass windows, which withstood the heat and flames, without damage to the glass except some cracking."

While, of course, the wire-glass is the principal feature in such windows it would be of little value without the metal frames and sashes. Aside from the letter from Messrs. Roberts & Co., we were told by eye-witnesses of the fire that it was very severe and gave the windows a crucial practical test which they withstood without any damage whatever to the frames and sashes, which were manufactured by the Smith-Warren Company.

This company have recently installed some of the heaviest power presses ever built for working sheet metal for use in manufacturing their windows. They have factories at Philadelphia, New York, Buffalo, Worcester, Canton, Detroit, Atlanta, Portland, Ore., Seattle and Ottawa.

The action of the majority of the Local Boards of Newtown and Jamaica in indorsing Long Island City as the proper site for the new Borough Hall, appeals with force to the Board of Estimate and Apportionment. But then, is Long Island City entirely worthy of the honor? What is the matter with Long Island City anyway? Geographically she is all right, but internally she is amazing.

We will give ten cents each for copies of the following numbers, delivered at this office in good condition: Nos. 1764, 1765, 1786, 1802.

## Gossip of the Week.

### A Record Price for Fifth Avenue.

5TH AV.—Charles T. Cook, president of Tiffany & Company, announced Thursday that he had purchased for Tiffany & Company, through Whitehouse & Porter, almost the entire block front of the east side of 5th av, from the 37th st corner to within one door of 36th st. The plot fronts 158.9 feet on 5th av and has a depth on 37th st of 151.6. George C. Boldt, the seller, bought the property in 1901 for $1,224,000, and is now reported to have resold for $2,000,000. The plot contains 22,166 square feet, which at $2,000,000 would make the square foot price for the land $90.22. This is probably a record price for property in this section of 5th av. The New York Realty Corporation, according to the revenue stamps on the deed, paid $99.88 a square foot for the northeast corner of 38th st and 5th av, but C. T. Barney paid only $46.72 for it a year before. People can draw their own conclusions.

### Mr. Morgan's Purchase.

MADISON AV.—J. Pierpont Morgan has purchased the William E. Dodge house, at 225 Madison av. The property adjoins Mr. Morgan's present dwelling, at the northeast corner of Madison av and 36th st. The house was built by William E. Dodge, and was occupied by himself and by his widow until her death a few days ago. It is a 4-sty building, with a Madison av frontage of 65.10 and a depth of 157. Immediately north of it is the Anson Phelps Stokes house. Mr. Morgan, in the last two years, has acquired a considerable amount of property on the block in which his house stands. He has acquired all the frontage on the north side of 36th st, in the rear of his present dwelling, except the Park av corner. He recently filed plans for a library and art gallery on this property, for the housing of his well-known collections.

SOUTH OF 59TH STREET.

12TH ST.—Joseph Herrmann has sold to Cohen & Glauber 502 East 12th st, a 5-sty tenement with stores, on lot 28x51.10; the buyers have resold.

STANTON ST.—Cohen & Glauber have sold 266 Stanton st.

53D ST.—Caroline M. Wilmerding has sold 57 East 53d st, a 4-sty dwelling, on lot 20x100.5. No. 45 sold in 1901 for $50,000.

59TH ST.—George G. Benjamin has sold 320 to 324 West 59th st, old buildings, on plot 50x100.5. The buyer, Robert M. Fulton, has sold his contract to Marie L. Holmes. The property sold in July, 1901, for $45,000, was resold in August of that year to the present seller for $50,000, and is now sold for $75,000.

17TH ST.—Asher Simon has sold 205 East 17th st, a 3-sty dwelling, on lot 23x92, about 105 feet east of 3d av.

55TH ST.—Joseph P. Day and John J. Clancy & Co. have sold for George R. Bourne to Harry Stowell 336 West 55th st, a 3-sty dwelling, on lot 20x100.5.

3D ST.—Schmeidler & Bachrach have bought from Henry Becker 219 East 3d st, 4-sty front and rear buildings, on lot 23x96.2.

22D ST.—Weil & Mayer have purchased the Ernst Gabler piano factory property at 214 to 224 East 22d st, a plot 147.5x98.9.

8TH AV.—Bernard Smyth & Sons have sold for the estate of Francis Biegen No. 852 8th av, 5-sty double flat with store, 25x80.

LEXINGTON AV.—H. H. Cammann & Co. have sold for Frederick Berenbroick to John L. Martin No. 682 Lexington av, a 3-sty and basement brick dwelling, on lot 16.8x58.

VARICK ST.—Horace S. Ely & Co. have sold for Mrs. H. B. Hoffman to Benjamin B. Jackson No. 62 Varick st, a 4-sty brick building, on lot 25x100.

LEXINGTON AV.—I. Rubenoff has sold to A. Schwab 728 Lexington av, a 3-sty and basement dwelling, on lot 20x70.

7TH AV.—Morris Abraham has sold 270 to 274 7th av, three 4-sty buildings, on plot 63x100.

15TH ST.—Abraham C. Weingarten has sold 324 and 326 East 15th st, two 6-sty tenements, on plot 52x103.3. Benny Hirschberg is the buyer.

11TH ST.—Albert Hochster and August Ruff have sold to Bernhard Kahn 233 and 235 East 11th st, two new 5-sty flats, on plot 50x100.

SUFFOLK ST.—Charles Rubinger, Louis Klinger and Charles I. Fleck have sold for a client 186 Suffolk st, front and rear tenements, on lot 19x95.

BROADWAY.—The Rossiter Trust has purchased from Louis M. Jones and Leo S. Bing 656 Broadway, a lot 29x130, adjoining the corner of Bond st, which the buyers already own. The sellers bought the property in April, 1902, for $135,000 and resold it to Morris Zimmerman, who started to erect a building on the site. Mr. Zimmerman on Thursday transferred the property to the sellers. The Rossiter Trust will improve the combined plot with a 12-sty store, office and loft building.

WASHINGTON PL.—N. Brigham Hall & Son have sold for Elvira Purdy to Mary E. L. Sulzer, 118 West Washington pl, south side, 200 feet west of 6th av, a 3-sty brick dwelling, lot 18x71.

FERRY ST.—Lovejoy & Noyes have sold for the estate of David Moffat to Frederick Vogel, Jr., 35 and 37 Ferry st, southeast corner of Cliff st, a plot containing about 3,700 square feet, upon which there will be erected immediately a 9 or 10-sty fireproof building, to be occupied by the Pfister & Vogel Leather Co. William H. Heller, the New York manager of this concern, represented the buyers during the recent negotiation. Plans for the new building are being prepared by William K. Benedict.

PARK PL.—Samuel Goldsticker announced Wednesday the completion of the negotiations, which have been pending for several months, for the sale of the Billings estate property, running through from Park place to Murray st, to the American News Co. The transaction covers 9 to 15 Park pl, and 8 to 12 Murray st, a plot containing something over 12,000 square feet, with frontages of 86.6 feet on Park pl and 75 feet on Murray st. The American News Company pays about $600,000 for the property, and will, if the city decides to take its property on Chambers st, build a new building on the site just purchased; the building operation, according to Patrick Farrelly of the company, is a number of years off.

WILLIAM ST.—The two 5-sty buildings at 86 and 88 William st, on plot 42.6x105.7, are reported to have been sold. They are on the east side of the street, just north of Maiden Lane, and adjoining the building owned and occupied by the North River Insurance Co. Theodore A. Swan represents the owners and states that he knows nothing of a sale, although he says that he can't tell what the future will bring forth. 69 and 71 Maiden lane which abuts the William st parcel were recently transferred to James A. Macdonald, representing the Queen Insurance Co., who are also said to be the buyers of 86 and 88 William st.

WEST ST.—The Empire City Realty Co. has bought through L. Tannenbaum, Straus & Co., 18 West st, 25x95, from the Bowdin estate, and 20 West st, 25x174.6, running through to 32 Washington st, from J. N. Robbins.

HOUSTON ST.—Schmeidler & Bachrach have sold 147 and 149 East Houston st, corner Eldridge st, two 5-sty tenements, on lot 50x75.

2D ST.—Lowenfeld & Prager have bought from Christian Faubel 136 2d st, a 3-sty and basement dwelling, on lot 20.2x 100; they also bought No. 134, a similar dwelling adjoining, making a plot 40.4x100.

MONROE ST.—Lowenfeld & Prager have sold to Ludwig Zodikow 212 and 214 Monroe st, southeast corner Gouverneur st, two 5-sty tenements, on plot 50.6x69.10x irregular.

70TH ST.—Isaac Strauss has sold for Uhlfelder & Welnberg to Jacob Deutsch 317 East 70th st, a 5-sty double tenement, on lot 25x100.

66TH ST.—Henry D. Winans & May report the sale of three 4-sty brownstone dwellings, 17, 19 and 21 East 66th st, at the northwest corner of Madison av, 17 for Margaret M. Hall, executrix of the estate of Edward Hall; 19 for Rachael Rice; 21 for W. W. Heroy, executor for the estate of William Hoyt. The plot fronts 22.5 on Madison av and 120 ft. on 66th st, Nos. 17 and 19 having a depth of 100.5, the three houses covering a plot of about 5,800 sq ft; the buyer it is said will build a new dwelling. This is rather a peculiar-shaped plot for a dwelling; if reports are true the same buyer is negotiating for the three houses adjoining on Madison av, and if successful the improvement may turn out to be an apartment house. No. 19 has been owned by the seller since 1870, when it sold for $30,000. No. 21, the corner, sold in 1893 for $82,000.

5TH AV.—The Fleischmann Realty Construction Company has sold the Gainsborough, a 7-sty apartment house, at the southwest corner of 5th av and 120th st, opposite Mount Morris Park. No. 92 5th av, reported last week, was taken in payment.

## Real Estate Notes.

Dr. M. Mangis is the buyer of 961 Madison av, reported last week.

Robert Levers, formerly with R. Pehlemann & Son, has gone into business on his own account at 4 Warren st.

W. H. Jacob, well-known in realty circles, is now associated with Holdridge, Dennis & Preston, of 4 Warren st.

Philip A. Payton, Jr., bought No. 13 West 131st st for his own occupancy, and sold No. 102 West 136th, not 126th st.

Amos F. Eno is the buyer of 13 South William st, running through to Stone st. He will alter the building and occupy part of it.

The New York Real Estate Salesroom will be located at 161 Broadway after April 30. The justices of the Supreme Court issued an order to that effect last week.

Miles & Helfer, real estate and insurance brokers, will remove on May 1st to 135 Broadway, North American Trust Building, Suite 603, 4, 5, 6, where they will transact the business heretofore done at 111 Broadway and 304 East Broadway.

The Trust Company of America paid a quarterly dividend of 2% on the 1st inst. This means 8% per annum, an increase of 1%; formerly semi-annual dividends of 3½% were paid.

The Knickerbocker Mortgage and Realty Company leased No. 238 5th av, a 5-sty business building, and will occupy its first floor as its uptown office. The company has also acquired the entire business of James R. Pierson, and will continue the business at No. 35 Nassau st.

The property sold last week by M. Morgenthau, Jr., was 524 and 526 11th av, and 556 West 41st st, surrounding the southeast corner of 11th av and 41st st; Mr. Morgenthau was also the broker in the lease of the store and basement of the Ferguson Building, of 135 5th av, to a new bank now being organized.

L. Tanenbaum, Strauss & Co. have secured a judgment for $7,854 against Thomas B. Hidden for commission on the lease of 1265 to 1269 Broadway, running through to 6th av, for the Webb estate, to Browning, King & Co. The amount of taxes to be paid by the lessees was added to the amount of rental, which materially increased the amount of the commission sued for. Mr. Hidden is executor of the Webb estate.

The leading feature of the meeting of the Realty League at the Grand Central Hotel on Thursday night was the address of President Charles Buck, setting forth the League's opposition to taxes on mortgages, the full assesment of realty, and the fire insurance rate combination, and of its plan to urge a thorough revision of the present system of taxation.

SCHENECTADY.—A Masonic temple, to cost, as report says, not less than $100,000, will be erected here. The two Masonic lodges in Schenectady, St. George's lodge and New Hope lodge, will join in the movement. One of the sites under consideration is the Christ Church property, in State st, below Nott Terrace, and facing Crescent Park. The church people are contemplating building a new church in another part of the city. If they can secure the location they are looking for it is more than probable that their present church site will be taken by the Masons. The present Masonic temple in Church st is not desirable in any way. The plans now under consideration, which have thus far simply been discussed informally, contemplate a big building, offices above and a large and commodious public hall.

## Questions and Answers.

A MATTER OF TITLE.

*To the Editor of* THE RECORD AND GUIDE:

I have lately contracted for the purchase of a piece of property (title to be closed the latter part of April), 50x100. The title company refuses to give clear title on the following grounds: (A) That the southeasterly 5 feet are "out of possession" by reason of present owner not having fenced off said 5 feet, when lately conveying an adjoining piece of property of which this 5 feet was the rear of the lot conveyed, though the 5 feet was not included in the conveyance. (B) That the building on the rear of the lot I have contracted for (the northerly side) encroaches 1 inch on premises adjoining on northerly side thereof, and same building encroaches one-half inch on premises adjoining on the westerly side; premises on the westerly side only belongs to the same party from whom I have contracted to purchase the 50x100 feet.

What I would like to know is this: (1) Can I enforce the contract for the purchase of the entire amount of land and premises agreed on in said contract, I having paid $100 as commission and $200 to bind the bargain? (2) Can I make the grantor (to be) fence off the above-mentioned 5 feet in order to get clear title to the southeasterly part of lot? (3) Is it allowable to force him to purchase the encroachment of the 1 inch of northerly wall of rear building or allow me price to purchase same or for its removal? (4) Should I compel him to convey to me without costs or charges to me (further than that specified in the contract for the purchase of 50x100) the half-inch where rear building encroaches on his premises to the westerly side? (5) I have heard indirectly that unless I took the property with the violations and restrictions, etc., on it, I could be compelled to accept the return of the $300 as above, which I do not want.

Answer.—(A) You would have the right to fence in the 5 feet if title is still in your grantor, and so would join both title and possession in you as owner. (B) I do not consider an encroachment of 1 inch only as of any great importance. (1) I do not know what you paid $100 commission for, but you certainly are entitled to a deed for what you agreed to purchase. (2) No; you can fence it off yourself. (3) No. (4) No. (5) If you reject the title for cause you can recover what you paid on account of the purchase and your reasonable expenses of examining title; that is the measure of your damages.

The title company would make their policy subject to the 1 inch and the half-inch encroachments, and such a subject clause is usual in title company policies; I do not think you would have any difficulty in selling or giving title with a policy of title insurance, subject to the exceptions of the inch and a-half encroachments. The 5 feet you can fence in yourself and so get good title. There are very few absolutely perfect titles; this one would seem to be marketable, which is all you can require.—Law Editor.

*To the Editor of* THE RECORD AND GUIDE:

Will you kindly answer the following: Is the owner of a house held responsible for the damage caused by the falling of a ceiling, when the tenant failed to report that the ceiling is cracked, the same being in perfect order when last seen by the owner. Has there ever been a case decided against the owner as stated above; if so, when and where? THOS. MURPHY.

Answer.—Not responsible. Sec. 52 N. Y., 512; 26 App. Div., 210; 72 App. Div., 176. See also 130 N. Y., 269 dictum, at p 272.—Law Editor.

## Material Market.

LUMBER.

Reports from the Northeast concerning the spruce log cut show that it will exceed last year's record considerably, though the early break-up of winter left part of the cut behind in some regions, but this will not exceed ten per cent., and to far more than offset this is an immense quantity of old logs left over from last year and brought out this winter. The cost of labor and supplies was much higher than last season.

In general it is well understood that White Pine is annually becoming more scarce. The increasing price impresses the fact upon the public at large. But some statistics collected by the "American Lumberman" and covering the use and decline of the principal White Pine Belt, show very clearly how things are going. The White Pine Belt includes the territory north of a line drawn from Toledo to Chicago, thence northwestwardly to St. Paul and to the international boundary. In thirty years this territory has produced 188,391,000,000 feet of lumber excluding laths, shingles and other by-products. The following table shows the averaged production in million feet from 1873:

| | Million ft. | | Million ft. |
|---|---|---|---|
| 1873 | 3,765 | 1892 | 8,594 |
| Average, 1873 to 1878 | 3,629 | Average, 1893 to 1895 | 7,326 |
| 1879 | 4,807 | 1896 | 5,725 |
| 1880 | 5,651 | 1897 | 6,233 |
| 1881 | 6,679 | 1898 | 6,155 |
| 1882 | 7,552 | 1899 | 6,056 |
| Average, 1883 to 1887 | 7,559 | 1900 | 5,485 |
| 1888 | 8,302 | 1901 | 5,336 |
| | | 1902 | 5,294 |

In considering these figures it should be noted that the harvesting operations, which began originally on the lower peninsula of Michigan and on the territory tributary to mills by logging on the streams, and afterward extended over the entire territory by means of logging railroads, has gradually moved west and north, until at the present time the western district—that is, the territory lying northwest of Milwaukee—is producing about one-half of the total. The district east of Chicago, or lower Michigan, in 1873 produced 35 per cent. of the total output, 22 per cent. in 1892, and only 3 per cent. in 1902.

HARDWOOD.

Stocks of hardwood at distributing points are lower than usual this spring, and after some years of depression the revival of business noted last fall continues. Reports from the south say that oak lumber, both plain and quarter sawed, is in better demand and prices are slightly higher. Poplar lumber is scarce and orders are hard to place, even at the present high prices. Hickory, walnut, red cedar and cherry are in good demand, with limited stocks. The log supply, generally, is below the average. Every year there is more trouble in getting a supply of good timber. Many tracts of land are advertised as containing fine timber, but when visited it is found that the better timber has largely been cut off. The yellow pine manufacturers have increased their capacity and have had orders in excess of production. The export and interior trade for yellow pine have both been exceptionally good. The two-cent advance in freight rates, to go into effect April 15th, may curtail the consumption of yellow pine to some extent.

BRICK.

The aspect of affairs in the brick market has not materially changed, as regards the labor question. Large quantities of brick are going outside, and if anything the visible supply has decreased. The receipts of the week have not equaled expectations, but prices are lower.

METAL WORK.

Perhaps the finest combination in metal work will be seen in the new banking room now being built for the National Park Bank, No. 214 Broadway, Donn Barber, architect. The ornamental cast bronze work for this bank, of richest detail of design, consists of entrance doors, electric light standards, cast and wrought bronze coffered ceiling, bronze grille partition screens, counter screens, door and window grilles, and balcony railings, in all constituting the largest contract ever given for ornamental cast broze work for a single banking room, and was a competitive award to the firm of John Williams. It is a magnificent work.

At the present time there seems to be a disposition to use fine marbles and bronze work exclusively in the interiors of the magnificent offices and banking rooms of the buildings now being put up. John Williams has lately completed beautiful bronze work in the Mutual Life Ins. Co.'s new offices, Clinton & Russell, architects; the Prudential Life Ins. Co. building, Newark, N. J., Geo. B. Post, architect; the Metropolitan Life Ins Co. building, N. Le Brun & Sons, architects; the Speyer building, De Lemos & Cordes, architects, and in the Stock Exchange, Geo. B. Post, architect. There is to be a large quantity of bronze work in the Knickerbocker Trust Company's new building, 34th st and 5th av, of which McKim, Mead & White are the architects, and also in the St. Regis Hotel, of which Trowbridge & Livingston are the architects. In the new Hall of Records there is a large quantity of bronze work. Horgan & Slattery are the architects for this.

## Crisis at Hand.

NEGOTIATIONS NOW IN PROGRESS WILL DETERMINE WHAT MAY DAY WILL BRING FORTH IN BUILDING TRADES.

Again the clouds are gathering in the industrial sky, and what May Day will bring forth baffles prophesy. The best informed builders, who a fortnight ago were confident in predicting an undisturbed era of industry, confess to being worried. The Carpenters have complicated a situation that was gradually clearing by starting a faction fight; the Bricklayers have made a formal request for 70 cents an hour, and the Housesmiths of the city have made a demand for increased wages and more relaxation. These are the three features that dominate the picture. As the Masons, Carpenters and Housesmiths are three of the five leading trades in building, a fourth being the Plasterers, they determine in a very complete degree the cost of construction.

The success of the plasterers last fall in obtaining an advance of 50 cents to go into effect next July, has spurred on the masons, who have always felt that they are entitled to a higher rate of pay than plasterers (plain) for the reason that they work outside mostly and lose more time on account of bad weather. Receiving now 65 cents an hour, or $5.20 a day for full time, they ask a rate that will give them 10 cents more a day than the plain plasterers. They have not yet made what in trade circles is called a "demand," but the wage scale is now the subject of negotiation between the parties to the contract. A gentleman standing high in the building world said late this week that he could not predict how the negotiations will terminate.

Much depends on how the fight between the Brotherhood and Amalgamated carpenters and the conferences between the structural workers' union and their employers of the Iron League. If these trades are going to be idle, the masons will have to rest anyway. The existing troubles have thrown so many of them out of work, and others have lost so much time from bad weather, that they may not think it wise to insist on higher pay after May 1, should employers rigidly object. But arbitration has recently taken an honored seat at the council table of the masons, as well as with the plasterers, and they are not so quick as some other mechanics to drop their work. Mastermasons fear the consequences of adding to the cost of building, and it is doubtful if they will yield.

CARPENTERS.

The strike of the United Brotherhood of Carpenters against the Amalgamated Carpenters will presently stop a large section of construction work, unless the places of the strikers are filled with men from outside. The Amalgamated men will do their best to keep things going, and the strikers may not be missed for a considerable time. The Brotherhood withdrew their representative from the board several months ago, after which the Amalgamated men were discriminated against. This was noticed at the Ansonia, and subsequently on a job in William st. The same trouble arose on a row of buildings on West 73d st, which the wife of Bishop Potter, formerly Mrs. Clark, was erecting, two months ago. Another fight for the same reason occurred on the Home Building, 54 Cedar st. The Amalgamated ultimatum was that they should form 50 per cent. of the force employed. The Board of Building Trades has taken up the fight in behalf of the Amalgamated, and the allied trades will do everything in their power to aid. The assistance from the Amalgamated Woodworkers and from the carpenters now on strike in Westchester county, will be especially valuable. The full result of the Brotherhood movement will not be visible until next week. It is understood that a committee of the building contractors have served notice on the two unions, after conferring with representatives on Thursday, at the Building Trades' Club, that they must quickly arbitrate and setle their differences, or it will not be well in the future for the one which refuses. Mr. O. M. Eidlitz, who presided at the conference, says: "We put the alternative very plainly before them and both committees agreed to submit their differences to arbitration, subject to the approval of their respective unions."

The number of men on strike is less than three thousand, and carpenter work is only partially suspended. The essential difference between the rival unions is that the Brotherhood is a national organization, independent of the American Federation, and the other is practically a local society, formed to meet local conditions and allied with other trades. The theory of the Amalgamated Society is that the cause of organized labor is not best served by independent organizations of the different callings.

HOUSESMITHS.

Local Union No. 2 of structural ironworkers have ostensibly endorsed but privately turned down President Buchanan of the

national body, and are making their peace at the week's end with the American Bridge Company and negotiating for the future with their employers. Frequent conferences are being held. The union voted not to sustain Buchanan in his efforts to cause a general strike among the ironworkers here. As the matter stands, the strike at the subway power house and extension shed will continue until a settlement is reached, but the subway is not to be otherwise affected, nor are buildings on which strikes are not now in progress.

It will be perceived that matters of high importance hang unon negotiations that are now in progress. Arbitration is the order of the day. Although some contractors apprehend a general cessation of building on May Day, hope has by no means fled. As is well known, the employers in all trades are in a position to resist successfully unjust demands, and if the men be wisely led they will tread softly. The highest level of wages ever reported before the present high-water mark was in 1892. In 1893 some industries suspended and others reduced wages. The general impression prevails that all wages went down. That was not the case. The wages paid in most industries kept right on at the same rate. A few years ago the industries that had cut wages restored them. During the last two or three years wages in some industries have been increased over the rates of 1892, so the general level is higher than ever before. The cost of construction cannot be increased without soon shutting off a large amount of work, because the public cannot afford to pay in rents sums which the owners must annually count on to reimburse them for the outlay. Others besides rich corporations must be permitted to build if the building trades are to be fully employed.

## Building Operations.

LEADING ENTERPRISES OF THE WEEK IN NEW YORK CITY AND STATE, NEW JERSEY AND CONNECTICUT—HINTS FOR BUILDERS, CONTRACTORS AND DEALERS IN MATERIALS.

### Dormitory Building for Columbia Men.

BROADWAY.—A building partly constructed on the northeast corner of Broadway and 124th st, originally designed for an apartment house, will be completed and utilized as a dormitory for the students of Columbia University. For the last few years the faculty has been making efforts to establish some kind of a dormitory system, and on Thursday the final arrangements were completed for housing two hundred students.

The new building will be known as Knowlton Hall, after Major-General Knowlton, an officer in the Continental Army, who fought in the battle of Harlem Heights, on the site of the future dormitory. The enterprise is under the direction of the Knowlton Hall Co., recently incorporated for $250,000 by Chas. P. Northrop, Geo. Maurer and Fred'k A. Goetz, superintendent of the University buildings and grounds. The building is four blocks from the college campus and will be completed at an expenditure of $250,000.

It is 7 stories high, with exterior walls, of limestone with terra cotta trim, completed, and covers a plot 75x100. The basement will contain a rathskeller, a squash court, which is lacking in the university gymnasium, a barber shop, and boiler room. On the ground floor will be located the library and reading room, general dining hall, grill room and billiard room. The remaining 6 stories will be devoted to the students' apartments which will be arranged in suites of two or three rooms, a study and one or two bedrooms. Every sleeping room will be furnished with hot and cold water, and there will be tub and shower baths on each floor. All the apartments will be furnished with the heavy mission oak furniture. Special attention will be paid to the furnishing of the grill room, in which all of the furniture will be ornamented with the college monogram. It is expected that the grill room and rathskeller will be to Columbia what Princeton Inn is to Princeton and Mory's in New Haven is to Yale. None but Columbia men will be admitted to these rooms, which will be in the nature of a students' club.

### Tiffany & Company to Build.

5TH AV.—Tiffany & Co., No. 15 Union square, will erect a business building for their own use on the east side of 5th av, from 37th st, south nearly to 36th st, which site they have just purchased. All rents of the present buildings will expire shortly, when steps will be taken for the immediate erection of the new structure.

Charles T. Cook, president of the company, informs the Record and Guide that no definite plans have been made as yet, and that an architect will not be chosen till possession of the property is acquired. Probably an 8-sty building will be erected.

It will be recalled that Gorham & Co. have plans in preparation by McKim, Mead & White, for an 8 or 10-sty building to occupy the southwest corner of 5th av and 36th st. Two big houses in allied lines will thus be close neighbors.

### New Clinton Market.

The building known as Clinton Market, bounded by Spring, West, Washington and Canal sts, erected by the city of New York in 1828 as a public market, has become rather dilapidated. The City wants to keep a public market here, and the wholesale dealers in flowers have been endeavoring to secure the erection by the City of a flower market, and have selected this site as the most available for their purpose, by reason of its proximity to the principal ferry systems from the State of New Jersey. In the Board of Aldermen is a resolution authorizing President Cantor to prepare plans for a suitable building on the above mentioned site, to be occupied as a public market, flower market and as a public bath house.

### For Bond Street and Broadway.

BROADWAY.—The Rossiter Trust will erect a 12-sty store, loft and office building at the southeast corner of Broadway and Bond st, a plot 58x130; Rossiter & Wright, 95 Liberty st, are the architects. They have already started to build on the corner, but they have just purchased 656, adjoining, and the plans are now being revised to cover that lot also. Purdy & Henderson are the engineers and Edward Corning has the general contract.

### Mercantile.

32D ST.—John H. Friend, 148 Alexander av, is drawing plans for a 5-sty stable, 50x172.6, cost $55,000, to be erected at 157 and 159 East 32d st, for Joseph M. Adrian, attorney for the owner.

FERRY ST.—William K. Benedict, architect, 11 East 42d st, is preparing preliminary sketches for a 9 or 10-sty fireproof building, to be erected on a plot 49x74.10 at Nos. 35 and 37 Ferry st, northeast corner of Cliff st. Frederick Vogel, Jr., is the owner and the new structure will be occupied by the Pfister and Vogel Leather Co., now at No. 37 Spruce st.

53D ST.—Horgan & Slattery, 1 Madison av, are drawing sketches for a stable to be erected at 154 East 53d st, for James Naughton's Sons.

13TH ST.—William A. Boring, 32 Broadway, is drawing plans for an 8-sty addition, 40x100, to the Collier Building, at 414 and 416 West 13th st; the John Jacob Astor estate is the owner.

24TH ST.—Schickel & Ditmars, No. 111 5th av, are making preliminary sketches for an 8 or 10-sty mercantile building to be built for Frederick Constable at Nos. 14, 16, 18 West 24th st, a plot 57x98.9, now occupied by three old 3-sty and basement brick dwellings. It adjoins a mercantile building owned by Arnold, Constable & Co.

18TH ST.—Bernstein & Bernstein, 111 Broadway, will draw the plans for two loft buildings, 90x92, at 144 and 150 West 18th st, for David Perelman, 256 Henry st.

### New Apartments, Flats and Tenements.

104TH ST.—Schwartz & Gross, 160 5th av, are drawing the plans for a 6-sty elevator apartment house which John Paterno's Sons, 507 West 112th st, will erect on the south side of 104th st, 185 feet east of Amsterdam av, on a plot 87.6x100.11.

155TH ST.—D'Oench & Yost, No. 289 4th av, are making plans for twenty 5-sty brick 4-family flats to be built on the property owned by Mrs. Harriet G. Coogan at 155th st and 8th av, a plot 780x100.

7TH AV.—Matthew R. Damora, architect, 787 East 171st st, has the plans nearly completed for a 6-sty elevator apartment house to be erected on the west side of 7th av, 40 feet north of 141st st, on a plot 75x75. The front will be of brick and stone, and a feature will be made of copper bay windows. M. Pizzutiello, owner, of 783 East 171st st, awards all contracts.

2D AV.—G. F. Pelham, 503 5th av, is drawing plans for the erection of a 9-sty elevator apartment house, 48x85, at 57 and 59 2d av, for J. Witner, 302 Broadway; cost, $100,000.

BLEECKER ST.—G. F. Pelham, 503 5th av, is finishing the plans for a 6-sty apartment house with stores, to be erected at northwest corner of Bleecker and Morton sts, for Polstein Bros., 9 Bible House; cost, $60,000.

MULBERRY ST.—G. F. Pelham, 503 5th av, has completed plans for the erection of a 6-sty tenement with stores, at 219 and 221 Mulberry st, 44x63, cost $35,000, for Polstein Bros., 9 Bible House.

HOUSTON ST.—G. F. Pelham, 503 5th av, is about to finish the plans for the erection of a 6-sty tenement with stores, 50x75, at southwest corner of Houston and Eldridge sts, to cost $60,000, for Nathan Silverson, owner and builder.

CLINTON ST.—G. F. Pelham, 503 5th av, is finishing plans for a 6-sty tenement house with stores, 37x70, irregular, at southeast corner of Clinton and Houston sts, for A. Silverson, owner and builder, to cost $60,000. The larger of the two stores will be occupied by the Jefferson Bank.

MOTT ST.—Bernstein & Bernstein, 111 Broadway, have finished plans for two 6-sty tenements, 62.9x100, at northwest corner of Mott and Hester sts, for Saul & Wallenstein, 1197 Lexington av.

CLINTON ST.—Sass & Smallheiser, 23 Park Row, are completing plans for the erection of a 6-sty flat, 25x94, at 230 Clinton st, for Packman & Levine.

8TH ST.—Bernstein & Bernstein, 111 Broadway, are drawing plans for the erection of a 6-sty tenement, 44.6x96.6, three families on a floor, for Lewis Lippman, at 380 and 382 East 8th st.

PRINCE ST.—Bernstein & Bernstein, 111 Broadway, have completed plans for the erection at the southwest corner of Prince and Thompson sts, 6-sty tenement, 33x75, six families on a floor, for Chas. and Henry Friedman, 123 East 112th st.

For plans filed see pages 732 and 751

BROOKLYN.—Sass & Smallheiser, 23 Park row, are making plans for a 5-sty brick flat to be built for Balleisen & Wexler, at 25 and 27 Meserole st, Brooklyn.

60TH ST.—R. C. Gildersleeve, architect, 150 5th av, has prepared preliminary sketches for an addition to the 12-sty hotel at No. 14 East 60th st, which may be built for the Alpha Realty Co., of No. 29 Broadway, at Nos. 10 and 12 East 60th st, a plot, 50x100, which the company recently purchased.

### Estimates Receivable.

By the U. S. Treasury Department, Washington, D. C., until May 4, at 3 p. m., for the construction (including plumbing, electric wiring and conduits) of the extension of the U. S. Custom House, Court House, and Post-Office, at Memphis, Tenn; until May 5, at 3 p. m., for the construction (except heating apparatus) of the extension of the U. S. Court House, Post-Office, etc., at Greensboro, North Carolina, in accordance with the drawings and specification, copies of which may be had of James Knox Taylor, Supervising Architect.

PARK ROW.—H. C. Pitman, 156 5th av, has completed plans for extension to the Hallenbeck building at the southeast corner of Park Row and Pearl st, 20x86, 10-sty. All contracts are awarded except for steam, electricity and plumbing. The architect is taking bids for the above.

Sealed estimates will be received by the Superintendent of School Buildings at the office of the Department of Education, Park av and 59th st, till 12 o'clock noon on Monday, April 20th, for

MANHATTAN.—The general construction and addition to and alterations in the truant school on the north side of 21st st, about 260 feet east of 3d av.

QUEENS.—The completion of public school No. 5 on Lockwood and Academy sts, Long Island City, in accordance with the original plans and specifications of contract awarded to John Langley which has been declared abandoned.

Also, installing electric light wiring fixtures and electric bell system in new public school No. 190, north side of 82d st, between 1st and 2d aves. Also, installing heating and ventilating apparatus in public school No. 190, north side 82d st, between 1st and 2d aves.

RICHMOND.—Furniture of new public school No. 34, north side of Fingerboard road, between Grant and Sherman aves, Fort Wadsworth.

For particulars see page 715.

### Contracts Awarded.

97TH ST.—J. R. Sheehan & Co. 160 5th av, have received the contract for the Public Comfort Station to be erected at 97th st and Central Park. Plans were drawn by Arnold W. Brunner, 36 Union Square East.

65TH ST.—J. R. Sheehan & Co., 160 5th av, were awarded the contract for the alteration of a 4-sty residence at 53 East 65th st; plans by Louis Colt Albro, 160 5th av. Edward B. Marks is the owner.

J. H. Deeves & Bro., 287 4th av, received the contract for an electrical sub-station at 115 West 39th st, for the New York Edison Co., private plans; also for a power house at Far Rockaway for the Queens Borough Gas and Electric Light Co. W. E. Baker & Co., engineers, 171 Broadway.

71ST ST.—C. T. Wills, 156 5th av, has awarded the following sub-contracts for the erection of a nurses' house at northwest corner Park av and 71st st, from plans by J. T. Baker, 160 5th av: Terra cotta, to the N. Y. Arch. T. C. Co.; carpentry, to Jas. Edgar; and heating, to G. A. Suter Co.

The contract for the erection of Public School 47, Brooklyn, was awarded by the Board of Education to Richard E. Heningham at $160,900, to be completed April 15, 1904; the following also submitted bids: Thomas Cockerill & Son, $174,000; Charles H. Peckworth, $169,445; F. J. Kelly's Sons, $164,382; W. & T. Lamb, $162,465; Myron C. Rush, $194,400; and Edwin H. Thatcher, $167,000. Other contracts awarded for Brooklyn schools were: Heating and ventilating apparatus in 106, to Frank Dobson, $2,540; alterations and repairs 2 and 39, to William Werner, at $12,799 and $3,590; 4 and 46 to Berkowitz & Brody, at $1,200 and $1,850; 10 and 13 to Neptune B. Smyth, at $3,521 and $5,500; 15, to J. P. Hansen, at $1,998; 32, to Tolmie & Kerr, at $5,549; and 60 and 76, to Alfred R. Tong, at $1,545 and $2,368.

The Tide-Water Building Co. has been awarded the general contract for the erection of ten buildings for the Wilmington Malleable Iron Co., at South Wilmington, Del. The buildings will all have steel frames, with concrete roofs and brick side walls. The general contract includes all of the work, namely, masonry, carpentry, ironwork, roofing, painting, grading, fences (of which there is to be over one mile), sewerage, glazing, metalwork, hardware, stacks, etc. Cost of plant, including machinery, to be $1,000,000.

CITY.—The contract for supplying the paint for the ceiling and walls of the 20 miles of subway now being built for the Interborough Rapid Transit Co.'s operation, has been awarded to the Casein Co. of America, with offices at No. 11 Broadway.

Chas. A. Cowen, 1123 Broadway, has been awarded the general contract for an 8-sty office building to be erected at 1265, 1267, 1269 Broadway. John E. Nitche, 19 Park Row, is the architect, and Browning, King & Co., clothiers, are the owners.

### Alterations.

CANAL ST.—H. C. Pitman, 156 5th av, is finishing plans for an alteration to the 5-sty building at northwest corner of Canal and Elm sts; it is to be a loft building and calls for plumbing, elevator, elevator shaft, metal ceiling, new front, galvanized iron, bar fixtures, and general interior changes. G. Stern, 1761 Madison av, is the owner.

### Miscellaneous.

BRONX.—John Galen Howard and Everett Waid, 156 5th av, are making plans for the new Fordham Hospital, to cost $500,000. It will be 4-sty high and will accommodate 150 patients. Work will start in August.

BROOKLYN.—In order to fulfil its plans for a new terminal station, the Long Island Railroad will institute condemnation proceedings against the old 13th Regiment property, at Flatbush av and Hanson pl, Brooklyn, which it failed to secure at auction this week. The property, which belonged to the Richardson estate, went to Geo. E. Lovett, a real estate broker, at a price of $75,000.

44TH ST.—The German Lutheran Church of the Redeemer will erect a new church edifice on a plot 40x100.5 at Nos. 420 and 422 West 44th st, a site now occupied by two old dwellings.

75TH ST.—The German Immanuel Baptist Church will erect a new church edifice on a plot 44.1x102.2 at Nos. 411 and 413 East 75th st, which they have recently purchased.

### Brooklyn.

Chas. F. Aukamp has sold for John R. Ryon the 3-sty and basement frame dwelling, 20x40x100, No. 551 Willoughby av, to Mrs. Mary Bennett.

LEWISTON, ME.—The Amalgamated Theatre Building Association, 1133 Broadway, have finished the plans and have been awarded the mason's and carpenter's contract for the erection of a 3-sty brick theatre building at Lewiston, Me., 75x125. They have used the Colonial style of architecture, seating capacity, 1,400; cost, $50,000. The owners are Cahn & Grant, Empire Theatre Building, N. Y. City.

FLATBUSH, L. I.—H. C. Pitman, 156 5th av, is drawing the plans for a 2½-sty frame cottage, 35x60, to be erected at Flatbush, L. I.

RUTHERFORD, N. J.—H. C. Pitman, 156 5th av, will draw the plans for a 3-sty brick private hospital, 35x50, all modern improvements, to be erected at Rutherford, N. J., for Dr. G. Bancroft Gale.

HASBROUCK HEIGHTS, N. J.—H. C. Pitman, 156 5th av, is drawing plans for a private residence, 2½-sty, 35x48, frame, all modern improvements, at Hasbrouck Heights. Mr. Pickhart is the owner.

### In Other Cities.

WEST POINT, N. Y.—Bids are asked until May 1 for building and plumbing materials, hardware, tools, paints, glass, furnace and range parts and other miscellaneous stores. Address Q. M., U. S. M. A.

PLATTSBURGH, N. Y.—Plans have been approved for the improvement of the municipal water system. They provide for laying 13,075 ft. of new water mains, and the placing of 30 new hydrants at an estimated cost of $20,000.

WATERTOWN, N. Y.—C. O. McComb, Cy. Engr., writes that the city has voted to build a mechanical filter plant to cost $100,000.

CANANDAIGUA.—Father Dougherty has partial plans for the new St. Mary's Church. The edifice proper will be 57 ft. wide on its Main st front, and at the transepts 83 ft. The total length to the rear wall of the sanctuary will be 159¾ ft.; to the end of the vestry, 167¾ ft. There will be no gallery, except over the vestibule at the Main st entrance, but the edifice will comfortably seat on its ground floor 898 people. The present plans contemplate a tower 16x22 on the southwest corner of the building. The style of architecture will probably be Romanesque, and the exterior walls will probably be stone. The work of excavating for the foundations is already under way, and the work of construction will begin as soon as the plans are perfected.

AUBURN, N. Y.—The city has received authority from the Legislature to spend $20,000 for an isolation hospital.

DUNKIRK, N. Y.—The Independent Congregation have purchased, for $4,000, a site for a new brick church. The lot is 120x180, at the corner of 6th st and Central av. Rev. Thomas Clinton Brockway is the pastor.

HARRISBURGH, PA.—The Amalgamated Theatre Building Association, 1133 Broadway, plans have been accepted, and general contract awarded for a 3-sty theatre to be erected in Harrisburgh, Pa., 75x110, seating capacity, 1,650. Reise & Appel, 1440 Broadway, are the owners.

SYRACUSE.—At a meeting of the building committee of the Homoeopathic Hospital, at the home of Dr. A. B. Kinne, the plans for the new hospital building as prepared by Architects Taber & Draper were accepted. The building is to have three stories, constructed of brick and stone. It will be 36x110 feet, and the estimated cost is between $27,000 and $30,000. It will have three wards and twenty-eight private rooms. The hospital will be located on the west side of South Salina st, between Castle and Furman sts. The architects were directed to prepare specifications and ask for contractors' figures. The Building Committee consists of J. B. Visscher, chairman; Louis L. Waters, Dr. A. B. Kinne and Frank T. Miller.

The Building Committee of the First M. E. Church has awarded the contract for the masonry work on the new church to Shanahan & Posthill, and for the carpentry work to Robert Montgomery. The contract for the stonework has not been awarded.

BRIDGEPORT, CONN.—The contracts for the new school to be erected in the Old Mill district, on Huntington road, just north of Boston av, have been awarded by the Board of Education as follows: Masonry, Casey & Hurley, $19,893; carpenter work, Vanstone & Vanstone, $16,817; plumbing, William Kirk, $2,386; painting, Dawe Brothers, $989; total, $40,085. The plans and specifications for the new building were drawn by Architect H. A. Lambert.

HARTFORD.—The Hartford Electric Light Company is planning to erect, just west of its present office quarters on Pearl st and east of the Seidler & May building, a 5-sty office building of brick. Offices for the company will occupy the first floor and other departments will find quarters on the floors above.

ITHACA.—Michael Casey announces that he will put up a large store and flat house on his property in North Aurora. The ground floor will contain two stores.

CLEVELAND, OHIO.—The City of Cleveland will erect a main library building and six branch library buildings at a cost of $250,000, the gift of Andrew Carnegie. The main building will be part of the group of municipal buildings now under advisement. Chief-Librarian Brett has his offices in the old public library on Euclid av.

Morris, Ct.—Prof. Earl B. Lovell, of Columbia University, has prepared plans for two 2-sty dormitories, each 36x76, and containing 40 rooms, to be built for the summer school of the engineering corps of the university on its property at Morris, Ct. It is planned to build later a chapel and bath-house.

PITTSBURG, PA.—James McCreery & Co., 64-66 West 23d st, New York, have had plans drawn by D. H. Burnham & Co., architects, Chicago, for a 12-sty department store building, 216x100, to be built on Wood st, Pittsburg. The estimated cost is $600,000. It is expected that the work of construction will begin April 20th and be completed by April 1, 1904. Bids are being received by Henry W. Oliver, of Pittsburg.

PITTSBURG, PA.—The Kaufmans will build a $450,000 addition to their department store in Pittsburg. The new building will be at Diamond st and Cherry alley, adjoining the Kaufman Block, at Smithfield and Diamond sts, which is now being enlarged by an addition of three stories to make it a 10-sty building. The architect, Charles Bickel, has awarded the general contract to William Miller Sons.

ADIRONDACK MTS.—The season will be notable for the large number of beautiful cottages and camps to be built in the Adirondack Mts. A large cottage on Reservoir Hill will be ready May 1st for Baroness Holcott. Mrs. Andrew Carnegie, sister-in-law of Andrew Carnegie, is having built a large camp on the shores of Rackett Lake. It is of Swiss architecture and will cost about $35,000. Ex-Gov. Levi P. Morton is building a camp on Eagle Island, in Upper Saranac Lake, which will cost at least $35,000. Mr. Dan Hanna, son of Senator Hanna, will build a larger cottage on the shores of Lower Saranac Lake. This is to be a modern Queen Anne cottage. Besides these many other camps and cottages are being or will be built this season.

ROCKVILLE CENTRE, L. I.—Lefferts & Kent, architects, No. 287 4th av, Manhattan, have awarded to Kessler Bros. the contract for building the $5,000 barn for Carl Damschinsky on lower Rockaway av, Rockville Centre, L. I. It will be equipped with electric light, bath-rooms, steam heat, and all other modern stable improvements.

QUOGUE, L. I.—L. J. Richardson, of Owego, N. Y., has been awarded the contract at a figure of about $63,000 for constructing the plant of the Quantuck Water Works Co., of Quogue, East Quogue and Westhampton Beach, L. I. The contract calls for the erection of a 100-foot high standpipe. Two gasoline engines will furnish power for pumping. Work will begin shortly.

BROADWAY.—Carrere & Hastings, No. 28 East 41st st, have awarded to Norcross Bros., 160 5th av, the general contract, on a percentage basis, for the alterations to the Empire Theatre building, at Broadway and 40th st. The plans call for raising the proscenium arch, reconstructing and changing the grade of two galleries and removing supporting posts therefrom, and the redecoration of the interior throughout. Frank W. Sanger and Al. Hyman, No. 1428 Broadway, are the owners. The cost is estimated at $100,000.

Responsible builder or Construction Co. wanted to build on our property in Bronx (12 houses to commence). Gleason Realty Co., 2367 Third Ave.

The $3,500,000 appropriation for street paving became operative this week, which is additional to a previous appropriation of $2,000,000 not yet expended. This will give employment to a whole lot of men. These are fine times, my countrymen.

Tugboat owners have not as yet come to an agreement as to rates for river and harbor towing, but it is believed there will be no serious cutting this season. The season so far is slow, and all are waiting for the opening of the canals. Efforts may then be made to put up the rates.

The Mayor has approved of the appropriation of $125,000 for completing the New Harlem Hospital, under the jurisdiction of the trustees of Bellevue and allied hospitals. The Mayor has also approved of the appropriation of $75,000 for the preparation of plans and specifications for the new Bellevue hospital.

The original plan of lining the corridors of the new Hall of Records with marble, at an estimated cost of $230,000, will likely be adhered to, instead of using plaster, as was resolved upon by the Van Wyck administration. The edifice is to be the future home of the Finance and Tax Departments, as well as of the Surrogate's Court.

In regard to the monumental work, John Williams is now engaged on the colossal seated female figure typifying "Alma Mater," by Daniel C. French, to be erected on the plaza in front of the Columbia University Library, and colossal statue of the late President McKinley, by Augustus Lukeman, which is to be erected and unveiled Decoration Day at Adams, Mass.

Agreeably to a general desire expressed by Brooklyn merchants, the Mayor has changed the plans for the Brooklyn end of the Manhattan Bridge so that it will come to grade at Sands st instead of Nassau st, no objection being interposed by Bridge Commissioner Lindenthal. The alteration will greatly improve things from a commercial point of view in the opinion of Brooklynites.

The Lord & Burnham Co., Irvington-on-the-Hudson, N. Y., horticultural architects and builders and steam and hot water heating engineers, have nearly completed a galvanizing plant in connection with their works, and intend in the future to galvanize nearly all iron-framed tables and beds made by them. The galvanized framework will not require painting and the additional cost over the cost of painting is not large.

Messrs. Pengnet, Francini & Co., 14 Maiden lane, telephone 4921 Cortlandt, have placed in the market nine varieties of Italian colored marbles of which they have exclusive control. Among these are the two varieties of Pavonazzo, with a predominent cream color and marked veins of black, purple and blue. The marbles are all peculiarly adapted for wainscoting, columns and church work, and are offered at very low prices.

The stone used in the construction of the residence of Charles M. Schwab is being cut at Peekskill-on-the-Hudson. The cutters receive metropolitan wages, and $8,000 a week is paid out in wages. The cutting is done with the aid of compressed air and one man will do as much in an hour as one could have done in a day under the old system. Some of the stones are of tremendous size. That used for the main step weighs 17 tons, while another weighs 14 tons. The work is being done by the Cutting Granite Company, and the stone is quarried within a few miles of Peekskill.

Steinway is booming. The era of business activity and general progress, so evident in all parts of Long Island City, is in full swing in the pretty and attractive section which bears the name of the great piano house. In the factory of Steinway & Sons, at Ditmars av and Purdy st, about 200 workmen are employed, almost entirely in the woodworking branch of the business, and within a few months there will be fully 1,200 men at work in the various branches of the manufactory. There is at present great scarcity of accommodation for those who are working for the different manufacturing firms now established at Steinway, and the opportunities for building operations are many.

The net earnings of the United States Steel Corporation for the first three months of the year amounted to $24,656,136, on which a quarterly dividend of 1¾ per cent. on the preferred and 1 per cent. on the common stock was declared. The undivided profits for the quarter, after deducting interest charges of $3,800,000, $760,000 for the sinking fund and $2,809,947 for depreciation and reserve, are $2,978,245. The unfilled orders on the books represent 5,410,719 tons of material, the greatest ever reported. The total net earnings for the three months ended March 31, $24,656,136, compared with a total of $26,279,599 for the same period of 1902. The falling off is officially ascribed to railroad congestion, which prevented prompt deliveries.

## A Thriving Building Material Centre.

The dedication of the new hall at Roseton, in memory of the late John C. Rose, the founder of the Rose Brick Company, was an occasion for issuing a pamphlet containing pictures of the building, a program of the dedication exercises and a brief historical outline of the village. As Roseton now contains several establishments that contribute building material to this market, a few extracts are apropos:

"Founded, in the year 1884, by the late John C. Rose, a pioneer in modern methods and advanced ideas in the manufacture, transportation and sale of brick, in little less than twenty years she has forged to the front as a producer of the best article of its kind in the trade, in that, a large percentage of the highest grade of brick shipped to the New York market, for sale, is manufactured at this place; for Roseton is not only the home of the Rose Brick, but also of the J. J. J. Brand, made by the Jova Brick Works, concerning whom more will be said a little further on; and still another plant has been located here, although they claim to be situated at Danskammer, but still, may well be claimed within its border, which, to judge by the quality of the brick on the first cargo shipped, must be reckoned well up in the list among the better class of the brick made along the Hudson River.

"From a small beginning the Rose Brick Company's plant has grown to be the largest in the State, with a capacity of nearly 500,000 brick per day, and plans for the erection of four more machines which will make a total of 23, with an additional output of about 100,000 daily, should make an annual production of 75,000,000 of brick well within sight.

"The Jova plant was founded by the late J. J. Jova, and was operated successfully by him on somewhat similar lines to those adopted by the Rose Brick Company, up to the time of his death, since which time this plant has been likewise successfully operated by his son, H. J. Jova, and his brothers. They have now nine machines with an output of nearly 250,000 daily, and with other machines in course of construction which will bring their capacity up to about 35,000,000 brick annually. The Danskammer Brick Works, established by F. W. Bartlett and his associates during the latter part of the season of 1902, have three machines with an output of about 10,000,000 annually. We are informed that they, too, have plans for the extension of their plant. All of these improvements, made in spite of the decreasing demand for brick, attest the superior quality of the deposit of clay and sand at Roseton.

"Another enterprise employing a number of men located here is the sand and gravel business conducted by Chas. E. Bishop,

of Rondout, N. Y. The gravel from this bank has been largely used in the parks of New York, Brooklyn, and Newark. With the large number of employees locating here, many of whom could not speak a word of English, came an urgent demand for a school, and there are now nearly 100 scholars on the roll. A new schoolhouse with additional facilities and better accommodations is now under consideration."

## Underpinning a High Wall.

New York builders are frequently called upon to execute difficult maneuvers, especially in foundation work for giant office buildings. The excavation work for the cellar at 56 Cedar st was a case in point, as it was carried down to 20 ft. below the sidewalk and several feet below the footings of the adjacent 6-sty brick wall, at No. 58. The necessary operations were followed with unusual interest, and a portion of the work was described in the Engineering Record as follows:

The excavation for the cellar of the new building at No. 56 Cedar st, New York, was carried down about 20 ft below the sidewalk level, and several feet below the footings of the adjacent six-story brick wall of the building at No. 58. The old and new walls are in contact for a length of about 75 feet, and the old one was seated on ordinary offset footings which had to be removed and carried down several feet to the sandy bottom of the new excavation. Most of the wall was carried on nine wooden needle beams about 6 feet apart on centres, which were set about 8 feet above the bottom of the footing.

Each of the regular needles consisted of a pair of 14x14-inch timbers, one on top of the other, which projected about 10 feet into the new excavation and were supported there on a vertical 14x14-inch post at the end with a transverse sill and longitudinal grillage timbers under its foot. The inner ends were supported on a double line of timber sills on the cellar floor, parallel to the wall. The wall was cut away several inches above the needles, and wooden packing pieces were driven in tight above them with bearing on cement mortar, which was plastered on the under side of the brickwork. The needles were adjusted with jack screws under the outer ends, which were screwed up until they lifted the wall very slightly; the vertical posts were then set adjacent to the jacks, and wedged up until they released the jacks, and the latter were removed after the bearings under the feet of the posts had been forced down to permanent and solid seats on the sand.

At one end of the building there was a horizontal pipe close to the wall at such a level that there was not room under it for the pairs of wooden needle beams, and so groups of steel I-beams side by side were used instead, thereby gaining about 16 inches more clearance. After the needles were loaded the old wall under them was removed, the excavation completed there and a new footing built, all in several successive sections of convenient lengths. Brick piers, 2 to 3 feet long, were built up on the new concrete footings to within 5 or 6 feet of the tops of the needles and between them. The top of each pier was entirely covered by a cut-stone cap and a duplicate stone was set on it, loose, with several pairs of thin steel wedges between the two stones.

The brick pier was continued above the upper stone to the under side of the old brickwork and carefully joined to it. The wedges were driven until the loads were taken from the adjacent needles. When these were released and the new footing was permanently settled the needles were removed and the spaces which they had occupied were filled with new brickwork, closing up the openings between the wedged piers and completing the new foundations. The spaces between the wedging stones were thoroughly grouted and the weight of the whole wall was thus theoretically carried through the wedges, but the cement enclosing them was so solid, and the final sections of wall were so tightly closed up at the top that a very slight settlement or compression of the piers would practically distribute the load over the whole of the new footing before any damage could be done or appreciable movement take place.

## Remodeling the Manhattan Life Building.

The alterations to the Manhattan Life Building, at 64-68 Broadway, embrace construction features decidedly unusual. When the company was preparing to build the 26-ft. addition on the north side the question arose what should be done to the old facade, and if it would be better to let the addition have an independent frontal design, though in some respects imitating the old one. The directors decided to remodel the existing work and extend the design to the new part, and have accomplished it by removing the north pavilion and then extending the features of the middle portion by duplication, rebuilding the dome and changing its centre, and also changing the position of the north tower. Thus, the front will have one uniform design, conveying the impression of massiveness, and leaving nothing to show that an addition has been worked into it. This effect, however, will not be entirely achieved until the main entrance is moved, which cannot be done while certain leases hold. The enlarged building now extends through to New st, and has 1,230 ft. more of rental space on each floor. The enlargement of the structure also permits an advantageous rearrangement of the main halls and elevator plant.

## Action for Broker's Real Estate Commission.

The Appellate Division of the Supreme Court has just rendered a decision of interest to real estate brokers. The title of the case is Max Housman v. Elizabeth Herdfeldter, and is reported in the New York Law Journal of March 20th. The facts and the law are as stated in the following opinion of the court:

"The plaintiff has recovered a verdict for $620 commissions on the theory that he obtained a purchaser for the premises owned by the defendant and known as Nos. 168 and 170 Orchard st, situate on the southeast corner of Orchard and Stanton sts, the dimensions being 50 ft. front by 66 ft. in depth. The premises were occupied by two old houses of little value. The plaintiff was quite familiar with the neighborhood and property. The defendant was 73 years of age and resided at No. 417 East 116th st. The plaintiff testified that he was informed by a friend that she desired to sell and he called at her residence and she employed him; that he asked the dimensions of the property and she gave them as 50 ft. front by 76 ft. in depth; that he procured one Cohn, another real estate broker, as a purchaser upon her terms. Cohn also testified that at an interview at which he was present she represented the property to be of those dimensions. Cohn, after delivering a check for $250 on account of the purchase, refused to sign a contract, because the depth was only 66 instead of 76 ft., as had been represented to him and his check was returned. The defendant denied having made any representations to the plaintiff concerning the dimensions of the premises and testified that she referred him to her attorneys.

"Upon these facts we think the plaintiff was not entitled to any commissions. He was employed not to sell part of the premises but to sell the whole, and he did not procure a purchaser ready and willing to enter into a legal contract for the purchase thereof upon the terms offered by the owner. Assuming, as the jury have found, that she did inform him that the lot was 76 ft. in depth, that was at most a mere representation and not a warranty, and it does not authorize a recovery of commissions upon the theory of the cases which hold that where the contract fails on account of the owner's inability to perform, the broker is entitled to recover. The judgment should be reversed."

## Landlord and Tenant.

*To the Editor of* THE RECORD AND GUIDE:

Would you kindly publish what the landlord's liability is in the following case? We are tenants and have a lease until Oct. 1, 1903. The roof of the said building has leaked for the past year. On Dec. 25, 1902, during the storm, said roof started to leak and did so for some days, damaging the contents of said room, and said owner allowed $10 on December rent. January rent was paid in full, with the understanding that said roof had been repaired. February rent was held until last of month on account of room not being tenantable, and dispossess was served and case taken to court when Judge Worcester said to bring it up in March. On Feb. 7th said leak started again and the water ran in said room for five days without ceasing, and so much that it damaged the ceiling of the apartment underneath. Can we hold the landlord for an allowance on the rent in question for one room, and if so what case has been tried? Also, can we claim damages for above in said case, or will we have to bring separate suit for damages?

Answer.—So long as you remain in the premises you must pay your rent and can claim no deduction. The leaking of the roof amounts to an eviction, and will be a defense to an action for the rent if you move, and to move and cease paying rent is part of your remedy. You can also sue for the damages you have sustained by reason of the leaking of the water.—Law Editor.

## A New Use for Brick.

Mr. Martin Dodge, director of the bureau of public road inquiries, of the U. S. Department of Agriculture, advocates the construction of brick track roads with convict labor. He says "the important features of brick track roads are that they can be built for a fraction of the cost of a stone road or street, while four or five times the load can be hauled on them, with the same team force, and they can probably be maintained for one-tenth of the repair expense. At the same time they obviate the formation of the ruts, dust and mud due to the grinding of the wagon wheels on stone roads, and the mud holes and dust of our earth roads.

"The brick track road system not only seems adapted to fully meet the needs of the Western and Southern States, where no good road stone is found, but from present indications it will likely supplant the building of stone roads, even where good stone is abundant.

"If convict labor is properly employed we can probably build these ideal roads throughout the whole country in a few years of time for the present needless expense we are now bearing on account of our deplorable country roads."

## CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

April 3, 4, 6, 7, 8 and 9.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

April 3, 4, 6, 7, 8 and 9.

## JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

Editor Record and Guide:

The mechanic's lien and lis penden filed against premises 343-345 West 36th St. was caused by a dispute with the contractor, Geo. W. Eggers, the building not being completed according to the contract. Payment is refused until such time as the contractor completes his contract, and for no other reason. P. A. GEOGHEGAN.

[1]Editor Record and Guide:

This lien is unwarranted, as I have paid Zimmerman in full and paid men to complete his work after bis failure to do so.

GEORGE BROWN.

**The Private Branch Exchange System** of supplying **TELEPHONE SERVICE** is particularly adapted to the requirements of **LARGE HOTELS** and **APARTMENT HOUSES**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

## Danger in Red Lead.

Supt. of Buildings Stewart says that the use of red lead in making plumbing connections admits gas to dwelling houses in many cases, and that the slightest flame would start the whole building into an instantaneous blaze. "It has been demonstrated," he says, "that disastrous fires which have resulted in great loss of life and in which the whole building has been wrapt in flames from cellar to roof almost instantly, were caused by the presence of gas arising from this source."

Supt. Stewart hopes to amend the plumbing and drainage rules and regulations so that the use of red lead, putty, and similar substances for sanitary connections shall be forbidden, and a system required which shall be impermeable to gases.

## Risks of Employment.

The doctrine that the employee assumes the obvious risks of an employment and thereby relieves the employer from the responsibility imposed upon him by the Labor Law to furnish safe scaffolding is the ground for dismissing the suit of Alexander Harvey, a journeyman painter, against his employer, Samuel McConchie, a master painter. Harvey was injured through the fall of a scaffold and was non-suited when he attempted to recover damages. He appealed from the judgment on the ground that the trial court was in error in charging that the defect which caused the scaffold to fall was perfectly obvious. The Appellate Division, in the First Judicial Department, has decided that no such error had been committed in the charge and affirmed the judgment already given.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

*"Entered at the Post Office at New York, N. Y., as second-class matter."*

Vol. LXXI. APRIL 18, 1903. No. 1831.

THE stock market during the past week suffered from some of the heaviest selling and was assisted by some of the best buying that has been seen this year. The net result is favorable, and the tone apparently more cheerful than it has been for some time past. It is not, indeed, either to be desired or to be expected that the prices of the leading stocks will return to anything like the level, which prevailed last fall. Those high prices, not only encouraged the issue of more securities than could be wholesomely "digested," but were a tremendous strain upon the banking resources of the country. It is apparent that financiers will have to be extremely conservative for some time to come about the issue of such securities, no matter how sound they may be. But on the other hand the prices of the best stocks and bonds are considering the business prosperity and prospects of the country rather too low than too high, and unless some unforseen calamity occurs, they are likely next fall to be selling at higher prices. It will not take very many months of financial conservatism to bring about a better adjustment than that which now prevails between the amount of securities offered for investment and the power of investors to take them up. In the meantime the large business financial interests will await with uncertainty and even dread the next session of Congress, for at that session it will be decided whether Congress will persist in its policy of declaring all combinations, whether good or bad, to be unlawful. There can be no doubt that the anti-Trust law, as recently interpreted, and if strictly enforced, could utterly disorganize many of the most vital and useful business arrangements of the country; and that unless there can be found some means of legally discriminating between beneficent and evil combinations in inter-state commerce, a far-reaching reorganization will have to take place in American industrial methods. This danger from future legislation is still a long way off; but it will doubtless prove to be a powerful conservative agency throughout the whole of the present year.

THE amendments to the Tenement House law introduced by Senator Marshall, sanctioned by the Department, and passed by the Legislature have been signed by the Governor. In sanctioning these amendments, the Department has gone as far as it can in meeting the grievances of the builders of the outlying boroughs. It recognized the fact that the law as it has stood during the past year, has proved to be an obstacle to the building in any large quantities of three and four-story tenements in Brooklyn and the Bronx; and consequently, since it is the policy of the Department to adapt the law, so far as possible, to the needs of the speculative builders, it proposed certain amendments looking towards a cheapening of these classes of buildings. The more important concessions concern the three and four-story tenements, containing two families on a floor, the apartments running through from front to rear. The 8x14 court which last winter was legalized for the three-story tenements, is now authorized for the four-story tenements also. The court required for a single three-story tenement is not reduced, but, where two three-story tenements adjoin, the 8x14 court is deemed sufficient to ventilate them both, provided the houses do not occupy more than 65 per cent. of the lot. Furthermore three-story three-family frame buildings are permitted outside the fire limits. All these concessions may be approved, in that they enable builders to erect these classes of houses with more profit to themselves and yet without any threat to wholesome conditions of residence within the houses. But the Department goes further and makes even more liberal concessions with respect to fireproofing provisions. Bulkheads in new tenement houses less than five stories in height may be constructed of wood, if covered with metal on both sides. New four-story houses, which do not contain more than two families on a floor, may have wooden stairs, provided the backs or soffits of the stairs are covered with metal, and the floors of the stair halls are filled with deafening to a depth of five inches, and that such stair halls are inclosed with fireproof partitions, constructed on four-inch terra cotta blocks with angle iron construction. On the other hand the three-story tenements, which were allowed wooden stairs, floors and partitions by the amendments last year, must under the proposed modifications be made semi-fireproof. Inside cellar stairs will be permitted in three and four-story buildings, provided they are enclosed with brick walls, and furnished with fireproof doors. All these changes with the exceptions of those concerning bulkheads lower the existing standards with respect to four-story buildings, but raise them with respect to three-story buildings. Taken altogether they will enable the builder to save a good deal of money in the erection of the four-story tenement.

THERE can be no doubt about the timeliness of these concessions. Brooklyn and the Bronx, but particularly the latter, will soon enter upon a period of even more rapid expansion in population than heretofore—an expansion which will be encouraged by the opening up of large areas of territory now inaccessible. For these enormous quantities of cheap land, cheap buildings will be necessary; and the amendments will again make the erection of the cheaper tenements a profitable enterprise. Unless we are very much mistaken they will reconcile the Brooklyn builders to the law very much as the Manhattan builders and operators have already been reconciled. It will mean that, with one exception, the speculative building of tenements, upon the freedom of which the living accommodations of the population of New York City depends, will have been placed upon a normal and profitable basis. The one exception is the case of seven-story apartment houses in Manhattan—a very necessary type of building for erection on property which is too dear for the ordinary six-story building, and too cheap for a fireproof structure. Fortunately, however, there is a good chance that before the Legislature adjourns these seven-story buildings, improved somewhat as respects their fireproofing, will again be permitted—a step which will be followed by a large increase in the amount of new apartment-house construction planned for Harlem and the West Side.

WHEN the present Subway was laid out a big mistake was undoubtedly made in situating the West Side express stations at 72d street, and the property-owners, who appeared last Thursday before the Rapid Transit Commission to plead for an express station at the Circle had strong grounds on which to urge their claims. Seventy-second street is an important centre of population and has become more so ever since it was granted the great privilege of an express station; but it is not a centre of business or of traffic and is likely to become one. The Circle, on the other hand, is destined to become an extremely important centre both of business and of traffic; and an express station at that point would be of enormous and increasing utility to many thousands of people. It is becoming, for instance, a favorite place for theatres and restaurants; the Blackwell's Island Bridge will bring swarms of passengers to 59th street to whom express trains would be the greatest convenience, and we have no doubt that ten years from now the want of them will be considered, perhaps, the worst error made in the planning of the present tunnel. The error cannot be remedied, in case the change would delay for long the opening of the Subway; but the fact that it has been made should be taken into account in providing express stations for the East Side extension.

ON Tuesday last the Committee on Finance of the Board of Aldermen reported favorably upon a resolution appropriating $10,000 for the expenses of a commission, to be appointed by the Mayor, which is to prepare a plan for the beautifying of the city of New York. The report was laid over and made a special order for the next meeting, on which occasion it will probably be passed. There is every reason why it should be. The expense of the commission is small; its appointment commits the city to nothing. It simply means that the responsible city officials say to the advocates of municipal aesthetic improvement. "There is the commission for which you have been asking; and now it is "up" to you to formulate a report, which will command public support, and which can be accepted by us as the representative of the city's taxpayers." This will not be an easy task; but it is not an impossible one, provided it is approached from a sensible and practicable point of view. In preparing such a report it should always be kept in mind that New York, unlike Washington or Paris, is not a city, in which the interests of commerce and property are subordinate to those of a national government with unlimited resources. On the con-

trary, the city of New York consists of an enormous collection of private interests, which are already heavily taxed to support public burdens, and which would reject unhesitatingly any scheme of aesthetic improvement, that was costly without being remunerative. The commissiou that is, must manage somehow to make their comprehensive plan appeal to the business sense of the owners of real estate. They must demonstrate that a proper revision of the street system of Manhattau would be an economical improvement, which would be of the greatest assistance to the busiuess of the city, aud would help enormously in the distribution of its growing traffic; and they should prepare as a necessary part of such a scheme some practicable plan of financing its cost. It is only such a report as this, which would have any chance of being adopted. To recommend a group of improvemeuts, regardless of expense and business value would put back the whole movement in favor of municipal aesthetic improvement in this city ten years.

## Real Estate Situation.

The sales reported during the first three days of the past week were smaller in number aud iu importance thau for any three days of the present week. On Thursday the business announced increased both in amount and in iuterest, and so it was on Friday. The temporary slump early in the week was probably the reflex of the uncertainty that temporarily overtook busiuess enterprises in consequence of the decision in the Northern securities case, although there is no reason in the world why this decisiou should have any effect on real estate. It will take more than such a cause as that to let down the momentum of the present market. We do not believe that the amount of the activity now prevailing is sufficiently realized, or its significance sufficiently appreciated. The figures for the present year are being compared with those of the most active preceding year in the history of New York real estate, and yet they are showing large and persistent increases over the corresponding period in 1902. The large increases began to appear about March 1st, and since that date, the number of conveyances recorded augmented from 1,759 to 2,096—an increase of 317 or 18 per cent. Moreover the business has been of an extremely normal aud wholesome character; the speculative element in it has been less couspicuous; and there scems to be no reason to suppose that it is not that natural and desirable result of the improved income and investment position of real estate. It should be remembered also that during the period mentioned above there have been mauy discouragiug influences at work—such as dear money, threatened mortgage taxation, and the like, which uudoubtedly diminished the volume of the trausactions, and that there awaits the market in the near future the beneficial effect of the actual opening of the subway for traffic. The transactions of the past week do not indicate the existence of any new tendencies. A couple of purchases have been made on Central Park West for improvement with elevator apartment houses, and a prominent firm of speculative builders of residences has succeeded so well in clearing up its outstandiug operations that it has bought more of the Orphan Asylum property for the purpose of building new residences. Large blocks of Washington Heights property continue to change hands, but the building loan men are appareutly not ready as yet to begin operations in that quarter. Iu spite of the very considerable activity, the market is, in respect to new building construction, in a waiting condition, but it will not wait much longer.

**Good Business and Bad.**

In another column will be found a description and explanation of some important changes which have recently been taking place on lower West street and its vicinity. It is evident that the whole district between Dey street, Broadway, the Battery and the river will be profouudly revolutionized in the course of the next five years. The terminus of the Hudson and Manhattan tunnel will both concentrate traffic in that vicinity, increase building, and cause an enormous and beneficial demand for additional office space. Then, too, the fact that the Pennsylvania and Jersey Central Railroad companies have agreed to conform to the plans of the Dock Department and to permit West street to be widened in their neighborhood will also have an excellent effect on property thereabouts, and will help to make other owners agree to the city's plans. But besides these local influences, there are also effective general causes at work, which will stimulate the improvement of real estate in this vicinity. The enormous recent increase in the value of land in the financial district, and the large number of "sky-scrapers" which have been erected, have forced builders to seek available sites for such buildings on the margin rather than at the centre of the office building section. Lower Wall street and Battery Place are being rapidly improved, and to the east of Broadway, the whole line of William street has been aud still is the scene of important operations. But the property to the west of Broadway and south of Dey street has hitherto been pretty well neglected, although there are no reasons why it should be. West street in particular should provide excellent sites for sky-scrapers. Of late years the various frontages facing the Battery have been improved or bought up for that purpose, because the open square and park offers such superb light and air. But in this respect West street has precisely the same advantage, and in time that advantage will be realized. Tall buildings will be erected running through from West to Washington streets, and will doubtless be filled as rapidly and with as good a class of tenants as has been the new building of the Century Realty Co. on the Battery frontage between those streets.

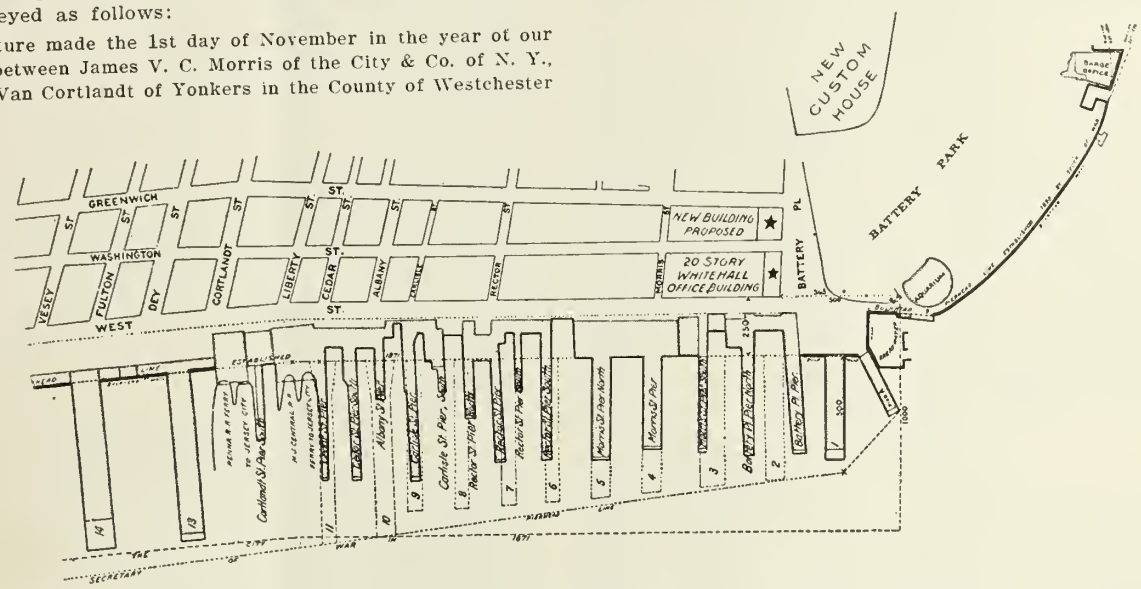
**Lower West Street.**

## Lower West Street's Prospects.

A DECIDED MOVEMENT IN REAL ESTATE ACCOMPANIED BY WATER-FRONT IMPROVEMENTS—MORE SKYSCRAPERS.

Lower West st, together with Battery place, is claiming a large measure of public attention. The decided activity of real estate there gives the impression that an historic and naturally favored quarter is coming into its own at last. That the prosaic interests of business find it advantageous to unite with the new æsthetic impulses of the community in beautifying the most prominent part of the metropolis—that which gives the first impression of America to the European visitor—is a matter that the city is to be congratulated upon. The subject presents itself in two aspects. The first comprehends the rebuilding of the water front on a nobler plan by the Dept. of Docks and the widening of the street by pushing back the pier line. In the annexed diagram, showing the nature of the plan for this section, it will be perceived that the improvements have been worked out as far south as Cortlandt st, where until now they have stopped short owing to the hindrances of private ownership. Above, the city owns the water front; below Cortlandt st the bulkhead rights are mainly owned by private interests, in some instances by families that have handed them down for generations.

Though the changes that will give lower West st the same advantages that it has above Cortlandt must wait upon private convenience, yet there are grounds for saying they are not for the most part likely to be much longer delayed. The Jersey Central Railroad Co. has asked and received permission from the Dock Department to improve its property, extending from Liberty st to Cedar, and the Pennsylvania Railroad is also to commence improving south of the Jersey Central in a short time, according to the understanding at the Dock Department. The plans of the Jersey Central include adding two stories to the fine building at the corner of Liberty and West sts, from plans by Peabody & Stearns, of Boston; and Charles T. Wills, of 156 5th av, has the general contract. Other improvements of this company consist in widening the street from the north side of Liberty to the south side of Pier 12, which is between Albany and Carlisle sts, by rebuilding the freight houses and waiting rooms. The intention of the city authorities is to take out three piers, Nos. 12, 13 and 14, and replace them with two of far larger dimensions, which will be known as Piers (New) 10 and 11. The first of these will be 749 feet in length by 80 feet in width, and the other, which is to be on the south side of the ferry, will be 788 feet in length and 50 wide. This improvement results from an agreement by which the railroad company gives the city wharf property valued at about $400,000 and leases the two new piers, the city bearing the cost of construction. The city thus gets title to the south half of Pier 12, the north half of Pier 14 and the bulkhead between. The Pennsylvania Railroad will build a new bulkhead farther out, and rebuild their sheds, the same as at Desbrosses st. The D., L. & W. R. R. has recently made efforts to find a slip in this section.



### REAL ESTATE ASPECT.

With two large holders already co-operating with the city to improve the foreground of a section naturally ideal from many business lines, the real estate of the vicinity has another reason for looking up. The first fruit of the new faith was the Whitehall Building, if the immense new constructions along the east face of Battery Park be not reckoned. Three of these, which have all appeared within three years (the Maritime, Battery Park and Chesebrough buildings) are owned by the same interests which reared the towering Whitehall. In the past the backwardness of realty here was ascribed to the nature of the ownership, which was content to have conditions continue as they were, being assured of the continuance of the same rate of income, but having no belief that an office building or any better sort of structure than that hitherto common to the quarter would pay. These interests are now being prevailed upon to part with desirable sites. Mr. Bensel, of the Dock Department, has bought the

southeast corner of Carlisle and West sts, which is occupied by a 4-sty building. The block fronting the Park between Washington and Greenwich sts, still covered by buildings that played a part in the early history of the city, has been bought for a structure that will be a fitting companion to the Whitehall.

L. Tanenbaum, Strauss & Co. and E. A. Cruikshank & Co. have sold to the Empire City Realty Co. No. 18 West st, a site that belonged to the Captain Stevens estate. In 1894 it was bought by George Waite Tubbs for Jefferson M. Levy for $35,000. Previous to that sale the property had not changed hands since 1828, when it was conveyed as follows:

This Indenture made the 1st day of November in the year of our Lord, 1828, between James V. C. Morris of the City & Co. of N. Y., Augustus F. Van Cortlandt of Yonkers in the County of Westchester

PLAN OF WATER-FRONT IMPROVEMENTS FOR LOWER WEST STREET.

and Harriet, his wife; Mary W. Morris of the town & Co. of Westchester, Richard R. Morris of Pelham, in the Co. of Westchester, and Helen his wife; Richard L. Morris of the City and Co. of N. Y.; Robt. R. Morris of the town & Co. of Westchester, & Gerard W. Morris, guardian of Sarah L. Morris; Wm. H. Morris & Charlotte Morris infants of the 1st part and Catherine, wife of Alex. H. Stevens of the City & Co. of N. Y. the party of the 2nd part, Whereas.

The building on the site is a 5-sty hotel, known as the "Nonpareil." A copy of the old deed, now before us, describes the lot as being 126 feet 4 inches southwardly from "Beaver Lane," now Morris st, and as being the same premises that were conveyed to Catherine Stevens, mother of Alex. C. Bowden by a partition deed.

L. Tanenbaum, Strauss & Co. have also sold No. 20 West st for Lidie D. Robins to the Empire City Realty Co. This piece extends through to 32 Washington st and carries a 5-sty warehouse. The Century Realty Co., which is interested in the Whitehall Building, has bought the adjoining property Nos. 4 and 5 West st, 52 by 180 feet, for $160,000. The lot now holds a 5-sty structure, but there is an interesting rumor concerning a very large improvement.

Gen. Howard Carroll's recent purchase of Nos. 52 and 53 West st, 40.6 by 180, which also extends through to Washington st, and carries bulkhead rights with it, including Piers 6 and 7, means another great improvement to the street, as may be judged from Gen. Carroll's business associations. The price paid was $2,000,000. Previous sales in the vicinity have been these:

No. 9 Washington st, east side, near Battery Place, 41.4x48x41.9 x48.2, five-sty old building, about 1,995 sq. ft., $47,000, Nov. 20, 1902.

No. 3 West st and No. 4 Washington (Feb. 1, 1902), to Battery Place Realty Co.; old five-sty buildings; $78,775; 4,371 sq. ft., $18.25 per sq. ft.

No. 14 West st, adjoining in rear of above, four-sty brick factory, April 8, 1891, 25x90.3; $35,000; 2,256 sq. ft., $15.51 per sq. ft.

No. 70 Washington st, 25x96.9, a six-sty brick factory, 25x89.6, Feb., 1903; $30,000, $12.24 per sq. ft.

No. 49 West st and 80 Washington st, 25x179.2; $80,000; Mar. 22, 1897; 4,493 sq. ft., or $17.80 per sq. ft.

The estate of the late Ward McAllister, which owns Nos. 8-11 West st, 93 by 180 feet, extending through to 12-16 Washington st, long held this piece of property at $225,000; but within a few weeks they refused over $300,000, and now hold it at $350,000. The average value of land along West st is estimated at $18 to $20 a square foot, which is a considerable enhancement over a few years ago. The latest projected tunnel under the Hudson, to terminate at Church st, between Liberty and Dey sts; the tunnel to Brooklyn, together with the certain improvement of the ferry facilities to Staten Island and South Brooklyn, all have by anticipation a favorable influence upon property near the Battery. Morris st, which is merely an alley now, must some day be widened and perhaps no better opportunity will be found than the present moment.

In the opinion of Mr. W. H. Chesebrough, of the Century Realty Co., land in the Battery Park section is worth at the present time from $60 to $70 a square foot. Other investors predict values for lower West Side property to correspond with those on the East Side, saying that here as well as in the other sections of Manhattan the direction of growth must be across the town. This week a new realty company, which it is said will operate particularly in the lower West st quarter, was incorporated at Albany. The owners of the Whitehall Building have so far rented about 70% of the available space, rents ranging from $1.60 to $2 per square foot. Among the tenants will be the U. S. Steamship Inspectors, N. Y. Harbor Towboat Co., Rossitler, McGovern Co., Kunhardt & Co., steamship agents; Baldwin Engine Co., N. Y. & Long Branch Steamboat Co., a score of companies or firms in the coal business, Newark Lime and Cement Co., Merritt & Chapman Derrick and Wrecking Co., Commercial Lighterage Co., Tomkins Cove Stone Co., Tice Towing Co., Orinoco Steamship Co., United Fruit Co., Lukens Iron and Steel Co., New York Cement Co., B. A. Haff & Co., lighterage; Manhattan Lighterage and Transportation Co., International Contracting Co., Southwestern Lead and Zinc Corporation, besides many manufacturing companies.

## Gossip of the Week.

### Mr. Shayne Takes a Profit.

41ST ST.—C. C. Shayne has sold to Woodbury G. Langdon 127 West 41st st, a 3-sty dwelling,on lot 20x98.9, which he bought in April, 1902, for $50,500, and which he is now said to have resold for a price close to $75,000. Mr. Langdon owns 124 West 42d st, which he bought from Mr. Shayne in 1896 for $135,000, Mr. Shayne having acquired it in 1890 for $65,000; he has just purchased 126 West 42d st, a lot 25x98.9, from Millia and Amos M. Lyon. Charles H. Easton & Co. were the brokers in the sale of No. 127 West 41st st, and M. E. Hewitt & Co. in that of 126 West 42d st, which we hear sold for $150,000.

SOUTH OF 59TH STREET.

2D AV.Geiger & Braverman have sold to a client of S. Steingut Co. 107 2d av, a 6-sty tenement on lot 25x100.

54TH ST.—Mrs. C. B. H. Lowrey has sold 125 East 54th st, a 4-sty dwelling, on lot 16.10x100.8. There have been a large number of sales on this street lately, only this week W. Emelen Roosevelt purchased the north and southeast corners of Park av; John Miller was the broker in the sale of No. 125.

LEXINGTON AV.—Herbert A. Sherman has sold for William H. Reid to Mrs. S. Gruner the northwest corner of Lexington av and 55th st, a 4-sty and basement brownstone front dwelling, on lot 20.5x73. The buyer will alter the house into an American basement.

PRINCE ST.—Holdridge, Dennis & Preston have sold the southwest corner of Prince and Thompson sts, a plot 75x76, for the New York Protestant Episcopal City Mission Society, to Mandelbaum & Lewine, and Walter J. Cohn, who have resold to Charles & Henry Friedman.

DEY ST.—S. A. Fatman has bought from the Baroness Klenck, of Germany, 54 and 56 Dey st, a 5-sty building, on plot 50.3x77.6. S. B. Rogers was the broker.

13TH ST.—Thomas L. Mulry, as executor, has sold to Lowenfield & Prager, 220 and 222 West 13th st, old buildings, on plot 41x89.6x irregular.

RIVINGTON ST.—Lowenfield & Prager have purchased from Abraham Kassel, 19 and 21 Rivington st, southeast corner of Chrystie st, a 5-sty tenement, on lot 50x81.

MADISON AV.—William Rozenzweig and Bernard Klingenstein are reported to have resold 313 Madison av, a 4-sty brownstone dwelling, on lot 17.6x95, 25.9 south of the southeast corner of 42d st. They bought the house at auction last October for $101,000.

7TH AV.—The Stuyvesant Realty Co. has bought 422 7th av, 19.2x50, adjoining the northwest corner of 33d st. The little parcel is a key to the block front, in which the Pennsylvania interests have not hitherto made any purchases, their buying in this block having been confined to plots on 33d and 34th sts, west of 7th av.

Geo. E. Lovett & Co. have sold during the past week the following properties: Prospect Park West, corner Garfield place, plot 100x125, for Olin G. Walbridge to Peter W. Rouss for $80,000. Mr. Rouss is under agreement to build on this plot a one-family residence to cost not less than $100,000, the plans of which are now under advisement for a building 75 feet frontage by 80 feet in depth. The entire Prospect Park West block front between Garfield place and 1st st was bought some years ago by O. & G. Walbridge and H. C. Hulbert, for the purpose of preventing the erection of any inferior class of property and to insure a fine residence character to the neighborhood. The price at which this property was sold does not begin to repay the cost to Mr. Walbridge; 306 Washington av, between De Kalb and Lafayette, 4-sty and basement brownstone residence, 20.6x50x100, for Ella B. Richmond, executrix, to Margaret A. Doherty; 105 Prospect av, running through to 16th st, plot 22x120, on which are frame dwellings and stables, Mary D. Nordon to Francis E. Driscoll; 18 Underhill av, between Atlantic and Pacific sts, 3-sty and cellar brick apartment house, 19.10x80, Margaret Quinn to Ella C. Ludlam; 701 and 703 5th av, between 21st and 22d sts, 3-sty stores and apartment buildings, on plot 41.9x100, for Elizabeth A. Selle et al; and north side Prospect place, 132 feet east Classon av, a plot of lots 63x131, for Caroline B. Heid to O. F. Forssberg.

FULTON ST.—Desmond Dunne has purchased 586 Fulton st, on the southeast corner of Rockwell pl, an old building, 62.4x70.7, upon which he will erect an 8-sty building. The McNulty & Fitzgerald Co. were the brokers; they have also sold the Christian farm of twenty-two acres, in Gravesend. This farm is on 8th, 9th and 10th sts and Avs S and T. It was bought by a syndicate of three men for $1,750 an acre; the George Lott farm, comprising 37½ acres, at about $5,000 an acre. It was bought by a syndicate of six men. This property is located on the north side of Kings Highway, near Flatbush av, and close to the holdings of the Westminster Helghts corporation. The tract will be fully restricted and a fine class of houses will be built thereon; the Magaw farm of five acres, at $5,000 an acre, to David J. Stewart. The property is on Av J, East 26th, 27th and 28th sts. It is bounded by the properties of Wood, Harmon & Co. on the west, Atlantic Building and Loan Association on the north, Westminster Park on the east and the Germania Improvement Co. on the south. It is the last of the acreage between Flatbush and Ocean avs. The last sale was the Lott farm of five acres on Canarsie Lane, Flatlands, to M. L. McLaughlin Company, at about $2,500 an acre.

## Real Estate Notes.

F. C. Zobel is the buyer of 24 and 26 East 21st st, reported in our issue of March 7.

I. M. Berinstein is not the buyer of the Hennessy lots on 118th st sold by W. P. Mangam last week.

Dovale & Thiery were the brokers in the sale of 446 Central Park West, a 7-sty apartment house known as the Greenwich, at 446 Central Park West.

William Waldorf Astor took title this week to 148 West 117th st, a 5-sty flat, on lot 25x100.11. The property adjoins the Graham Court apartment house owned by Mr. Astor.

The card on another page of J. & J. W. Williams, long established and reliable carpet cleaners, will interest owners and others. Their address is 353 West 54th st, and telephone call 366 Columbus.

The Allison Realty Co. has been organized to erect a 12-sty apartment hotel on the old St. Stephens Church property at 57 and 59 West 46th st. The Lawyers' Title Insurance Co. makes a building loan of $250,000.

Hiram Rinaldo & Bro., real estate experts and appraisers of No. 233 Grand st, have issued Blue Prints showing the properties to be taken for the widening of Delancey and Suffolk sts for the Williamsburgh Bridge. They will send copies free to interested persons.

A. V. Amy & Co., active real estate brokers in the Harlem section, have large and pleasant offices at the corner of St. Nicholas av and 115th st. They make a specialty in the care and management of large apartments, at which they have been successful.

The well-known firm of Chas. R. Faruolo & Co., Italian real estate agents of 45 East Houston st, have, to better accommodate their numerous clients and be in closer touch with the many Harlem properties in their charge, opened an office at 2432 1st av, s e cor 125th st.

The hearing in regard to the widening of 59th st on Friday afternoon before the Board of Estimate and Apportionment developed many and various opinions. Bloomingdale Bros. are fighting against widening on the north side, but would rather have that than nothing.

Moore Brothers, real estate brokers of No. 289 10th st, have secured the management of several large apartment houses on upper Broadway, and have opened a branch office at No. 1904 Broadway, near 63d st. This firm is one of the oldest in the city, having been established over fifty years.

As previously noted, there is much interest in realty dealings in the Battery district west of Broadway. There have been quite a number of sales completed and many others are being negotiated. The premises No. 29 West st, and 52 Washington st, advertised for lease on another page, are very well located in the district mentioned.

M. E. Hewitt & Co., of 1564 Broadway, who are active and successful realty workers in the Long Acre section, were the brokers in the sale of 126 West 42d st, at $150,000, to C. C. Shayne, who occupies the premises under lease. The adjoining property, No. 124, was sold to Mr. Shayne in 1890 for $65,000 and resold by him in 1896 for $135,000.

The one interesting event in the auction market this week was the sale in partition by D. Phoenix Ingraham of a lot 20.2x45, on Madison av, 82 feet north of 77th st, for $33,025. The buyer was the plaintiff in the action. As he already owned nine-elevenths of the parcel for which he paid $11,812, the sale can hardly be considered as establishing any value for the neighborhood; considering that he will only have to pay about $6,000 for the interest he does not own, the lot will cost him altogether $17,812, which is very much nearer its value than the price paid in the auction room.

## Ornamental Projections.

The Aldermanic committee on buildings, which gave a hearing, April 7, on the ordinance amending Section 179 of the Revised Ordinances, by adding a section providing for the issuing of permits for ornamental projections on certain buildings beyond the building line, reported this week in favor of amending the ordinance by inserting after the word "porticos" and before the word "columns" in the second paragraph of Section 1 the words "Pedestals, free-standing statuary." The committee also recommended that the ordinance as so amended be adopted. The report was adopted by the Board of Aldermen by a vote of 53

to 1. The bill was printed in full in these columns. The paragraph now amended reads: "For the purposes of this ordinance, 'an ornamental projection' shall be taken to mean and include all decorative projections on the face of a building beyond the building line, in the nature of porches, arches, porticos, pedestals, free-standing statuary, columns and pillars, which are erected purely for the enhancement of the beauty of the building from an artistic standpoint."

## Material Market.

### WOOD TRIM.

Unlike other building material, contracts for trim are being closed at abnormally low prices. Notwithstanding the fact that lumber has advanced at least 25%, products are being sold at about last year's prices. Mr. D. W. O'Neil, president of the Empire City Wood Working Co., Broadway, corner of 131st st, remarked this week:

"We have nothing of special character relative to our own affairs to speak of, other than to say that business is highly satisfactory to us, and prospects are good for a large volume of trade coming our way during this season. But one matter of general interest to builders may be worthy of note by you. Within the past month a number of trim manufacturers of New York have organized an association of mill men to be known as the 'Manufacturing Wood Workers' Association of New York.' This body will comprise only manufacturers conducting their business in harmony with organized labor as represented in the Amalgamated Wood Workers' International Union of America, with a membership of over twenty-six thousand, the same being a branch of the Federation of Labor, of which Samuel Gompers is President.

"The question of control in shops has been a troublesome one to the Federation, and at their annual meeting, held last February in New Orleans, in order to settle this question definitely, an arbitration committee was elected consisting of five members of the Brotherhood of Carpenters and five members of the Amalgamated Wood Workers' International Union, they combined to elect an Umpire. This committee met at Indianapolis in the early part of March of this year, and have just rendered their verdict in which the whole question is gone over in a very exhaustive manner, and in which the jurisdiction of all shops is awarded to the Amalgamated Wood Workers' International Union. This would appear to settle the matter that the mill men of New York have been contending for, namely, that the manufacturing of house trim and the work of carpenters upon the building are two distinct and separate trades and cannot be treated as the same, fairly to both, no more than the manufacturing of brick can be controlled by the bricklayer upon the building.

"We sincerely hope that this decision will be accepted by the building trades as final, and that, from this time on, the manufacturers of this city will be permitted to conduct their business in a peaceful manner in harmony with their own union. The manufacturers who have organized this movement are as follows: Empire City Wood Working Co, the Brunswick, Balke & Collender Co., G. H. Gerard, Son & Co., Murray & Hill, and Alexander Brown.

"At the present time a large number of other manufacturers are interesting themselves in this movement and contemplate allying themselves with it. We invite co-operation from all mill men to strengthen our hands in our endeavor to place the trim question upon a satisfactory basis to all concerned."

### LUMBER.

With almost every lumber yard and planing mill between Hartford, Conn., and the Bronx River closed to business, the strike of the Brotherhood carpenters in this city, and the persistently unfavorable weather, this department of business is far from being in a pleasant mood. Never before was there such a complete tie-up of the building business as that which is now to be seen in Westchester County and in the adjacent counties of Connecticut. Dealers in hardware, painters' supplies and masons' materials are all united with the lumber men in helping the builders to resist the demands of the allied unions. Counting on both sides of the controversy, fifteen or twenty thousand men have been thrown out of employment. While these occurrences are not dominating the general wholesale lumber trade that centres here, they cloud the metropolitan situation from the dealers' side not a little, but local builders are not objecting to such concessions as the circumstances aid them in obtaining.

Shingles have had a marked decline, owing to heavy over-supply. Having already thousands of cars loaded with the product in the East, which they are unable to get back, the railroads are refusing to accept shipments from the far West. On the Pacific slope a hundred shingle mills have shut down, and the only alternative for the others is to pile up surplus stock. Immense shipments in anticipation of sales that have not been made is the explanation. Prices are tumbling in spite of organized effort to check or ease the descent.

Since spring opened lumber values have not officially advanced in a general way. While prospects for a large business after the first of May are excellent, the immediate demand for common material is not the best. Inquiries for hemlock have fallen off, a natural effect of labor troubles and the unpropitious weather.

### IRON AND MACHINERY.

A weaker feeling is to be noted in foundry iron markets; only a little business is being done for the second half of the year, most sales being for early delivery or spot. Prices have declined to a level where it is unprofitable to import except for distribution in large lots, but the lessened imports compensate measurably for increased production.

Machinery, after a brief period of hesitancy, is entering upon a high level of activity, at which every one must rejoice, and fortunately the trade itself has been but little disturbed by labor unions, though the strike of housesmiths and hoisting engineers have in some cases delayed installations. The sales of the Westinghouse Electric and Manufacturing Co., and its American auxiliary companies for the year ending March 31 aggregated $24,000,000. The company is having great success with turbine engines. Steam engine works hereabouts have nearly all the work they can attend to, and the electrical field is busy in all its parts.

## Building Operations.

LEADING ENTERPRISES OF THE WEEK IN NEW YORK CITY AND STATE, NEW JERSEY AND CONNECTICUT—HINTS FOR BUILDERS, CONTRACTORS AND DEALERS IN MATERIALS.

### Another Theatre for Broadway.

BROADWAY.—Mr. Felix Isman, of Philadelphia, has purchased the Parker House property, at 39th st and Broadway, and intends to erect a theatre on the site. It will occupy the lot, 75x100 feet, in 39th st, on which the Parker House now stands, while a strip 25 feet wide in Broadway, extending back to the hotel property, will give an entrance into Broadway. Steele & Stone, of Philadelphia, who built Keith's new Philadelphia theatre, are now preparing plans for Mr. Isman, and the new playhouse will be completed and opened for public entertainment early in October next. The structure will be plain, substantial, commodious and fireproof, without any attempt at architectural display.

### New Home for a Tammany Club.

2D AV.—Henry Regelman, 133 7th st, is drawing the plans for an extensive alteration to 219 2d av, a 4-sty building, on lot 25x112.6. The building is owned and will be occupied by the Tammany Club of the 14th Assembly District.

Rizzolo, owner; estimated cost, $7,500.

### In Other Cities.

SYRACUSE, N. Y.—M. D. Makepeace of Syracuse is preparing plans for the new East Genesee Street Presbyterian Church, which will be octagonal in shape.

MARION, N. Y.—James A. Salter, 16 State st, Rochester, N. Y., has drawn plans for brick church, 80x80, cost, $8,000, for the First Baptist Church.

JOHNSTOWN, N. Y.—Matthew T. Shaffer, Johnstown, N. Y., is drawing plans for a 50x50 brick church, to be erected on North Perry st for the Reform Church of Johnstown.

CHICAGO, ILL.—D. H. Burnham, of Chicago and New York, is drawing the plans for a clubhouse to be erected by the Union League Club of Chicago, on a plot at Jackson Boulevard and Custom House place. The building is estimated to cost about $1,000,000.

STOCKBRIDGE, MASS.—H. E. Weeks, of Pittsfield, Mass., is drawing plans for a 4-sty hotel to be heated by steam to be erected on Prospect Hill, Stockbridge, Mass., for Allen T. Treadway.

ALBANY, N. Y.—Marcus T. Reynolds, architect, Albany, N. Y., has completed plans for the new 5-sty brick hospital building, 100x42, for the Albany City Homeopathic Hospital, to be built on North Pearl st, north of Clinton av, at an estimated cost of $100,000. The building will stand free on all sides, be fireproof, and thoroughly equipped with all modern medical appliances. It will be of Colonial design.

William L. Woollett, architect, of Albany, has completed plans for alterations to St. Peter's Hospital, Albany, to cost $10,000, and for an addition, 65x45, to cost $50,000. The latter will be fireproof and contain all appliances that go to equip a modern hospital. No expense will be spared to furnish the best plumbing, heating and ventilating apparatus. The contract for the carpentry has been let to Patrick McCann, and the masonry to Collins Bros.

SYRACUSE, N. Y.—Architects Gaggin & Gaggin, together with Irving S. Merrell, M. E., of Syracuse, N. Y., have completed plans and specifications for a new $100,000 factory which the Merrell-Soule Co. will build this summer on the Solar tract, near the West Shore station, Syracuse. The factory will have five stories and 55x140 in dimensions. The stair and lavatory tower is 30 ft. square. The warehouse is three stories high and 75x165 in size. This building will be connected with the factory proper by a cleaning building, 40x50. One of the features of the building will be a thoroughly equipped lunch room for the employees. The contracts have been awarded to John T. O'Connor, mason, and Thomas Coon, carpenter. The company manufactures canned goods, jelly powders and mince meat. The entire plant will be newly furnished with modern machinery.

JOHNSTOWN, N. Y.—Architect Shaffer, of Johnstown, has drawn plans for a new church edifice for the congregation of the Reformed Church, which will be erected adjoining their present building. The cost will be something over $5,000.

NORTH BRIDGEPORT, CT.—Rockwell M. Milligan, of St. Louis, Mo., is preparing plans for a 3-sty buff colored brick hospital which the Catholic Sisters of Charity of Emmetsburg, Md., will build at North Bridgeport, Ct. Only first-class materials will be used in its construction. The edifice will be fitted with electric elevators and will be equipped with all modern hospital improvements.

POUGHKEEPSIE, N. Y.—Percival M. Lloyd, of Poughkeepsie, has completed plans for a 3-sty brick building for the Poughkeepsie "Eagle," and has awarded the contracts to John O'Donnell for masonry, and Willett Titus for carpentry. The old building occupying the site, No. 8 Liberty st, will be removed and work upon the new one started at once.

AUBURN, N. Y.—Merrick & Randall, architects, Syracuse, are preparing plans for a 1-sty brick car barn, 175x200, to be built in Auburn for the Auburn & Syracuse electric railroad. The roof will be of gravel construction. There will be the usual equipment of pits, and part of the building will be used for a repair shop. The capacity will be 50 cars. The company is now taking bids for the different parts of the work.

HERKIMER, N. Y.—C. E. Cronk, of Herkimer, has completed plans for a factory for Becker & Co. The firm manufactures packing cases and deal in lumber.

CHARLOTTE, N. Y.—H. L. Larzelere, architect, Rochester, N. Y., has completed plans for a new church edifice, 50x80, to be built for the Charlotte Presbyterian Society. It will be in the Romanesque style, with pressed brick and Medina sandstone trimmings, and will have a high battlemented tower over the main entrance. A. P. Fallesen is chairman of the building committee. P. C. Hauch has the contract for masonry and F. H. Ratt for carpentry work.

BELLEVILLE, N. J.—Edward L. Reeves, architect, Newark, N. J., has completed plans for a 2-sty brick mill, 55x100, of modern construction for the De Witt Wire Cloth Co., No. 17 Warren st, N. Y. City, to be erected at Belleville, N. J. The new mill will contain 50 new power looms of the best and most modern construction. Dey & Sutphen, No. 12 Herbert place, Newark, have the general contract for erecting the new mill.

SYRACUSE, N. Y.—The plans of Taber & Draper, architects, Syracuse, have been accepted for the new Homeopathic hospital to be erected on the west side of South Salina st, between West Castle and Furman sts, Syracuse, N. Y. They call for a 4-sty brick building, 36x110, to cost $30,000. The expanded metal system will be used in the construction of the building. The partitions and material under the floors will be of metal fireproof construction. There will be no wooden lath or studding in the building. The cornices will be of metal and the roof of Spanish tile. J. B. Visscher, Syracuse, is the chairman of the building committee.

MARION, N. Y.—James A. Salter, of Rochester, N. Y., has completed plans for a brick church edifice for the Baptist Society of Marion. A Sunday-school room and several large classrooms will be features. It is planned to accommodate 500.

ST. PAUL, MINN.—Cass Gilbert, 111 5th av, New York, has awarded the following: Interior woodwork, interior stone and marble contracts, for the St. Paul, Minn., State Capitol, to Butler Bros.

## The Labor Crisis.

With May Day a fortnight away, the negotiations between employers in various lines and their men have crystalized into a form where the prediction can be made that there will be no disastrous conflict.

It is understood that the bricklayers will not insist upon 70 cents a day, but will be satisfied to have the present scale continued. Their request for an advance is regarded as a diplomatic move to hold off an expected reduction, which the condition of business has quite warranted. But for the promises which the plasterers obtained last fall, to go into effect in midsummer, the bricklayers might have received notice of a lower wage scale after May 1.

Disagreements between the unions have sprung up over a proposition to affiliate with the United Building Trades, and there is said to be a pretty general sentiment among them that they should not disturb their employers at this time.

The striking structural workers quietly resumed work on the 58th st Power House on Thursday. Terry & Tench are the subcontractors. The men gave no reasons for their change of mind, but it is taken as a sign of the breaking up of the strike against the American Bridge Company. In other cities the company is rapidly filling the places of the quitters.

The last word at the close of the week as regards the structural iron situation is that no general eruption need now be apprehended.

The outbreak of the Brotherhood carpenters against their Amalgamated brethren has proceeded far enough to show that it is a loser. Many Brotherhood men are deserting, and with a great number of craftsmen that have come from the surrounding cities the Amalgamated are making out well. A number of large employers report that they have all the men they need, and the stormy weather has served to cover up holes in the ranks elsewhere. Members are being received into the Amalgamated under a special dispensation at $5 a head, instead of $25, the usual initiation fee, and many Amalgamated men also feel happy over their promotion to foremanships that were vacated by the Brotherhood. As the opportunity for getting work is attracting large numbers of carpenters from other places, it is only a question of time when affairs will resume their normal condition.

The official scale of wages for carpenters calls for $4.50 a day, but probably not more than a quarter of them receive it. For the rest, the rate is a subject for private agreement.

Builders are interested in the demand of tugboat and steamboat engineers to the extent that it may interfere with their sup-

plies. The public are comforted by the assurance that the ferry engineers are not in it, these having obtained an advance last October.

## Of Interest to the Building Trades.

Is the Brotherhood of Carpenters sorry?

Bernstein & Bernstein will move to 72 Trinity place.

William Hanford Beers, architect, has moved to 5 West 31st st.

Cunningham & Bullard have moved to 893 Jackson av, corner of 163d st.

The Amalgamated carpenters' powerful allies count heavy in times like these.

The Mayor has approved of the ordinance laying out Sunset Park, Brooklyn.

I. A. Hopper, 160 5th av, returned to the city this week after a sojourn of two months in Florida on his orange grove.

The appropriation for the construction of parks, parkways, boulevards and driveways under the jurisdiction of the Department of Parks amounts to $250,000 this year.

The managers of the Presbyterian Hospital have received permission to build a tunnel under East 71st st, to connect the surgical ward on the south side and the nurses' home on the north side.

The city contemplates building a new steam plant for the Workhouse on Blackwell's Island. An ordinance appropriating $800 for plans has been referred to the Finance Committee of the Common Council.

When an elevated railroad shall be built down West st one of its good effects will be to equalize somewhat the advantages of location for steamboat and steamship landings, and there will be less reluctance to lease piers situated far uptown.

The Mutual Life Insurance Company is constructing a tunnel under and across Liberty st, between Nassau and William, to connect the properties Nos. 33 and 35 Liberty st and Nos. 41 to 49 Liberty st, on the north side of the street, with No. 46 Liberty st, on the south side.

C. H. Southard, dealer in second-hand building materials, with yards at 9th av, 14th to 15th st, has the contract to raze the old Macy buildings, at 6th av and 14th st, and will commence work on May 1. On this site will be erected for Henry Siegel a 10-sty building from plans by Cady, Berg & See.

The Brooklyn Fireproof Sash and Door Co., with plant at Nos. 26-28 Frost st, Brooklyn, manufactures exclusively metal-covered doors, windows and trim, as required by the Tenement House Law. Architects, builders and others in the market for such material will do well to communicate with them.

A. Mietz, manufacturer of gas and kerosene engines, of Nos. 128 to 138 Mott st, has issued his annual illustrated catalogue, showing the many uses to which his machines may be put where power is required. His new pumping engine for apartments and tenements is having a large sale. To owners, builders and those interested will be mailed catalogues on application.

If the arrangements now under consideration are carried out, there will be a total of seven public comfort stations, all in Manhattan Borough, situated in as many public squares, where pedestrian traffic is the greatest. That they may be commodious and elaborate affairs, is indicated by the proposed appropriation of $225,000.

A few of the contracts completed or in hand by the Eagle Artificial Stone Works, of 500 East 11th st, include: Concrete floors, cellars and sidewalks for Public Schools Nos. 89 and 110; the former at Lenox av and 135th st, for Contractor C. H. Peckworth, and the latter at Broome and Cannon sts, for Contractor Peter Cleary; concrete work for a row of private dwellings on East 52d st, and Boys' Clubhouse on 35th st, between 7th and 8th avs, for the John H. Parker Co. Telephone 1360 18th st, calls the Eagle Artificial Stone Works.

The contract for the entire kitchen equipment for the new Hotel Astor, now being built at 44th and 45th sts and 7th av, New York City, has been awarded to the Cosmopolitan Range Company, of Nos. 26 to 40 Sullivan st. The same company has just completed what is thought to be the best grill kitchen in this city, at Burns' restaurant, 783 6th av. An immense steam table, some 21½ ft. long, is one of the chief features. A trip to the Ansonia Hotel, 73d st and Boulevard, will more than pay those interested in up-to-date cooking grills, for without exaggeration the combination Gas and Electric Grill lately installed in the grill room is the finest in the world.

The Alfred Bootc Co., manufacturers of wood mantels, open fireplaces, tiling, etc., with warerooms at Nos. 122 and 124 West 33d st, make a specialty in the furnishing of large apartments and hotels, and are well known for the excellence of their work. Their present contracts include the Hotel La Marquis, 64th st, east of Broadway, for Paul B. Pugh & Co.; Hotel York, 36th st and 7th av, for the Central Realty Co. (Todd Bros.); a new apartment at 70th st and Amsterdam av, for the Seaboard Realty Co. (Irons & Todd); a new apartment at Broadway and 55th st, for N. E. Clark; new apartment, 12 E. 31st st, for Joseph Fleischman (Walter Reid & Co., builders). They have recently completed some elaborate work at Long Branch for John A. McCall, president of the New York Life Insurance Co.

## Ball for Building Men.

The employes of the Bureau of Buildings commemorated the anniversary of their social and mutual benefit association on Thursday evening, with a reception and ball, which was very largely attended, at the Lexington Avenue Opera House, in 58th st. Many gentlemen prominent in the building trades were present. The Board of Officers of the "Associated Employees of the Bureau of Buildings of New York City" consist of Henry W. Cole, president; Thos. W. Byrnes, vice-president; Cornelius M. Breen, financial secretary; J. F. Lalor, recording secretary; John E. Peck, treasurer; Chas. Sweeney, sergeant-at-arms; John J. Dolan, John A. Hamm, John M. Faires, J. A. Capper, Wm. Golding, trustees. The Entertainment and Arrangement Committee comprised: Herbert W. Smith, chairman; Thos. W. Walsh, secretary; John M. Faires, treasurer; and John J. Dolan, Thos. W. Byrnes, Edward J. O'Connor, Chas. French, Richard W. Selles, Jr., J. A. Capper, Joseph J. Ryan, Edmund Fitzpatrick, O. B. Maginness, Chas. Sweeney. The Chairman of Reception Committee was Deputy-Superintendent John L. Jordan. Floor manager, Nelson McFadden; assistants, John A. Hamm, Chas. Ulman, James W. Reilly, Richard M. Selles, Jr., James J. McDonald, Albert L. Lexutt. Music, Thos. W. Usher. The entertainment was furnished through the kindness of Shubert Bros., Hurtig & Seaman, Ted. D. Marks and F. O. Mills. The stage was under the direction of Louis Wesley.

Superintendent Stewart and wife led the grand march. Mr. Stewart's life-size portrait formed part of the decorations. Flowers lighted by twinkling electric bulbs bloomed everywhere, and flags were wrought into graceful forms. Professional entertainers contributed a vaudeville entertainment, and just before the ball began the Grace Zouaves of Brooklyn, commanded by Herbert W. Smith, Corporal of the 71st Regiment, and one of Chief Stewart's aides, gave an artistic exhibition drill. City notables crowded to the reception that preceded the ball. Assistant Corporation Counsel Matthew C. Fleming was there with his staff, Samuel J. Parmenter, Henry S. Johnston and Louis Gans; so also was ex-Assistant Corporation Counsel Charles W. Ridgway, Prof. Ira H. Woolson of Columbia University, ex-Building Commissioner Thomas J. Brady, ex-Superintendents John F. Walsh and Joseph Gordon, Patrick J. Reville, the new Chief of the Bronx Building Bureau; City Clerk Scully, Aldermen Theiss and Coggey; ex-Justice Daniel A. McMahon, ex-Sheriff Thom. Dunn, and Patrick J. Andrew's genial smile adorned the entire night and following morning. The belle of the ball was there, not one, but so many that it made the young fellows giddy to count them. The attendance altogether exceeded two thousand.

## Obituary Notes.

William R. Martin, who died on Sunday at the ripe old age of 91, was buried on Wednesday. He was well known in realty circles as "Trader Martin," because of his delight in a swap. He made and lost several fortunes and was a heavy speculator in Wall Street before entering on realty operations. For about thirty years he made his headquarters at A. L. Mordecai's offices, but had been inactive for several years, and then seldom came downtown. Mr. Martin dealt in many of the most valuable parcels, and always searched his own titles with the aid of the files of the Record and Guide. It is related of Mr. Martin that on one occasion when in a bad way financially he bought a parcel in 56th st for over $150,000, paying only $250 down on a 60-day contract. He made good, however, and cleared something like fifteen or twenty thousand on the transaction.

The cause of the death of Charles A. Schultz, of Rondout, whose demise was noted last week, was cancer of the stomach. Mr. Schultz was a son of the late George S. Schultz, and succeeded his father as proprietor of the Schultz brickyard, at East Kingston, which was claimed to be "the parlor brickyard along the beach." Mr. Schultz married Miss Florence Herbert of New York City, who survives him. He was for many years a director in the National Bank of Rondout.

William B. Swan, an assistant engineer in the Park Department, died Tuesday night at his home, No. 912 Home st., The Bronx, from heart disease brought on by inflammatory rheumatism. Mr. Swan was appointed to the Park Department in 1859. He did much of the more important work of the department, and laid out the north end of the Boulevard and a large portion of the Croton Aqueduct.

—Imagine a simultaneous tie-up of all ferries, steamboats and tugs, and of the elevated lines, through strikes of marine engineers and railroad employes! The possibility is too imminent to be lightly regarded.

## CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The strect and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the exlsting ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in cach conveyance, thus, 2:482, denote that the property is located in section 2 block 482.

6th.—It sohuld also be noted in section and block numbers, the instrument as filed is strictly followed.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

April 10, 11, 13, 14, 15 and 16.

# JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this columu, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

NOTE.—The first name, alphabetically arrauged, is that of the Mortgagor, or party who gives the Mortgage. "R" means Reuewal Mortgage.

## For a New Bridge Across the Harlem.

At present there is no bridge connecting the opposite sides of the Harlem River, between Washington Bridge and Kingsbridge, a distance of two miles, and the time seems to have arrived to build one. The site preferred is at 9th av and 207th st, Harlem, to connect with Harlem River Terrace, at 184th st, in the Bronx. A bridge so situated would enable the people of Fordham Heights to use the Rapid Transit system on 10th av. The Board of Aldermen has been asked to appropriate $5,000 for surveys and soundings. Preliminary plans show a clearance of 24 feet above mean high water and a width of 60 feet. The bridge will have a draw span, probably of the lift type. The estimated cost of the construction is $500,000. If the New York Central Railroad builds an overhead station by the side of the bridge, as is proposed, the two plans may be worked in conjunction.

—An ordinance was adopted by the Board of Aldermen this week authorizing the laying out of a public park, having as boundaries 73d st and Fort Hamilton and 7th avs, Brooklyn. It appeared from the statements made at the hearing, on March 6, that the cost of acquiring the land will not exceed $100,000, as there are no structures within the area. The nearest existing park is a mile distant. Covered by old shade trees and commanding a fine view, the place was chosen for its natural beauty, as the result of a popular movement.

—Probabilities point to the speedy completion of Gouverneur Hospital, on the East River, at Gouverneur Slip. The new administration building with one wing was opened in 1901, and now it is desired that the other wing be built, together with other necessary structures.

—The new amendments to the Tenement House Law are expected to induce a large amount of building in certain lines. The truth of the prophecy should be apparent in a few weeks. Speaking of the original measure, this week, before the Governor's favorable action was announced, Mr. William Prager, of Lowenfeld & Prager, said: "I was among the most earnest opponents of the law when it was passed, but I find that the effect on tenement house properties has not been as I had feared. The Commissioners have shown every consideration for the owners of old buildings. To-day the tenement rentals on the East Side, at least, are higher than ever before, and almost every available building is entirely occupied."

This has been a poor week for outside work, because of the continued rain. Operations were practically suspended until Thursday, and only fully resumed on Friday. Under such circumstances the arrivals of common brick greatly exceeded the requirement, prices continued weak and unsettled, and the market was without color. However, the manufacturers confidently expect a pleasant change when the May crisis is passed, and settled weather, and settled labor, permit that opportunity for unremitting work which the building interests crave.

The announcement that a large abattoir will be erected on 11th av, covering the block between 39th and 40th sts, has aroused property-owners of the vicinity. The Longacre League, which meets at 523 West 44th st, has taken the matter up, but a disinterested inquirer reports that he found no particular opposition among the shopkeepers thereabouts, and some favored it.

—On Tuesday, at a meeting of the new Real Estate Association of New York, in the Knickerbocker Trust Company Building, the articles of incorporation, which it is proposed to apply for at Albany were adopted. The directors named in them are: Charles T. Barney, Edwin W. Coggeshall, W. H. Chesebrough, John D. Crimmins, Robert E. Dowling, George G. De Witt, Edward J. Devlin, Horace S. Ely, Amos F. Eno, Frederick H. Ecker, Albert Flake, Andrew H. Green, Charles F. Hoffman, Clarence H. Kelsey, Edgar J. Levey, William H. McIntyre, Henry Morgenthau, Henry F. Miller, Charles E. Miller, David B. Ogden, Charles A. Peabody, Frederick Potter, Douglas Robinson, John

Harson Rhoades, B. Amar Sands, William R. Stewart, Edward E. Sprague, Henry L. Thornell, Ernest Thalman and Bradish Johnson.

—The ordinance providing for laying out a new street, 80 feet wide, from the Bowery to Elm st, between Broome and Spring sts, has been referred to the Committee on Streets, Highways and Sewers. Opposition to the opening has appeared in some force. The plan would result in the condemnation of the buildings Nos. 406, 408, 410 and 412 Broome st, Nos. 187 and 189 Elm st, and Nos. 4 and 6 Marion st, owned by the American Express Company. The building is at present under lease to Flandrau & Co., carriage builders, and Mr. Daniel T. Wilson, of that firm, has entered a protest against the condemnation of the building. The express company suggests as an alternative to extend the approach straight through to Elm st following the line of Delancey st, removing the small half-houses at the rear of the Elm, Broome and Marion sts block. This would end the approach between Broome and Spring sts just where the station of the underground raiload will be. And it would avoid the cutting up of the four blocks between Elm st and the Bowery into irregular plots or gores.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

*"Entered at the Post Office at New York, N. Y., as second-class matter."*

Vol. LXXI. APRIL 25, 1903. No. 1832.

UNDER present conditions the Stock Market refuses to move continuously either up or down. A period of heavy selling, during which prices fall off from five to twenty points, and the market becomes oversold, is followed by a few days of lively professional buying, which suffices to send prices back a few points. Then the speculators take their profits, and a period of dullness supervenes. It is impossible to keep values on the decline in the face of increasing railway and industrial earnings. But it is equally impossble to keep continuously advancing because the buying power of investors is apparently distinctly limited. How long this see-saw will prevail, one cannot say; and it may be that prices will go lower before they go higher; but the probabilities assuredly favor for the summer months a buying rather than a selling movement. It looks as if the market would continue to hesitate, until there is some assurance that the excellent winter wheat crop will be followed by at least crops of corn and spring wheat. If the yield is good, prices will surely be higher in the fall than they are now. If the yield is only indifferent, they may not be any lower, because if the large tonnage of miscellaneous traffic, which will continue to be offered, but in that case it is doubtful whether any bull movement may be expected. The point is that security market needs a strong stimulus, in order to encourage good buying, and it needs particularly to sell large shipments of grain, so that American bankers may repay their European loans. But all this, of course, is a matter for the future rather than for the present. Just now it is well to take small profits rather than wait for large ones, and it is well not to commit oneself strongly either on one side or the other. Irregularity is likely to prevail for some months, with the probability eventually of a higher level of values.

THE difficulty which the Board of Estimate and Apportionment is having in making satisfactory arrangements for the widening of 59th St. is typical of the enormous obstacles which arise, when such street improvements are necessitated. In the present instance everyone admits that the street must be widened, the existing traffic congestion being such as seriously to embarrass the transaction of business in the vicinity. It is tolerably plain, also, that in order to accommodate the traffic at least forty feet should be added to the width of the street and that these forty feet should be taken from the north side. It would probably be a little cheaper to take them from the south side; but the difference in expense would not be large, and the advantage of the northern strip in making the street east of 5th Ave. align with the street west of 5th Ave., would be very great. So far it is plain sailing, although it has taken the local improvement board a sufficiently long time to reach these conclusions. But just as soon as the details and cost of the improvement are considered, the obstacles become very formidable. Such a property as the new Netherland Hotel would be totally destroyed. The assessed valuation of the forty feet is about $5,000,000; and it is safe to say that it would cost at least $8,000,000 to condemn it. This enormous cost has led to alternative suggestions, such, for instance, as taking 100 feet from the south side of 60th St. or such as trying to divert the traffic to 57th St.; but both of these proposals evade rather than meet the difficulty. Fifty-ninth St. is the natural artery of traffic; it would need to be widened even if the Blackwell's Island Bridge were not in the course of construction; and the traffic created by the new bridge will naturally take the most direct route. It would mean great public inconvenience in case either of the alternative schemes which have been proposed should be adopted. The conclusion that 59th St. must be widened at any cost is unavoidable. The only question is: How can it be done at the smallest expense and to the greatest public advantage?

THERE is one way in which the expense of the widening could be lessened without any loss to property-owners, and that would be by making the street widening help to pay its own expenses. The condemnation of a 40-foot strip on the north side of a street, the lots of which are 100 feet deep, is necessarily an extravagant and wasteful business. The houses on the street are all of them more than forty feet deep, so that in order to secure a 40-foot strip, it would be necessary to pay for the improvements on the entire lot. Thus by condemning forty feet the city is heavily mulcted for damages, while the property-owners are left with lots only 60 feet deep—lots, that is, that are too shallow to be profitably improved under existing conditions. On a fine broad street, such as 59th St. would then become, leading to a bridge, which some day will carry an enormous amount of travel, new buildings can be advantageously erected only on very large plots. Surely under such conditions the economical and sensible thing to do would be to condemn all the blocks between 59th and 60th Sts., 5th and 2d Aves., and then, after the improvement is completed, sell off the remaining lots in large parcels for improvement. It is true that this method of partly paying for street improvements is an innovation, so far as New York is concerned, and would require special legislation before it could be used; but it certainly has advantages, which deserve to be seriously considered by the city government. It would not do the property-owners on the north side of 59th St. any harm, because the 60-foot strip could not be profitably used, and because buildings erected on such shallow lots would have an unfavorable effect on the business of the street. The property-owners on the south side of 60th St. would have more of a grievance; but they would sell their property at a fair price and escape an assessment for the cost of the widening. On the other hand the city would have a ready sale for the property on the widened street at a price which would surely cut in half the cost of the widening. It is certainly worth experimenting with this method, because it is difficult to see how these street widening proceedings, which are frequently so necessary, yet which are inevitably so expensive, can be carried out unless some such method is adopted.

IN the new Stock Exchange, New York may rejoice in a public building of which it has a right to be unqualifiedly proud. It is much the most sincere, impressive, and beautiful work of commercial architecture in the country; and indeed, we doubt whether any other country can show a modern building devoted to business purposes, in which exacting utilitarian needs have been more skillfully reconciled with dignified and appropriate architectural effect. Buildings like these of the Clearing House and the Chamber of Commerce give an observer the impression that they are somewhat ashamed of their size compared with the size of their towering neighbors, and that they are trying to brazen it out by the use of striking and conspicuous detail, but the dimensions of the new Stock Exchange Building are excellent in themselves and so generous that the building can hold its own against even a twenty-story "sky-scraper," while the collonnade, which is the main feature of the design, and which has a real structural purpose, is right in scale, and admirably designed in detail. There is every reason to believe, also, that the interior arrangements have been as happily contrived as its exterior design. If anyone believes that it is an easy thing to turn out a successful building like this, let them read the history of the design, as narrated by Mr. Percy Stuart in the Architectural Record for July, 1901. He will then begin to realize how much patient ingenuity, and what loyal coöperation among the building committee, the architects, and the engineers was necessary before the completed plans of the present structure were worked out. Again and again those plans had to be altered in order to meet unforeseen requirements or possible emergencies, and if the result is successful, the success has been earned by everyone who has had a hand in bringing it about.

IT is just as well that the Elsberg rapid transit bill did not pass this year, for we do not want the rapid transit act amended, unless the Mayor ond the Board cordially concur in the amendments. At the same time we do not believe that the Mayor and the Citizens' Union committee are so far apart in their opinions about rapid transit legislation that a bill acceptable to both cannot be drawn. Both are agreed upon the chief objects to be sought in framing the bill—the objects namely of economical construction, of a service carefully regulated in the public interest, of a constant revision of the terms of the lease, and of something less than a 5-cent fare as soon as practicable. They differ chiefly in the means which it is proposed to take in order to accomplish these objects. The Mayor attaches the utmost importance to the operation of the whole system by one company, which will be in a position to offer a contin-

uous and well coördinated service; and he believes furthermore that the hands of the Rapid Transit commissioners should be left free, so that the best terms can be secured from the Interborough Company. He is quite willing for instance to consent to a long lease, provided periodical readjustments of its details are made. The Citizens Union, on the other hand, will trust neither the commission nor the Interborough Company; it wants the leases made for short terms; and it wants to encourage competition, not only in the construction contract, but in the contract for operation. On the whole the position assumed by the Mayor is more sensible. The bill which he had drawn should have provided for a competitive system, in case proper terms could not be secured from the Interborough Company, but his insistence upon the extreme desirability of having the whole system operated by a single company is entirely right, and it is certainly true that the city could get better terms from a company holding a long, but regularly revised lease, than from one whose contract expired every ten years. We believe, however, that some satisfactory compromise can be arranged, which will both enable the Rapid Transit commissioners to conduct negotiations with some freedom, yet which will provide for the complete control by the municipality of the subway service and a fair participation in its profits. No harm will be done by delaying additional construction for another year—until, that is, the present system has been tried.

## Small Families and Flats.

IS there any relation between the decreased fecundity of certain classes of the American people and the increasing custom of living in apartment houses? This question has been answered with some degree of plausibility in the affirmative. The French, who, to use President Roosevelt's phrase, are committing race suicide faster than any people in Europe, live more than the inhabitants of any other country in flats; and flats certainly are not very desirable places in which to bring up children. A family with more than two or three youngsters in it, has a hard time in the ordinary New York apartment. It is hard on the children, because they cannot get as much light and air as they need, and because they have no sufficient room in which to play. It is hard upon the mother, because she must necessarily have her children constantly about her, and because it distresses her that her children lack wholesome and invigorating surroundings. Consequently it may well be that the necessity of living in apartment houses has something to do with the suicidal tendencies of which the President is so much afraid.

It has something to do with it, but probably not very much. No doubt, if one took a thousand families who were paying from $40 to $50 rent per month in a New York apartment and compared them with a thousand families of similar means resident in New Jersey or Long Island suburbs, it would be found that the families of the suburban residents would average larger; but this would be the result quite as much of selection as of the direct effect of apartment-house conditions. Mothers who had the large families would be more likely to insist upon living in the suburbs than mothers with small families. Obviously, then, flats cannot count very big among the many causes which are making for small families. In Boston where the families tend to be smallest there are very few apartment houses. On the East Side of New York, where there are nothing but flats and tenements, children are as abundant as fish in the sea. Every fact which has been published in connection with the matter points plainly to the conclusion that the small families exist chiefly among families of education and means and that given a certain amount of money, a certain amount of culture, and, be it added, a certain standard of responsibility, it is a very rare thing in this country to find families with more than three children to their credit.

We have no intention of discussing either the causes or the consequences of this problem of race suicide in all their bearings; but we should like to call attention to one cause, the extreme importance of which has been generally over-looked, and which bears directly upon the aspect of the matter, now under consideration. The prevalence of small families in this country and in France is, we believe, almost entirely the consequence of the attitude of educated women toward the task or the duty of bearing children. If such women believe it right and desirable to have large families, as the women of the last generation did, large families are born and bred; but if they consider it wrong or undesirable only a few children are born. It is their opinion and wish which is the effective agent. So far as the small families of American women at the present time is concerned, they are the result partly of very excellent motives on the part of American mothers, and partly of motives which are not so excellent. The excellent motive is the conviction of many American mothers that they cannot properly train and educate more than three or four children; the motive which is not so excellent is the desire to get rid of domestic responsibilities of all kinds for the sake of pursuing their personal occupations with less hindrance and with more pleasure.

It will be seen that both of these motives have a bearing upon the relation between flats and small families. The extremely conscientious mother will probably object to raising her children amid the promiscuous surroundings and the not entirely wholesome conditions of life in a small flat. She will probably take her family to the suburbs; or if she is forced to live in the midst of the city, she will select an apartment in the immediate neighborhood of a park. On the other hand the less conscientious woman who, to put, it plainly, wants to avoid the distress and bother of a large family, will generally find it convenient to live in a flat. Even though she can afford a private house, either in the city or the suburbs, she will choose the flat, because a flat means less work for herself, less trouble about servants, and generally less domestic responsibility. A woman who feels this way will, perhaps, be even more likely to rent apartments in a family hotel, for such hotels, as has frequently been noticed, are intended particularly for people without families. In cases such as these it is not the flat which is responsible for the small family, but both the small family and the flat are expressions of the attitude toward domestic life. We shall not pretend to estimate the comparative prevalence these motives of extreme domestic irresponsibility among American women; but we believe that taken together they account for a large proportion of the small families, which are to be found among well-to-do and well-educated Americans; and while the tendency is in some respects very much to be regretted, it should not be forgotten that it is closely associated with one of the strongest and the best movements in contemporary American life—the movement in the direction of the best possible training and education of children during their early and most impressionable years.

## Real Estate Situation.

Very decidedly the best news which the past week has developed, in respect to the real estate market, is the adjournment of the Legislature. It is not that the Legislature actually passed any bills, which inflicted hardships upon property-owners. On the contrary, it passed several distinctly beneficial measures—such as the Sinking Fund relief bill, the New York Central improvement bills, and the like. But as long as it remained in session, and had mortgage and conveyance tax measures in committee, it was constantly holding a threat over New York property-owners. It is consequently a matter of the greatest relief that the session is over, and that no disastrous legislation need be feared for another year. The market seems never to have recovered from the blow, which the threatened mortgage tax legislation gave it. Until about four weeks ago it was displaying a more wholesome vitality than at any time since the present movement began; but since then the life has gradually gone out of it until during the present week it has become actually dull and uninteresting. That the threatened mortgage tax legislation is wholly responsible for this dullness, we do not assert; but it certainly was a contributing cause. It entirely stopped, for instance, the purchases of the big speculative corporations. It remains to be seen whether any revival will now take place; but we rather doubt it. General conditions do not favor at the present time any great increase of speculative or general activity. It is undoubtedly difficult to borrow the money necessary for real estate transactions, and prices of all the ingredients of a building from the land to the hardware are expensive.. There is every reason to go slow—just as speculators began to go slow last spring a few weeks later than this.

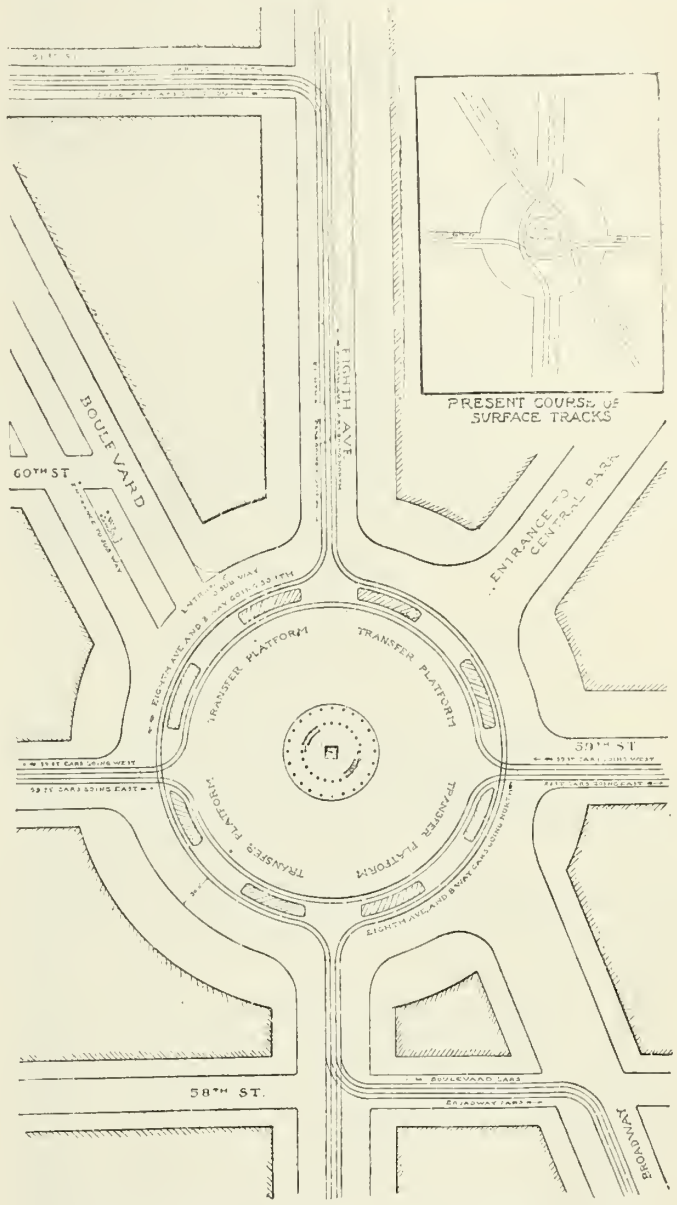
**Lessening Activity.**

It is obvious, however, that this dullness, even if it continue, will not last ever the summer. The conditions making for high-priced real estate and large building operations have not begun to lose their power. The demands of business for new and better accommodations are not even yet satisfied. The demands of the increasing population for new living accommodations is still more exigent. There has been no over-building as yet in any direction. The effect of the subway has still actually to be felt, and it will doubtless be different from anybody's anticipations. The effect of the other transit improvements will provide an additional leaven for the more remote future. In short the local conditions making for real estate and building expansion are in some respects independent of the general prosperity, and will keep speculators active and guessing for many years to come. It is well to keep these facts in mind. The truth is that in the

face of the promise, which is afforded by the immediate future of New York City, the real estate market has for the last two years been conservative, rather than the reverse. Real estate operators have not lost their head as they did before 1873; prices have been advanced only where justified, and only as far as justified; and for this reason the activity should be steady, and the progress continuous. These periods of dullness are merely breathing spells which will enable real estate operators to make further advances next fall.

The news of the week did not contain very many items of interest. The probability that the Pennsylvania Railroad Company will build on its Cortlandt St. property was foreshadowed in these columns last week, and will have a beneficial effect on the whole district to the west of Broadway and to the south of Dey St. Another interesting announcement is the projected building of two six-story mercantile buildings at Nos. 132 to 142 West 27th St. This project is not the first of its kind on the streets to the west of Sixth Ave., and it serves consequently to indicate the line of the future expansion of the wholesale trade. The probability now is that north of 23d St. it will not spread on both sides of Fourth Ave., and, of course, it cannot afford the neighborhood of Fifth Ave. It will rather seek new accommodations along the line of Broadway, and as far west as 7th Ave. at least. This will undoubtedly be a most desirable direction for it to take, because that neighborhood is not very savory at present, and the incoming of commercial buildings will be both a cleansing and a leavening process. It would be a great good thing, if the whole section between Broadway, 8th Ave., 23d and 42d Sts. should eventually be covered with mercantile buildings.

## 59th Street and Columbus Circle.



On May 1 the Board of Estimate and Apportionment will grant another hearing on the recommendation of the Local Board to widen 59th st 40 feet on the north side. The opposition continuing strong, the battle is being fought all over again; but this time the question turns not so much on which side to slice, but if it is worth the cost to carve at all. The Mayor does not visibly warm to the subject, and some of his searching interrogations as to the value and necessity for the work may not have been answered to his satisfaction. He does not fancy demolishing the Board of Education Building, and so increasing the cost to the city of widening on the south side; nor can he quite see the wisdom of expending several million dollars and get in return only a slightly broader approach. "What is the necessity of widening at all?" he suddenly asked while Mr. Bloomingdale was eloquently pleading for the Board to shave the south side. "Would you consent to a widening on the north side?" Mr. Bloomingdale heroically answered that he would rather have a section cut off his big dry goods house than not have the street improved. Comptroller Grout hesitates at the great expense, while Mr. Fornes is not likely to consent to the deformation at the 5th av intersection merely for the sake of saving a million or even two. That is a sort of mark the President of the Board of Aldermen does not care to leave after him.

Upon Grand Circle realty the widening would have a highly improving influence, and it is noticeable that a weighty part of the pushing force behind the movement is furnished by owners whose property would be benefited. Interests purely commercial disapprove of an exceptionally broad street, fearing that it would be "one-sided," but when the physical requirements of a bridge approach are alone considered, the wider it is the better.

Public opinion favors the widening, but shakes its head doubtfully at the expense, and looks around for other ways out. In this connection 57th st has been mentioned, and it has been asked if the plaza which is to be formed at the bridge entrance cannot be expanded southwardly in a manner to give an easy access to that broad thoroughfare and divert traffic thereto. But the Mayor hesitates to accord his favor to this suggestion, for the reason that the dimensions already planned for the plaza fill the actual requirements. Bridge traffic will naturally seek this and other adjacent cross streets, it is argued, without special encouragement, should 59th st not be broadened.

Prominent in the field of observation is the contemplated elaboration of Columbus Circle. In cutting across close to the memorial column the surface railways desecrate the dignity that should hedge it about, and the Municipal Art Society in remonstrating suggest both a rearrangement of the rails and a readjustment of the monument. If the first should be done at once, the second would follow speedily. In their opinion the tracks should be carried around in a perfect circle, the outer rim of which should be not more than 30 ft. from the curb of the sidewalk; the northbound track for 8th av and Broadway cars curving to the east of the monument, the south-bound to the west, and the cross-town tracks to circle around in a similar manner north and south. To accomplish this the Broadway tracks would be turned through 58th st to join the 8th av line, which would then be used in common to 61st st, where the Broadway cars would leave the 8th av tracks and proceed westward to the Boulevard. Between 58th st and the Circle, and 61st st and the Circle, the tracks of the Broadway-Boulevard line will be taken up, if the Art Society's promptings are followed, and there will be for riders, drivers and the scurrying thousands two less crossings to make.

Next in order would come the elevating of the monument and the rearing around it of a beautiful collonade to serve as an aisle of safety as well as a setting for the great column. The

REARRANGEMENT OF TRACKS IN COLUMBUS CIRCLE.

West End Association of Property Owners have officially expressed their approval of the whole design, and with inquiring mein the public turn to the controlling railroad corporation and pause for a reply.

The Local Board of Improvements will consider the subject of traffic requirements at Columbus Circle and grant a hearing to all interested at the City Hall at 12 o'clock on May 5.

## New Plan of The Bronx.

Another section of the new map of Bronx Borough which President Haffen's administration has undertaken to prepare was approved by the Board of Estimate and Apportionment yesterday. This embraces everything between the Bronx River, Westchester Creek and the Sound, amounting to 28 sq. miles. In its issue of February 14 the Record and Guide fully explained the general nature and purpose of the topographical work which the Bronx people have taken in hand. The layout made under a previous administration embodied the diagonal system of building streets, much as we find it exemplified in Washington, while the new maps change all that and follow the ordinary rectangular method, and at the same time recognize, as far as public interests will permit, existing lines and established facts.

"The old map was extravagant," said President Haffan, when interrogated this week for the Record and Guide. "It amounts to confiscation of the property in many instances. Our present plan is to accommodate and compromise with existing conditions. The layout is for the future rather than for the present; some of the streets may not be built for a hundred years; but in some instances we may ask for permission to immediately work out certain parts."

This last completed section of the general map outlines 420 miles of streets, through which the Bronx and Pelham Parkway is the main dividing line. North of the parkway was a section, laid out by the previous Board of Public Improvements, in which the diagonal plan of city building was illustrated with a free hand, and, as must be admitted, with handsome effect. But

this has been obliterated by the new drawings, and such aforetime thoroughfares as the Boston road, the Williamsbridge road and the Eastchester road, have been re-established. On Pelham Parkway the property will face the road in square cornered blocks. For the section south of the parkway bulkhead lines have been fixed along the Bronx and Hutchinson Rivers and Pugsley Creek, and in the case of the Bronx a waterway much wider and straighter than the present flow is wisely provided for. An addition of 100 acres to Bronx Park is also marked out, and the line of Tremont avenue has been altered so as to make a direct route to the Sound. Morris Park race track is taken for streets, and room is left for a four-track road at the request of the New York Central. At the hearing both the Mayor and the Controller explained as this was merely the formal approval of a general street system, matters of detail might be left to subsequent consideration.

At noon of April 27, in Borough Hall, Bronx, President Haffan will open bids for seventeen improvements, including several thousand street signs, quantities of bluestone and curbstone, 15,000 yds. of broken stone (trap rock) and 15,000 yds. of screenings; also for repaving with asphalt portions of East 168th st, East 134th st, Locust av, Jackson av, and regrading and repaving with granite block the Southern Boulevard, from 138th st to Boston road at 174th st. The cost of the Boulevard improvement, the security for which is $100,000, will be divided equally between the property owners, the Union Railway Company and the city. The time allowed for the work is 200 days. Other improvements to be undertaken at this time are, regulating, grading, etc., parts of Weekes av, Mapes av, White Plains av, Mohegan av, Ryer av, Hoe st, 204th st and Hull av.

## Union Ferry Franchise.

FERRY COMPANY AND CITY STILL WIDE APART—A CURIOUS STATE OF THINGS.

Various attempts have been made by the City to sell the franchise held by the Union Ferry Company, which expired two years ago. The lease covered five ferries between the boroughs of Manhattan and Brooklyn, and under its terms the ferry company paid 7¾ per cent. of the gross receipts, amounting to about $60,000. No competitive bidders have thus far appeared, the clause in the lease requiring any successful bidder to pay to the former lessee the appraised value of its property, which has been placed at $3,229,401, being the stumbling block to competition, in that with such a capitalization successful operation is deemed impossible.

The latest proposition has come from the Sinking Fund Commissioners through the Dock Commissioner, following a report by Engineer McLean, for a lease of 5 years, from May 1, 1901, be made to the Union Ferry Company on a 5.3 per cent. basis, with a minimum rental of $60,000 per annum until the Rapid Transit Tunnel to Brooklyn is open to traffic, when the minimum rental shall be reduced to $50,000, and to $40,000 when Manhattan Bridge shall be opened to travel. The Corporation Counsel advises that the company can be legally held as a hold-over tenant, and the authorities see no reason why they should accept any less advantageous terms from a corporation that has in the past netted a vast return from the franchise.

The ferry company had previously offered a new lease for 15 years at an annual rental of 4 per cent. of the gross receipts, the lease to contain a provision that the ferry company should have the privilege of terminating the lease if after the completing of Bridge No. 3 and the new Brooklyn subway the gross receipts fall below $760,000 per annum.

The company states that the receipts declined after the opening of the Brooklyn Bridge, in May, 1883, from $1,142,000 to $760,000 in 1900, until the past two years, when the receipts have increased to $783,000; that the operating expenses in 1900 were $637,000, against traffic receipts of $760,000, "leaving less than $123,000 over."

The company does not explain what is done with the "over" or what is included in the charge for operating expenses, but as the company paid the City in that year $60,000, and interest on its bonds of $2,200,000, at 5 per cent. equal to $110,000; and a dividend on its outstanding stock of $3,000,000 at 2 per cent., equal to $60,000, making a total of $230,000, some parts of this amount must either have been charged as operating expenses and the company obliged to draw on a surplus, or else there are large receipts from other sources not accounted for.

In 1889, in spite of the fact that the company faced declining revenues, there appears to have been no difficulty in reorganizing the company, which previously had worked on a capital of $1,000,000, stock selling at about $240, by capitalizing at $3,000,000 and issuing $2,200,000 5 per cent. bonds. An appraisal of the company's property and plant prior to reorganization in 1889 was $1,263,000, and yet $5,200,000 was issued in bonds and stock against this amount, and 5 per cent. paid on bonds, 4 per cent. on the stock, and the City received 12¾ per cent. of the gross receipts.

By an appraisal made two years later, under the terms of the lease, the value of the property of the company was given as $3,803,000, but this was contested by the City, and finally was reduced to $3,229,401. Engineer McLean, of the Department of Finance, is of the opinion that the bonds alone, in the sum of $2,200,000, represent very nearly the actual assets of the company, and that the stock has no value except the value of the franchise.

### Staten Island and South Brooklyn Ferry Plans.

For some weeks Mayor Low has had in charge the matter of the Staten Island ferry lease, with the object of getting things into such form that the city can institute a service that will give the people of Richmond Borough the facilities and conveniences they so greatly stand in need of. The Mayor believes the city is justified in assuming the ownership of the terminal at Staten Island, as well as at the Manhattan end, and he has not only caused enabling legislation to be enacted at Albany, but has also secured what amounts to an option from the present owners for the Staten Island terminal. Being now in a position to consider the sort of arrangements desirable for the city, the Mayor favors the constituting of an operating company to be composed of representatives from the two railroads concerned, namely, the Staten Island Rapid Transit Company and the trolley company, a plan which, while it avoids partiality, gives each of the rival companies a direct interest with the city in the ferry. An alternative was for the city itself to operate the ferry, but who is prepared to recommend a proceeding so daring at this time?

The Mayor is also considering the ferry to South Brooklyn, and he has secured for this also authority from the State to acquire title. At a hearing which he gave on Monday petitions were presented urging the City to take hold of this the same as the ferry to Staten Island. On the same day a substantial agreement was arrived at between the Mayor and the Dock Commissioner as to the terms of the lease to the Staten Island operating company, and these are being put into shape and will be discussed at another conference, in the Mayor's office next Monday afternoon. The contract with the operating company will be on the basis of a three-cent fare, with trips from Manhattan every ten minutes, by 5 new high-powered boats; two side services to other Staten Island points; both slips in Manhattan to be used. It is not expected that the receipts will balance the expenses during the first few years, but in time an immense traffic will certainly reward the lessees and honor the foresight of Seth Low. The importance of the project to real estate interests in the Borough is of course incalculable.

### Obituary—George W. Van Siclen.

With deep regret we have to record the death last Sunday of George West Van Siclen at the age of 62 years. Mr. Van Siclen was widely known in real estate circles. For many years he was Law Editor of The Record and Guide and his decisions were valued not only by our readers but were highly considered by his own profession. He made a special study of real estate law and was one of the founders of the Title Guaranty and Trust Company of New York. He was also the founder of the Holland Society. He was admitted to the bar 36 years ago. He was married twice, the second time to Grace C. Hogarth, who survives him. He leaves two sons. Mr. Van Siclen belonged to the Twilight Club, the New England Society, the Sons of the American Revolution and the American Geographical Society. A few years ago he retired to Cornwall, N. Y., where he died. He was buried at Greenwood.

### Should Unions Be Incorporated?

Mr. Otto M. Eidlitz, who, as Secretary of the United Building Trades of the city, has had much to do with settling labor troubles, favors the assertion that unions should be incorporated. He writes:

"In my opinion the incorporation of unions would add to their responsibility in that in case of difficulty the trade, as an organization, would have to answer for its vote in meeting. And if a union felt that its treasury and standing might be jeopardized, it would tend to make it more conservative and to see that its actions were strictly within the law. The assessing of damages on individuals for the act of the union seems to me unfair, and would only tend to increase our list of martyrs. Furthermore, the very act of incorporation would make the body subject more or less to State supervision, and the regulations of the law, and through this very fact tend to bring home to the officers and Executive Committee the fact that they are not free lances."

One union prominent in the building trades, Bricklayers' Union No 7, is already incorporated, but the general sentiment among employes in all trades is opposed. A well-known leader, a bricklayer, when asked for his opinion said:

"I am not aware that in this country unincorporated trade unions can be mulcted for damages the same as in partnerships True, there have been one or two such decisions here and there but these decisions have not been followed by other courts. If these decisions had been generally accepted there would not be the present agitation to have trade unions incorporated. This agitation is predicted upon the irresponsibility of trade unions in the courts."

## Gossip of the Week.

### Engine-House Site Bought.

The premises Nos. 278 and 284 Spring st, 72x87.6, have been sold to the city for $50,000, to be used as a site for an apparatus house for the accommodation of Engine No. 30. Originally the Fire Commissioner favored the purchase of 240 and 242 Spring st, 50x100, but the owner, Arthur M. Bullowa, of 450 Greenwich st, would not sell for less than $60,000.

### Hoboken Ferries Sold.

The Delaware, Lackawanna & Western, which has long been trying to improve its position on the Manhattan shore, has scored heavily by buying up the Hoboken ferries and terminals, including the Barclay, Christopher and Fourteenth street routes. The control is obtained by a stock purchase, and the D., L. & W. will at once begin to take full advantage of it. While the boats are about the best on the river on the whole, improvements will be introduced that will make the railroad very prominent in this city. The stock which changes hands is mostly that which was held by the Stevens family, and it is explained that a syndicate first bought the stock early last winter, and then began negotiations for the sale of it in a block. Just what Lackawanna paid could not be learned yesterday, but it is understood that the profits of the syndicate were between 10 and 12 per cent., and the par value of the outstanding stock was $3,300,000.
